## **Carta de fecha 29 de marzo de 2021 enviada al Secretario General por el Representante Permanente de Myanmar ante las Naciones Unidas**

Me refiero a mis cartas, de fecha 16 y 19 de marzo de 2021, respectivamente, en relación con la horrible situación y las restricciones de comunicación en forma de interrupciones del servicio de Internet a las que se enfrenta el pueblo de Myanmar. A este respecto, le escribo de nuevo para informarle del empeoramiento de la situación en Myanmar y para que preste atención urgente a la adopción de las medidas necesarias para salvar las vidas de civiles inocentes de las atrocidades y los crímenes de lesa humanidad cometidos por el régimen militar ilegítimo.

Tras el golpe militar de 1 de febrero de 2021 en Myanmar, las protestas pacíficas contra el grupo militar ilegítimo han continuado en todo el país y han cobrado impulso, a pesar de la escalada de violaciones de los derechos humanos, así como de las brutalidades y asesinatos atroces e irracionales cometidos por las fuerzas de seguridad contra civiles inocentes desarmados. Las fuerzas de seguridad de Myanmar, tanto los militares como la policía, empezaron a cometer actos brutales y asesinatos el 9 de febrero. El número de muertes ha ido aumentando cada día y el 29 de marzo de 2021 ascendía a más de 500. Miles de personas han resultado heridas y más de 2.500 han sido detenidas.

El 27 de marzo de 2021, 76º Día de las Fuerzas Armadas, Myanmar vivió la jornada más sangrienta y mortífera desde el golpe militar del 1 de febrero de 2021. Solo el 27 de marzo de 2021, los militares asesinaron al menos a 114 personas, incluidos menores de edad, en más de 40 ciudades y pueblos de todo el país. La víctima más joven de la masacre militar fue un niño de 5 años de Mandalay. Otras víctimas menores de edad fueron un niño de 13 años y un niño y una niña de 14 años. En el Municipio de Mayangone, en Rangún, los soldados dispararon a un niño de 1 año en el ojo con una bala de goma.

En Dawei, en la región de Tanintharyi, se informó de que soldados y policías utilizaban ambulancias para ocultarse y disparaban desde ellas a los manifestantes y a los peatones. Las imágenes del circuito cerrado de televisión de una de las casas de Dawei Su, en Mandalay, muestran que los soldados dispararon a tres personas que pasaban en moto junto a los vehículos militares y se llevaron sus cuerpos.

Las fuerzas de seguridad abren fuego contra las personas y los manifestantes pacíficos de forma desproporcionada e indiscriminada. Abren fuego en funerales e incluso en instalaciones diplomáticas, como el Centro Americano de Rangún. Se ha utilizado artillería pesada, como lanzacohetes portátiles, contra civiles en zonas pobladas urbanas.

Aprovecho esta oportunidad para agradecerle a usted, a las Naciones Unidas y a la comunidad internacional su condena del asesinato de civiles, entre ellos niños y jóvenes, por parte de las fuerzas militares y de seguridad asesinas.

Los ataques desproporcionados e indiscriminados de los militares han obligado a los civiles a abandonar lugares y han provocado el desplazamiento de un gran número de personas. La brutalidad y las matanzas de los militares fascistas son, sin duda, una amenaza existencial de proporciones sin precedentes para la paz y la seguridad mundiales.

El pueblo de Myanmar se siente impotente y pide ayuda urgente a la comunidad internacional para salvar las vidas de civiles inocentes. Deseo hacer referencia a la conversación telefónica que mantuvimos hoy. Quisiera instar a usted y, a través de usted, a la comunidad internacional a que tomen sin demora las medidas necesarias y eficaces para proteger al pueblo de Myanmar y salvar nuestras vidas de las atrocidades y los crímenes de lesa humanidad cometidos por el régimen militar ilegítimo que se autodenomina Consejo Administrativo del Estado. Por lo tanto, en nombre del pueblo de Myanmar, deseo hacer el siguiente llamamiento a usted y a la comunidad internacional:

- Debe ampliarse inmediatamente la protección al pueblo de Myanmar frente a los crímenes de lesa humanidad cometidos por los militares
- Debe prestarse ayuda humanitaria urgente por todos los medios a las personas necesitadas
- Deben declararse zonas de prohibición de vuelos en las áreas pertinentes de Myanmar para evitar más derramamiento de sangre por los bombardeos de los aviones de guerra
- Debe proporcionarse el refugio necesario por razones humanitarias a quienes buscan refugio en los países vecinos y en otros lugares
- Debe aplicarse inmediatamente un embargo de armas contra las fuerzas militares
- Deben aplicarse sanciones selectivas, coordinadas y más duras contra los militares, sus empresas y sus familias y negocios
- Las cuentas bancarias relacionadas con el ejército y sus miembros deben congelarse, y las entradas financieras en el régimen militar y sus entidades asociadas deben cortarse de forma inmediata
- No debe reconocerse, bajo ninguna circunstancia, el régimen militar fascista asesino
- La inversión extranjera directa debe suspenderse hasta que se restablezca el Gobierno democráticamente elegido en Myanmar

Salvar vidas es una noble tarea de la humanidad. Por lo tanto, deseo subrayar que la comunidad internacional tiene la responsabilidad de utilizar los medios necesarios para ayudar a proteger al pueblo de Myanmar de las atrocidades y los crímenes de lesa humanidad cometidos por los militares mediante una acción colectiva oportuna y decisiva. Siempre recordaremos la ayuda y el apoyo prestados por la comunidad internacional al pueblo de Myanmar en estos momentos difíciles y de necesidad.

Adjunto le remito las hojas informativas de los días 26 y 28 de marzo de 2021 para su examen (véanse los anexos I y II)\*.

Le agradecería que tuviera a bien hacer distribuir la presente carta y sus anexos como documento de las Naciones Unidas.

#### Deployments of Military troops in Public Properties

Since 6 March 2021, the military troops have been deployed at many public buildings – hospitals, university campuses, and religious compounds all over the country, including Yangon, Ayeyarwady, Bago, Tanintharyi, Mandalay and Sagaing Regions and Mon, Kayah, and Kachin States. (The list of public properties are attached as Annex). These acts violate international laws and the commitment that Myanmar made.

In accordance with the Press Release by the UNICEF on 19 March 2021, security forces have been deployed in more than 60 schools and university campuses in 13 States and Regions. Save the Children, UNESCO and UNICEF called on security forces to leave those buildings and premises.

#### Deaths and Arbitrary Arrests

Since the military coup, almost 3,000 people have been arbitrarily detained and arrested by the military. As of 25th March 2021, more than 300 people have been ruthlessly murdered by the military. Many of the detainees are children under the age of 18. Moreover, underaged are among the victims of military shooting. The youngest victim, Khin Myo Chit, was a seven years old girl from Mandalay. Khin Myo Chit was in her house when the soldiers kicked in the door and came into her house. One soldier shot her in the abdomen for no reason while she was sitting in her father's lap.

#### Different types of peaceful protests

**Beating pots and pans** – Since the military coup on 1st February 2021, beating pots and pans has become a ritual everyday at 20:00 hours. People from all walks of life in every corner of the country beats pots and pans as a way of peaceful protest against the military. In Myanmar culture, people traditionally beat pots and pans to chase monsters and ghosts away. In recent weeks, the military has started arresting people who beat pots and pans, and shot live ammunitions into the houses that beat pots and pans. There are several videos of soldiers and police threatening people that they will shoot and kill them if they beat pots and pans. Notwithstanding the threats, arrests and shooting, people continue the ritual everyday at 20:00 hours.

**Sit-in** – As a way to avoid brutalities and shooting by the military, protestors organize sit-in protests in the neighbourhood. Since the military deployed more troops to crack down protestors at their assembly area and pick-up points, protestors started sit-in protests in their own neighbourhoods.

**No-human Strike** – ‘No-human strikes’ have been increasingly popular across the country to minimize the risk of oppressing by the military. Lining up signboards and dolls in the streets and public areas as proxies for protests are involved in ‘No-human strikes’.

**Night protests** – After violence crackdown by security forces to arrest protesters at nights in major cities like Yangon and Mandalay, people have joined the night protests in these cities and other small towns to prevent the security forces coming and shooting in the streets and arresting people. In some places, people hold the candles to pray for those who lost the lives during the strike and shape the candle of three-fingered protest sign to express their disappointment with the military coup.

**Dawn protests** – Doctors and Nurses initiated the peaceful protests at dawn in Mandalay on 21 March 2021 to avoid a confrontation with security forces. They were in white-duty coats and chanted slogans.

**Silent Strike** – Silent Strike across the country to express sadden to those who have sacrificed their lives in fighting for democracy and freedom after the military coup happened on 24 March 2021. On that day, several shops and business set to close, vehicles were rarely seen on the roads and people didn't come out on the streets either to protest or even to go shopping.

### **Response by the International Community to the Military**

**The European Council** imposed targeted sanctions, including a travel ban and an asset freeze, on eleven individuals related to military coup on 22 March 2021. Ten of eleven individuals are from the high ranks of the Military; belong to Commander-in-Chief Min Aung Hlaing, Deputy-Commander-in-Chief Soe Win and the Chairperson of the Union Election Commission.

### **Fleeing to Neighbouring Countries**

Since the end of February, in order to avoid the brutalities, killings, arbitrary arrests, hundreds of people including civil servants, politicians and celebrities have fled to India and Thailand. Most of people who fled to Indian Borders are officials

from Myanmar Police Force and their families and some are civil servants who are targeted for joining the Civil Disobedience Movement (CDM).

### **Actions against the government staffs who joined Civil Disobedience Movement**

To protest against the military coup, civil servant medical doctors initiated the Civil Disobedience Movement (CDM) and CDM has gained momentum as the civil servants from other government sectors participated in the movement eventually. To date, tens of thousands of civil servants have joined the movement.

As the counteractions against the CDM, at first, the military group has ordered respective authorities to threaten and call back those staff. Later, the ministries temporarily suspended, or removed, or dismissed the CDM staffs who refused or ignored their notices and orders. Some were arrested by the military forces and charged with article 505 (b) of the Penal Code. All CDM staffs, especially staffs from Myanma Railways, have been forcibly evicted from the government housings/accommodation immediately or in short notice. According to the latest notice from the police, CDM staffs are notified to leave the government housings/accommodation by 25th March 2021 throughout the country. In addition to forced eviction, the military is targeting high level government officials, who are participating in CDM, and arresting them without any legal basis.

### **CDM-Diplomats**

As of 23 March 2021, in addition to some of the mid-level and junior MOFA staff in Nay Pyi Taw and Yangon, Myanmar diplomats in New York, Washington D.C., Los Angeles, Geneva, Berlin, Tokyo, Tel Aviv, Ottawa and Paris have joined the civil disobedience movement so far. Actions taken against the Myanmar diplomats who have joined the CDM are quicker than normal procedures. Almost half of them are dismissed while the rest are being instructed to return to Myanmar.

### **Nomination of Civil Disobedience Movement to Noble Peace Prize 2022**

Civil Disobedience Movement in Myanmar has been nominated for the Noble Peace Prize 2022 on 22 March 2021 by six professors from University of Oslo, Norway.

### **Possible Recommended Actions by the International Communities against Myanmar Military to protect lives of the people of Myanmar**

- **Protection from the international community:** the international community should take without delay strongest possible measures/actions to protect the people of Myanmar and save lives of innocent civilians. Accordingly,
- **Targeted, coordinated and tougher sanctions against the military and their families:** the sanctions should not only target the top brass of the military and its family members but also for all ranks of the military and their family members. The sanctions should also target military owned business conglomerates and other businesses associated with the military and their family members.

technical aids should be carefully channeled through INGOs, NGOs and CSOs to avoid benefiting the military regime.

- **Blocking visas for Myanmar diplomats:** In order to prevent the representation of illegitimate military group at the international level, the international community must immediately block the visa for the Myanmar diplomats, who are delegated after the coup.
- **Blocking visas to military and all government officials:** In order to disregard the military regime, it is essential to block/suspend issuance of visas to all levels of military members, their family members and all government officials from Myanmar.
- **Not recognizing and dishonoring the illegitimate military regime:** The international communities should take a firm stand against the military coup and the follow up crimes against humanity. In this regard, the international communities should publicly announce that they do not recognize the military regime.
- **Suspension of foreign investments in Myanmar:** We call for the international investors to sever all business ties with Myanmar. Foreign direct investments should be suspended until such time as the democratically elected government is restored in Myanmar.
