Budgetary and financial situation of the organizations of the United Nations system

Note by the Secretary-General

The Secretary-General has the honour to transmit to the General Assembly the report of the United Nations System Chief Executives Board for Coordination on the budgetary and financial situation of the organizations of the United Nations system, submitted pursuant to Assembly resolution [63/311](#) and decision 69/551.

Statistical report of the United Nations System Chief Executives Board for Coordination on the budgetary and financial situation of the organizations of the United Nations system

Summary

The present statistical report of the United Nations System Chief Executives Board for Coordination (CEB) on the budgetary and financial situation of the organizations of the United Nations system is submitted pursuant to General Assembly resolution [63/311](#) on system-wide coherence, in which the Assembly requested the Secretary-General to create a central repository of information on operational activities for development, including disaggregated statistics on all funding sources and expenditures, building on the comprehensive statistical analysis of the financing of operational activities for development, and to ensure appropriate and user-friendly online access and regular updating of the information contained therein. In addition, in its resolution [71/243](#), the Assembly requested the Secretary-General to continue to strengthen the analytical quality of system-wide reporting on funding for the United Nations operational activities for development, aligned with the Sustainable Development Goals, and in that regard called for the publication of timely, reliable, verifiable and comparable system-wide and entity-level data.

The CEB secretariat has worked to enhance the content of the report, in particular by introducing, in 2018, the data standards for United Nations system-wide reporting of financial data, the result of an ongoing joint initiative of the CEB High-level Committee on Management and the United Nations Sustainable Development Group, to strengthen the analytical quality of system-wide reporting on financial data. The data in the present report cover the period from 2015 to 2021, with a focus on revenues and expenses for the biennium 2020–2021.

The present report contains a United Nations system-wide presentation of revenues, expenses, approved budgets, collection of assessed contributions and working capital funds, in line with the International Public Sector Accounting Standards, as well as a table on total expenses for 2020–2021 by main functional area of the United Nations system. Those categories allow the CEB secretariat to collect the financial data used by the Department of Economic and Social Affairs in its report on operational activities for development, thereby reducing the reporting burden on organizations.

The present report and the corresponding analysis of the figures presented, including a snapshot on the distribution of extrabudgetary resources by country, organization and donor type, are also available on the CEB website (www.unsceb.org) and represent the response of the CEB secretariat to General Assembly resolutions [63/311](#) and [71/243](#) and decision [69/551](#).

I. Introduction

1. The present report is the seventeenth of its kind to be presented by the United Nations System Chief Executives Board for Coordination (CEB).

II. Improving transparency comparability and comprehensiveness

2. The CEB secretariat has worked continuously to enhance the structure and content of the report. Most notably, in recent years, the CEB High-level Committee on Management pioneered a joint initiative with the United Nations Sustainable Development Group to address the call to strengthen the analytical quality of system-wide reporting on financial data, leading to the development of a set of data standards for United Nations system-wide reporting of financial data. The initiative responded to the request for the publication of timely, reliable, verifiable and comparable system-wide and entity-level data, as called for by Member States in resolution [71/243](#). The data standards were approved by the High-level Committee on Management and the United Nations Sustainable Development Group in October and November 2018, respectively, and came into effect on 1 January 2019. Those new standards were fully incorporated into the data collection exercise for the 2020 and 2021 financial years, and the new terminology and definitions are used throughout the present report. The ongoing initiative is guided by an updated data cube strategy for the period 2022–2025, as approved by the CEB High-level Committee on Management in December 2021.

A. Revenue reporting

3. The organizations of the United Nations system have a wide range of funding models and terminologies. The assessed organizations are funded through a mandatory scale of payments approved by the appropriate governing body. Additional contributions to the assessed organizations are deemed to be voluntary. For the non-assessed (or voluntary) organizations, all funding is voluntary.

4. The present report presents the total revenues of United Nations organizations by type of funding. The four common types of funding are:

- Assessed contributions
- Voluntary core (un-earmarked) contributions
- Voluntary non-core (earmarked) contributions
- Revenue from other activities

The figures herein are also found in the financial statements of the individual organizations and have been converted, as needed, into United States dollars for the sake of comparability.

B. Expense reporting

5. In results-based models, all funding received, regardless of its accounting definition, is for the work of the organization. Total expenses are presented against the four primary functions carried out by the United Nations system organizations:

- Development assistance
- Humanitarian assistance
- Peace operations
- Global agenda and specialized assistance

C. Budget reporting

6. For many organizations, the concept of the regular budget, funded either by assessments or by voluntary funds, remains valid. However, in the present model, some organizations report only administrative expenses in their regular budget, while others report total expenses (see footnotes to table 1). The governing bodies of an increasing number of organizations are now approving a total funding envelope, based on a strategic plan that may include all funding sources. Against these varying definitions, budget figures have been presented in the traditional format with the appropriate footnotes.

D. Requirements of the International Public Sector Accounting Standards

7. All United Nations organizations had implemented the International Public Sector Accounting Standards (IPSAS) prior to or during the 2014–2015 reporting period, with the exception of the International Fund for Agricultural Development, which prepares its financial statements in accordance with the International Financial Reporting Standards.

III. Financial statistics of the United Nations system

8. The tables in the report are grouped under the following five subject headings:
 - (a) Approved budgets (table 1);
 - (b) Revenues (tables 2–2D);
 - (c) Expenses (tables 3 and 3A);
 - (d) Assessments (tables 4–7);
 - (e) Working capital funds (table 8).

A. Approved budgets (2016–2021)

Table 1: Approved budget (2016–2021). Following previous practice, table 1 shows the regular budgets of organizations for 2016–2021. In this context, regular budgets are traditionally equated with regular resources plus any approved expenditures from extrabudgetary sources, if approved by the governing body. As noted previously, some organizations report total approved expenditures as their approved budget.

B. Revenues

Table 2: Total revenue by organization (2016–2021). This table reflects the four major categories of revenue received by United Nations organizations, namely:

- Assessed contributions
- Voluntary core (un-earmarked) contributions
- Voluntary non-core (earmarked) contributions
- Revenue from other activities

Table 2A: Voluntary non-core (earmarked) contributions, by organization and funding country/area (2020–2021). This table contains a summary of the voluntary non-core contributions received by United Nations system organizations from countries and areas.

Table 2B: Voluntary non-core (earmarked) contributions received from certain non-member State donors, by organization (2020–2021). This table covers the total revenues received by United Nations system organizations from defined categories of non-State donors. Data are broken down into four categories:

- Revenue from the European Commission and its agencies
- Revenue from organizations of the United Nations system
- Revenue from international financial institutions such as the World Bank and regional development banks
- Revenue from foundations, corporations, national committees and other civil society organizations

Table 2C: Voluntary non-core (earmarked) contributions (2016–2021). This comparison table shows the total voluntary non-core (earmarked) contributions by organization.

Table 2D: Contributions in kind (2015–2021). This table covers total contributions in kind, by organization.

C. Expenses

Table 3: Total expenses by organization and function (2020–2021). This table shows expenses for 2020–2021 by primary function. The use of such categories allows CEB to also collect financial data for use by the Department of Economic and Social Affairs in its report on operational activities for development, thus reducing the reporting burden on organizations. The categories, which are also intended to increase comparability and transparency, include:

- Development assistance
- Humanitarian assistance
- Peace operations
- Global agenda and specialized assistance

Table 3A: Total expenses by organization (2016–2021). This comparison table shows total expenses, from all funding sources, for each organization for the period.

D. Assessments

Table 4: Total assessed contributions by organization (2015–2021). This table shows the total assessments payable by members of organizations under approved regular budgets.

Table 5: Percentage assessments by organization (2020–2021). This table shows, for each of the organizations that collect assessed contributions against an approved scale, the percentage amounts of the assessed contributions payable for 2020 and 2021.

Table 6: Assessments voted, assessments received for current year and prior years' assessments received (2020–2021). This table shows, for each of the members of the organizations collecting an assessed contribution, the assessments payable and the amounts collected in relation to current assessments for 2020 and 2021 and arrears collected during the biennium 2020–2021.

Table 7: Collection of assessed contributions (2020–2021). This table shows the percentage of the current year's assessed contributions that were collected as at 30 June and as at 31 December (fiscal year end) for 2020 and 2021. The table also shows, by organization, the total amount of all assessed contributions that remained outstanding at the end of each fiscal year.

E. Working capital funds

Table 8: Working capital funds by organization at year end (2020–2021). Many, but not all, organizations have an amount of cash reserves mandated by their governing body to be held in case of funding fluctuations resulting from, among other things, foreign exchange impacts and funding changes. These can take the form of a liquidity policy, a working capital fund or other mechanism. Where such mechanisms exist, organizations have reported their value for 2020 and 2021. To improve comparability, the amounts are presented as a percentage of available resources, which are defined as the sum of all revenue types for which the use is not specified.

Glossary

A. Revenue categories

Assessed contributions

This category reflects contributions received as an assessment, a contributory unit or other payment scheme mandated in a convention or other basic instrument of an organization.

Voluntary core (un-earmarked) contributions

This category reflects contributions received by the organization in support of its mandate or programme for which no specific use is required by the donor. No individual reports are made on the use of such contributions.

Voluntary non-core (earmarked) contributions

This category reflects all revenues received by an organization for which the nature and the use of the funds are specified. Generally, each contribution will have an individual reporting requirement.

Revenue from other activities

This category reflects all other revenue recorded by the organization that is not considered a contribution under the organization's accounting policies. Such revenue can include investment revenue and exchange rate gains.

B. Expense functions

Development assistance

This reflects activities of the United Nations funds, programmes and agencies that are specifically aimed at promoting the sustainable development of programming countries. Development assistance differs from humanitarian assistance in that the focus is on long-term impacts.

Humanitarian assistance

This reflects the assistance provided by the United Nations system for humanitarian purposes, typically in response to natural or human-caused disasters and with a short-term focus. The primary objective of humanitarian aid is to save lives, alleviate suffering and maintain human dignity.

Peace operations

This reflects activities involving the deployment of civilian, police and military personnel meant to help countries torn by conflict to create conditions for lasting peace.

Global agenda and specialized assistance

This category reflects a wide range of activities that do not fit into the descriptions above. It includes activities that: (a) address global and regional challenges without a direct link to development assistance, humanitarian assistance or peace operations; or (b) support sustainable development with a focus on long-term impacts in non-UN programming countries.

C. Mapping former reporting categories and methodologies

Budgetary or core revenues/expenditures

Traditionally, the terms “budgetary” and/or “core” were used interchangeably to reflect funds received by an organization to undertake its programme of work. This revenue included assessed contributions, voluntary core (un-earmarked) contributions or other earned or miscellaneous income. While the revenues received were in support of the core activities or budget, the total amounts actually received (with the exception of assessments) normally did not correspond to the approved budget.

In general, core revenues equated to assessed contributions plus voluntary core (un-earmarked) contributions and other revenues.

Extrabudgetary or non-core revenues/expenditures

These two terms were used interchangeably to reflect funds for which the use was specified by the donor. Because they were traditionally considered to be outside the budget, especially for assessed organizations, these funds were denoted as extrabudgetary. In practice, there are many types of revenue that are outside the budget but for which the use is not actually specified.

In general, revenues previously reported as extrabudgetary or earmarked contributions are the same as the new category of voluntary non-core (earmarked) contributions.

Calculation of United States dollar amounts

For most United Nations organizations, the United States dollar is the functional currency. For organizations that report in a currency other than the United States dollar in their financial statements, their reported amounts were converted using the year-end United Nations operational rate of exchange. As a result, all foreign exchange conversions used the same methodology for improved comparability and transparency.

The following agencies do not keep all their accounts in United States dollars:

- Euro accounts: IAEA, IARC, ICC, ITLOS, OPCW, UNIDO and UNWTO
- Canadian dollar accounts: ICAO
- Pound sterling accounts: IMO
- Swiss franc accounts: ILO, ITU, UPU, WIPO, WMO and WTO

Notes: The present table shows the annual amounts approved under regular budgets plus any approved supplementary estimates, except as indicated in the following notes:

- (a) The budget amounts of the following organizations represent total approved expenditures for 2016–2021: UN-Habitat, UNAIDS, UNU, WMO and WTO;
- (b) Since 2010, UNHCR has been implementing a needs-based budget;
- (c) The IFAD budget represents the operating costs of the organization and does not include any disbursements for financing;
- (d) The figures for IMO are regular budget figures for assessment purposes only and do not include other programme funds;
- (e) The figures for IOM in previous reports reflected the administrative part of the budget funded from assessed contributions; These figures have been revised in the present report to include the entire annual IOM budget (assessed contributions and programmes) for the current and previous years;
- (f) The UNDP approved budget refers to untied voluntary contributions to UNDP and excludes trust funds, cost-sharing contributions or any other extrabudgetary contributions;
- (g) The UNEP approved budget amount includes:
 - (i) Allocated budget of the Environment Fund;
 - (ii) Amount funded by the United Nations regular budget;
 - (iii) Approved budgets for multilateral environment agreements and conventions;
 - (iv) Amounts of earmarked funding consumed (grants by agreements with donors);
- (h) The UNFPA approved budget refers to untied voluntary contributions to UNFPA and excludes trust funds, cost-sharing contributions or any other extrabudgetary contributions;
- (i) The UNICEF approved budget refers to the institutional budget funded from regular resources and cost recovery;
- (j) The figures for UNIDO reflect the regular budget as approved by its governing bodies. Approved budgets for extrabudgetary sources and estimated programme support costs do not constitute a part of the regular budget;
- (k) Since 2012, the figures for UNODC have included the regular budget;
- (l) The figures for UNWTO refer to the regular budget only;
- (m) The approved budget for UNOPS represents the UNOPS management budget only and does not include funds and contributions relating to projects that it implements;
- (n) The approved budget for UNRWA represents only the approved programme budget cash;
- (o) The UNAIDS budget figure relates to the secretariat only. The budget for pass-through to co-sponsors, as approved by the UNAIDS Programme Coordinating Board as part of the UNAIDS Unified Budget, Results and Accountability Framework, is excluded from these data;
- (p) WFP has previously not reported its approved budget information, since only the programme support and administration budget was approved on an annual basis in past years. WFP reported its budget for the first time in the 2020/21 fiscal year;
- (q) The PAHO reported budget amount is less the portion provided by WHO: \$116.4 million;
- (r) New organizations reporting from 2017: CTBTO, ICC, UNCDF, UNFCCC and UNSSC; from 2018: IARC, OPCW and Unitaid; from 2019: ITLOS; and from 2021: ISA, UNCCD and UNICRI.

Notes:

- (a) Assessed contributions: contributions received as an assessment, a contributory unit or other mandatory funding method.
- (b) Voluntary core (un-earmarked) contributions: contributions received by the organization that have not been designated for a particular purpose by the donor.
- (c) Voluntary non-core (earmarked) contributions: contributions received by the organization that are designated for a particular purpose.
- (d) Revenue from other activities: other activities can include interest income project fees and exchange gains and losses.
- (e) UNEP assessed contributions comprise regular budget allocation and assessed contributions of multilateral environment agreements and conventions.
- (f) New organizations reporting from 2017: CTBTO, ICC, UNCDF, UNFCCC and UNSSC; from 2018: IARC, OPCW and Unitaid; from 2019: ITLOS; from 2020: UNV (the UNV budget is included in the total of the UNDP reported budget but have reported revenue and expenses separately); and from 2021: ISA, UNCCD and UNICRI.
- (g) UNITAR contributions received are voluntary. More than 99 per cent are earmarked project funds and less than 1 per cent are for un-earmarked purposes.
- (h) The revenue amounts reflect total revenue as reported by organizations in their respective financial statements, without adjustments for revenue or expenses associated with transfers of funding between United Nations organizations, except as indicated below:
 - (i) The United Nations eliminated \$238.4 million from its total revenue pertaining to contributions received from the multi-partner trust fund to avoid double-counting, as this amount is reported by the receiving organizations;
 - (ii) ITLOS still has biennial financial statements through 2020. Miscellaneous income is not reported in the data above;
 - (iii) IFAD 2021 data include contributions from the Green Climate Fund of \$3.5 million;
 - (iv) ICC excludes a non-budgetary adjustment for doubtful debt provision increase in 2021 of 2.9 million euros;
 - (v) PAHO reported revenue in 2021 does not include \$135.7 million which is received from WHO;
 - (vi) ILO revenue reported excludes income from the International Training Centre and voluntary contributions for subsidiary funds;
 - (vii) UN-Habitat reported revenue before intersegment eliminations;
 - (viii) UNOPS annual revenue is the sum of its total revenue and net finance income per UNOPS statement II;
 - (ix) UNEP in 2021 eliminated \$25.40 million received from the United Nations regular budget allocation.

Notes:

- (a) From 2015, contributions from “Global vertical funds foundations corporations and civil society” includes contributions from global vertical funds, some of which may have been reflected under other revenue categories in 2014 and prior years.
- (b) The amounts reported as contributions from United Nations inter-agency pooled funds in the present table may be reflected in the financial statements of some organizations as multilateral funding attributed to the contributing donor rather than revenue channelled through a United Nations agency.
- (c) New organizations reporting from 2017: CTBTO and UNCDF; from 2018: IARC; from 2020: UNV; and from 2021: UNICRI.

Notes:

- (a) Development assistance: activities specifically aimed at promoting sustainable development of programming countries. It differs from humanitarian assistance in that the focus is on long-term impacts.
- (b) Humanitarian assistance: assistance provided for humanitarian purposes, typically in response to humanitarian crises including natural or man-made disasters and with a short-term focus. The primary objective of humanitarian aid is to save lives, alleviate suffering and maintain human dignity.
- (c) Peace operations: activities typically involving the deployment of civilian, police and military personnel meant to help countries torn by conflict create conditions for lasting peace.
- (d) Global agenda and specialized assistance include activities that (i) address global and regional challenges without direct link to development and humanitarian assistance, and peace operations, or (ii) support sustainable development with the focus on long-term impact in non-United Nations programming countries.
- (e) New organizations reporting from 2017: CTBTO, ICC, UNCDF, UNFCCC and UNSSC; from 2018: IARC, OPCW and Unitaid; from 2019: ITLOS; from 2020: UNV; and from 2021: ISA, UNCCD and UNICRI.
- (f) UNOPS expenditure from 2012 onward represents expenditure incurred by the organization in its capacity as principal, in accordance with IPSAS.
- (g) UNAIDS expenditure relates to the secretariat only. Transfers to the budget for pass-through to co-sponsors, as approved by the UNAIDS Programme Coordinating Board as part of the budget of the UNAIDS Unified Budget, Results and Accountability Framework, are excluded from this data.
- (h) United Nations total expense in 2021 excluded expense of \$238.8 million pertaining to the multi-partner trust fund operations consolidated to the volume I financial statements to avoid double-counting of expenses.
- (i) United Nations total expense in 2020 excluded expense of \$294.4 million pertaining to the multi-partner trust fund operations consolidated to the volume I financial statements to avoid double-counting of expenses.
- (j) PAHO: Total expense has been reduced by \$135.6 million, the amount received from WHO (to avoid double-counting).
- (k) ILO figures in 2021 exclude IPSAS adjustments, subsidiary funds and interfund elimination amounting to \$115.2 million.
- (l) UNEP total expense statements in 2021 excludes regular budget expenses of \$25.4 million.
- (m) UN-Habitat reported expense figures are before inter-segment eliminations.
- (n) UNICEF total expense includes only UNICEF programme expense and is adjusted to exclude trust fund expenses which are not a UNICEF expense.
- (o) WFP data cover all operational expenditures and activities not included in statement V of the financial statements, e.g. trust funds. Trust funds are subdivisions of WFP revenue and are reported in the financial statements but are excluded from the budget (statement V), as they are considered extra-budgetary resources.

Notes:

- (a) The following organizations receive allocations from the United Nations regular budget, funded from assessed contributions, but do not manage or collect a scale of assessments: ITC, UN-Habitat, UNHCR, UNODC and UN-Women.
- (b) New organizations reporting from 2017: CTBTO, ICC, UNCDF, UNFCCC and UNSSC; from 2018: IARC, OPCW and Unitaid; from 2019: ITLOS; from 2020: UNV; and from 2021: ISA, UNCCD and UNICRI.
- (c) UNWTO data consist of assessed contributions from full members and associate members.
- (d) IARC: In 2021, there was an unbudgeted assessment from Hungary and China, amounting to 1.2 million euros, which is not reflected in the amount shown in the table. “Unbudgeted assessment” refers to an assessment on a new participating State that is not included in the regular budget.
- (e) ICAO: In 2021, the assessed contributions reported do not include the accounting adjustment of 2.8 million Canadian dollars.
- (f) OPCW: In 2021, the assessed contribution revenue includes an IPSAS adjustment for the estimated amount of liability, 0.3 million euros. This adjustment is not allocated by country.
- (g) United Nations: The “assessed voted received percentage assessments” amount is based on the net amount assessed to Member States for the year 2020. It is the gross amount assessed to Member States (i.e. the gross amount approved by the General Assembly) less the approved staff assessment.

Notes:

- (a) Taiwan Province of China is “Chinese Taipei” is WTO terminology (see www.wto.org/english/news_e/pres01_e/pr253_e.htm).
- (b) New organizations reporting from 2017: CTBTO, ICC, UNCDF, UNFCCC and UNSSC; from 2018: IARC and OPCW; from 2019: ITLOS; and from 2021: ISA and UNCCD.
- (c) UNWTO: The collection rate refers to assessed contributions from full members and associate members, excluding the collection rate of contributions from affiliate members.
- (d) IARC: In 2021, there was an unbudgeted assessment from Hungary and China, amounting to 1.2 million euros, which is not reflected in the amount shown in the table. “Unbudgeted assessment” refers to an assessment on a new participating State that is not included in the regular budget.
- (e) ICAO: The assessed voted data received match the 100 per cent assessment but do not include the accounting adjustment of 2.8 million Canadian dollars.
- (f) OPCW: The assessed contribution revenue includes an IPSAS adjustment for the estimated amount of liability, 0.3 million euros. This adjustment is not allocated by country.
- (g) United Nations: The “assessed voted received percentage assessments” amount is based on the net amount assessed to Member States for the year 2020. It is the gross amount assessed to Member States (i.e. the gross amount approved by the General Assembly) less the approved staff assessment.

Notes:

- (a) Taiwan Province of China is “Chinese Taipei” in WTO terminology (see www.wto.org/english/news_e/pres01_e/pr253_e.htm).
- (b) The table contains only amounts approximately, greater than or equal to \$1,000.
- (c) Montserrat became an associate member of UNESCO in November 2015.
- (d) New organizations reporting from 2017: CTBTO, ICC, UNCDF, UNFCCC and UNSSC; from 2018: IARC and OPCW; from 2019: ITLOS; and from 2021: ISA and UNCCD.
- (e) UNWTO: The collection rate refers to assessed contributions from full members and associate members, excluding the collection rate of contributions from affiliate members.
- (f) IARC: In 2021, there was an unbudgeted assessment from Hungary and China, amounting to 1.2 million euros, which is not reflected in the amount shown in the table . “Unbudgeted assessment” refers to an assessment on a new participating State that is not included in the regular budget.
- (g) ICAO: The assessed voted data received match the 100 per cent assessment but do not include the accounting adjustment of 2.8 million Canadian dollars.
- (h) OPCW: The assessed contribution revenue includes an IPSAS adjustment for the estimated amount of liability, 0.3 million euros. This adjustment is not allocated by country.
- (i) United Nations: The “assessed voted received percentage assessments ” amount is based on the net amount assessed to Member States for the year 2020. It is the gross amount assessed to Member States (i.e. the gross amount approved by the General Assembly) less the approved staff assessment.

Notes:

- (a) The percentage collected as at 30 June and as at 31 December reflects the current fiscal year's assessments.
- (b) The amount outstanding reflects total uncollected assessments for all years (namely, current and prior).
- (c) New organizations reporting from 2017: CTBTO, ICC and UNFCCC; from 2018: IARC and OPCW; from 2019: ITLOS; and from 2021: ISA and UNCCD.
- (d) UNFCCC has two budgets approved by the Conference of the Parties to the Convention; both are financed from indicative (assessed) contributions with different scales of assessment and different membership.
- (e) UNWTO: The collection rate refers to assessed contributions from full members and associate members, excluding the collection rate of contributions from affiliate members.
- (f) IARC: In 2021, there was an unbudgeted assessment from Hungary and China, amounting to 1.2 million euros, which is not reflected in the amount shown in the table. "Unbudgeted assessment" refers to an assessment on a new participating State that is not included in the regular budget.

Notes:

- (a) Working capital funds are usually established to allow a “buffer” against reductions in revenues during a fiscal year or to finance temporary cash deficits as a result of delay in receipt of income. Since these funds cannot be used to offset losses in non-core (earmarked) contributions they are compared against total revenue excluding voluntary non-core (earmarked) contributions.
- (b) The financial statements of IFAD are prepared in accordance with the International Financial Reporting Standards.
- (c) For UNOPS total revenue core (unearmarked) refers to principal revenue in accordance with IPSAS.
- (d) New organizations reporting from 2017: CTBTO, ICC, UNFCCC and UNSSC; from 2018: IARC, OPCW and Unitaid; from 2019: ITLOS; and from 2021: ISA.
