I. Introduction

1. The General Assembly, in paragraph 1 of its resolution 74/24, called upon Member States to provide the Secretary-General, by 30 April annually, a report on their military expenditures for the latest fiscal year for which data are available, using, preferably and to the extent possible, one of the online reporting forms, including, if appropriate, a nil report or the “single figure” report on military expenditures or any other format developed in the context of similar reporting on military expenditures to other international or regional organizations.

II. Actions taken by the Secretariat

2. On 31 January 2020, the Secretariat sent a note verbale to Member States seeking their views on the subject, followed by email reminders to national points of contact and Permanent Missions of Member States in New York in March 2020. The replies received are reproduced in section III below. Additional replies received after the processing of the present report will be posted on the website of the Office for Disarmament Affairs¹ in the original language received.

3. The Office for Disarmament Affairs continued to maintain the online database for military expenditures and the online reporting tool. During the reporting period, the Office for Disarmament Affairs began the process of upgrading those online tools. That process is ongoing, and Member States will be notified upon its completion. The use of the online tool by Member States to submit reports to the United Nations Report on Military Expenditures has further increased.

4. The Office for Disarmament Affairs continued its efforts to promote the tool among Member States. Such efforts included briefings on the margins of the First Committee and the meetings concerning the Programme of Action to Prevent, Combat and Eradicate the Illicit Trade in Small Arms and Light Weapons in All Its Aspects.

information on defence planning to explain their military expenditures, which are included in the present report as well.
