**Lettre datée du 29 mars 2021, adressée au Secrétaire général  
par le Représentant permanent du Myanmar  
auprès de l'Organisation des Nations Unies**

J'ai l'honneur de me référer à mes lettres, datées respectivement des 16 et 19 mars 2021, concernant la situation abominable qui sévit au Myanmar et les restrictions de communication, telles que les coupures d'Internet, infligées à la population. À cet égard, je vous écris à nouveau pour vous informer de l'aggravation de la situation dans le pays et vous demander de prendre d'urgence les mesures qui s'imposent pour sauver la vie de civils innocents des atrocités et des crimes contre l'humanité perpétrés par le régime militaire illégitime.

Après le coup d'état militaire survenu le 1<sup>er</sup> février 2021 au Myanmar, les manifestations pacifiques contre la junte militaire illégitime se sont poursuivies dans tout le pays et ont pris de l'ampleur malgré la multiplication des violations des droits humains, ainsi que des brutalités vicieuses et irrationnelles et des meurtres de civils innocents non armés commis par les forces de sécurité. Ces dernières, y compris l'armée et la police, ont commencer à se livrer à des actes de violence et à des meurtres dès le 9 février. Le nombre de décès a augmenté de jour en jour, pour atteindre plus de 500 le 29 mars 2021. Des milliers de personnes ont été blessées, et plus de 2 500 personnes ont été arrêtées.

Le 27 mars 2021, soixante-seizième Journée des forces armées, le Myanmar a connu la journée la plus sanglante et la plus meurtrière depuis le coup d'état militaire du 1<sup>er</sup> février 2021. Dans plus de 40 villes et villages du pays, au moins 114 personnes, dont des mineurs, ont été assassinées par l'armée au cours de la seule journée du 27 mars 2021. La plus jeune victime du massacre militaire était un garçon de 5 ans originaire de Mandalay. Parmi les autres victimes mineures se trouvaient un garçon de 13 ans et un garçon et une fille de 14 ans. Dans le district de Mayangone, à Yangon, un garçon d'un an a été blessé à l'œil par des soldats qui lui ont tiré dessus avec une balle en caoutchouc.

À Dawei, dans la région de Taninthayi, il a été signalé que des soldats et des policiers utilisaient des ambulances pour se camoufler et tiraient sur des manifestants et des piétons depuis ces ambulances. D'après des images de vidéosurveillance provenant de l'une des maisons de Dawei Su (Mandalay), des soldats ont abattu trois personnes qui passaient à moto devant des véhicules militaires et ont emporté leurs corps.

Les forces de sécurité ouvrent le feu sur la population et les manifestants pacifiques de manière disproportionnée et aveugle. Elles tirent lors de cérémonies funéraires et même sur des bâtiments diplomatiques, comme le Centre américain de Yangon. De l'artillerie lourde, comme des roquettes, a été utilisée contre des civils dans des zones urbaines peuplées.

Je saisis cette occasion pour vous remercier, ainsi que l'ONU et la communauté internationale, d'avoir condamné les meurtres de civils, y compris d'enfants et de jeunes, commis par les forces militaires et de sécurité sanguinaires.

Les attaques disproportionnées et aveugles perpétrées par l'armée ont forcé les civils à s'enfuir et ont provoqué le déplacement d'un grand nombre de personnes. Les brutalités et les massacres auxquels se livrent les militaires fascistes représentent sans nul doute un péril et une menace d'une échelle colossale pour la paix et la sécurité mondiales.

Le peuple du Myanmar se sent impuissant et implore la communauté internationale de lui prêter assistance de toute urgence pour sauver la vie de civils innocents. Je souhaiterais me référer à la conversation téléphonique que nous avons eue aujourd'hui. Je vous demande à vous et, par votre intermédiaire, à la communauté internationale, de prendre au plus vite les mesures concrètes qui s'imposent pour protéger le peuple du Myanmar et sauver nos vies des atrocités et des crimes contre l'humanité commis par la junte militaire illégitime qui se fait appeler Conseil administratif d'État. Par conséquent, au nom du peuple du Myanmar, je vous lance l'appel suivant, à vous et à la communauté internationale :

- La population du Myanmar doit être immédiatement protégée des crimes contre l'humanité commis par les militaires
- Une aide humanitaire doit être fournie d'urgence par tous les moyens aux personnes qui en ont besoin
- Des zones d'exclusion aérienne doivent être déclarées dans les régions concernées du Myanmar afin d'éviter de nouvelles effusions de sang dues aux bombardements perpétrés par des avions de guerre
- Les abris nécessaires doivent être fournis, pour raisons humanitaires, aux personnes cherchant refuge dans les pays voisins et ailleurs
- Un embargo sur les armes doit être imposé immédiatement à l'encontre des militaires
- Des sanctions ciblées, coordonnées et plus sévères doivent être imposées à l'encontre de l'armée, de ses entreprises et des familles de militaires et de leurs entreprises respectives
- Les comptes bancaires associés à l'armée et à ses membres doivent être gelés, et les flux financiers vers la junte militaire et ses associés doivent être instantanément bloqués
- Aucune reconnaissance ne doit être faite, en aucune circonstance, du régime militaire fasciste et sanguinaire

- Les investissements étrangers directs doivent être suspendus jusqu’à ce que le gouvernement démocratiquement élu soit rétabli au Myanmar

L’humanité a la noble tâche de sauver des vies. Ainsi, je tiens à souligner qu’il incombe à la communauté internationale d’employer tous les moyens nécessaires pour aider à protéger la population du Myanmar contre les atrocités et les crimes contre l’humanité commis par les militaires, en menant une action collective rapide et décisive. Nous n’oublierons jamais le concours et le soutien apportés par la communauté internationale au peuple du Myanmar en cette douloureuse période où il a besoin d’aide.

Je vous prie de bien vouloir prendre connaissance des fiches d’information datées des 26 et 28 mars 2021 (voir annexes I et II)\*.

Je vous serais reconnaissant de bien vouloir faire distribuer le texte de la présente lettre et de ses annexes comme document de l’Organisation des Nations Unies.

Le Représentant permanent  
(Signé) Kyaw Moe **Tun**

### Weekly Updates on Current Situation in Myanmar (26-3-2021)

#### Deployments of Military troops in Public Properties

Since 6 March 2021, the military troops have been deployed at many public buildings – hospitals, university campuses, and religious compounds all over the country, including Yangon, Ayeyarwady, Bago, Tanintharyi, Mandalay and Sagaing Regions and Mon, Kayah, and Kachin States. (The list of public properties are attached as Annex). These acts violate international laws and the commitment that Myanmar made.

In accordance with the Press Release by the UNICEF on 19 March 2021, security forces have been deployed in more than 60 schools and university campuses in 13 States and Regions. Save the Children, UNESCO and UNICEF called on security forces to leave those buildings and premises.

#### Deaths and Arbitrary Arrests

Since the military coup, almost 3,000 people have been arbitrarily detained and arrested by the military. As of 25th March 2021, more than 300 people have been ruthlessly murdered by the military. Many of the detainees are children under the age of 18. Moreover, underaged are among the victims of military shooting. The youngest victim, Khin Myo Chit, was a seven years old girl from Mandalay. Khin Myo Chit was in her house when the soldiers kicked in the door and came into her house. One soldier shot her in the abdomen for no reason while she was sitting in her father's lap.

#### Different types of peaceful protests

**Beating pots and pans** – Since the military coup on 1st February 2021, beating pots and pans has become a ritual everyday at 20:00 hours. People from all walks of life in every corner of the country beats pots and pans as a way of peaceful protest against the military. In Myanmar culture, people traditionally beat pots and pans to chase monsters and ghosts away. In recent weeks, the military has started arresting people who beat pots and pans, and shot live ammunitions into the houses that beat pots and pans. There are several videos of soldiers and police threatening people that they will shoot and kill them if they beat pots and pans. Notwithstanding the threats, arrests and shooting, people continue the ritual everyday at 20:00 hours.

**Sit-in** – As a way to avoid brutalities and shooting by the military, protestors organize sit-in protests in the neighbourhood. Since the military deployed more troops to crack down protestors at their assembly area and pick-up points, protestors started sit-in protests in their own neighbourhoods.

**No-human Strike** – 'No-human strikes' have been increasingly popular across the country to minimize the risk of oppressing by the military. Lining up signboards and dolls in the streets and public areas as proxies for protests are involved in 'No-human strikes'.

**Night protests** – After violence crackdown by security forces to arrest protesters at nights in major cities like Yangon and Mandalay, people have joined the night protests in these cities and other small towns to prevent the security forces coming and shooting in the streets and arresting people. In some places, people hold the candles to pray for those who lost the lives during the strike and shape the candle of three-fingered protest sign to express their disappointment with the military coup.

**Dawn protests** – Doctors and Nurses initiated the peaceful protests at dawn in Mandalay on 21 March 2021 to avoid a confrontation with security forces. They were in white-duty coats and chanted slogans.

**Silent Strike** – Silent Strike across the country to express sadden to those who have sacrificed their lives in fighting for democracy and freedom after the military coup happened on 24 March 2021. On that day, several shops and business set to close, vehicles were rarely seen on the roads and people didn't come out on the streets either to protest or even to go shopping.

### **Response by the International Community to the Military**

**The European Council** imposed targeted sanctions, including a travel ban and an asset freeze, on eleven individuals related to military coup on 22 March 2021. Ten of eleven individuals are from the high ranks of the Military; belong to Commander-in-Chief Min Aung Hlaing, Deputy-Commander-in-Chief Soe Win and the Chairperson of the Union Election Commission.

As of 18 March 2021, the number of journalists from the local news media who were arbitrarily arrested by the military has reached around 40.

Most of them were arrested while reporting protests against the military coup. In a few cases, the journalists were arrested at midnight at home by force.

### **The Committee Representing the Pyidaungsu Hluttaw (CRPH)**

The Committee Representing the Pyidaungsu Hluttaw (CRPH) was established on 5 February 2021 after the military coup. The Committee is composed of the elected representatives (parliamentarians) from the 2020 General Elections. ### **Fleeing to Neighbouring Countries**

Since the end of February, in order to avoid the brutalities, killings, arbitrary arrests, hundreds of people including civil servants, politicians and celebrities have fled to India and Thailand. Most of people who fled to Indian Borders are officials

from Myanmar Police Force and their families and some are civil servants who are targeted for joining the Civil Disobedience Movement (CDM).

### **Actions against the government staffs who joined Civil Disobedience Movement**

To protest against the military coup, civil servant medical doctors initiated the Civil Disobedience Movement (CDM) and CDM has gained momentum as the civil servants from other government sectors participated in the movement eventually. To date, tens of thousands of civil servants have joined the movement.

As the counteractions against the CDM, at first, the military group has ordered respective authorities to threaten and call back those staff. Later, the ministries temporarily suspended, or removed, or dismissed the CDM staffs who refused or ignored their notices and orders. Some were arrested by the military forces and charged with article 505 (b) of the Penal Code. All CDM staffs, especially staffs from Myanma Railways, have been forcibly evicted from the government housings/ accommodation immediately or in short notice. According to the latest notice from the police, CDM staffs are notified to leave the government housings/accommodation by 25th March 2021 throughout the country. In addition to forced eviction, the military is targeting high level government officials, who are participating in CDM, and arresting them without any legal basis.

### **CDM-Diplomats**

As of 23 March 2021, in addition to some of the mid-level and junior MOFA staff in Nay Pyi Taw and Yangon, Myanmar diplomats in New York, Washington D.C., Los Angeles, Geneva, Berlin, Tokyo, Tel Aviv, Ottawa and Paris have joined the civil disobedience movement so far. Actions taken against the Myanmar diplomats who have joined the CDM are quicker than normal procedures. Almost half of them are dismissed while the rest are being instructed to return to Myanmar.

### **Nomination of Civil Disobedience Movement to Noble Peace Prize 2022**

Civil Disobedience Movement in Myanmar has been nominated for the Noble Peace Prize 2022 on 22 March 2021 by six professors from University of Oslo, Norway.

### **Possible Recommended Actions by the International Communities against Myanmar Military to protect lives of the people of Myanmar**

- **Protection from the international community:** the international community should take without delay strongest possible measures/actions to protect the people of Myanmar and save lives of innocent civilians. Accordingly,
- **Targeted, coordinated and tougher sanctions against the military and their families:** the sanctions should not only target the top brass of the military and its family members but also for all ranks of the military and their family members. The sanctions should also target military owned business conglomerates and other businesses associated with the military and their family members.
- **Freezing bank accounts associated with the military and their members:** The bank accounts associated with the military, their family members and military-owned business conglomerates should immediately be frozen and any financial flow into the military regime and its associates should be cut off urgently.

- **Immediate suspension of development and technical aids to the military and the illegitimate government of Myanmar:** International development and technical aids should be carefully channeled through INGOs, NGOs and CSOs to avoid benefiting the military regime.
- **Blocking visas for Myanmar diplomats:** In order to prevent the representation of illegitimate military group at the international level, the international community must immediately block the visa for the Myanmar diplomats, who are delegated after the coup.
- **Blocking visas to military and all government officials:** In order to disregard the military regime, it is essential to block/suspend issuance of visas to all levels of military members, their family members and all government officials from Myanmar.
- **Not recognizing and dishonoring the illegitimate military regime:** The international communities should take a firm stand against the military coup and the follow up crimes against humanity. In this regard, the international communities should publicly announce that they do not recognize the military regime.
- **Suspension of foreign investments in Myanmar:** We call for the international investors to sever all business ties with Myanmar. Foreign direct investments should be suspended until such time as the democratically elected government is restored in Myanmar.
