Sixty-seventh session

First Committee

Agenda item 94

General and complete disarmament

Chile, Malaysia, New Zealand, Nigeria and Switzerland: draft resolution

Decreasing the operational readiness of nuclear weapons systems

The General Assembly,

Recalling its resolutions 62/36 of 5 December 2007, 63/41 of 2 December 2008 and 65/71 of 8 December 2010,

Recalling also that the maintenance of nuclear weapons on high alert was a feature of cold war nuclear postures, and welcoming the increased confidence and transparency since the cessation of the cold war,

Concerned that, notwithstanding the end of the cold war, several thousand nuclear weapons remain on high alert, ready to be launched within minutes,

Noting the continuing engagement in multilateral disarmament forums in support of further reductions to the operational status of nuclear weapons systems,

Recognizing that the maintenance of nuclear weapons systems at a high level of readiness increases the risk of the unintentional or accidental use of such weapons, which would have catastrophic humanitarian consequences,

Recognizing also that reductions in deployments and the lowering of operational status contribute to the maintenance of international peace and security, as well as to the process of nuclear disarmament, through the enhancement of confidence-building and transparency measures and a diminishing role for nuclear weapons in security policies,

Welcoming the steps taken by some States in nuclear disarmament, including detargeting initiatives, increasing the amount of preparation time required for deployment and other measures to diminish further the possibility of nuclear launches resulting from accidents, unauthorized actions or misperceptions,

Welcoming also the adoption by consensus of the conclusions and recommendations for follow-on actions by the 2010 Review Conference of the

Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,¹ including the commitments of the nuclear-weapon States to promptly engage with a view to, inter alia, considering the legitimate interest of non-nuclear-weapon States in further reducing the operational status of nuclear weapons systems in ways that promote international stability and security,

Acknowledging, in this regard, the continued dialogue among the nuclear-weapon States to advance their nuclear non-proliferation and disarmament commitments under the Action Plan of the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons and the potential of this process for leading to deeper engagement on nuclear disarmament and greater mutual confidence,

1. *Welcomes* the opportunities provided by meetings of the Preparatory Committee for the 2015 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons to address the further reduction of the operational status of nuclear weapons systems as a step leading to nuclear disarmament, and looks forward to the reporting of the nuclear-weapon States on their undertakings in this regard to the Preparatory Committee for the Review Conference at its third session in 2014;

2. *Calls for* further practical steps to be taken to decrease the operational readiness of nuclear weapons systems, with a view to ensuring that all nuclear weapons are removed from high alert status;

3. *Urges* States to update the General Assembly on progress made in the implementation of the present resolution;

4. *Decides* to remain seized of the matter.
