and demands that the perpetrators immediately desist from any further use of chemical weapons;

4. *Takes note with great concern in that regard* of the reports of the fact-finding mission of the Organisation for the Prohibition of Chemical Weapons regarding alleged incidents in Ltamenah, Syrian Arab Republic,⁸ and regarding an alleged incident in Saraqib, Syrian Arab Republic,⁹ as well as the final report of the fact-finding mission of the Organisation regarding the incident of alleged use of toxic chemicals as a weapon in Douma, Syrian Arab Republic, which concluded there were reasonable grounds that the use of a toxic chemical as a weapon took place;¹⁰

6. *Emphasizes* that the universality of the Convention is essential to achieving its object and purpose and to enhancing the security of States parties, as well as to international peace and security, underlines the fact that the objectives of the Convention will not be fully realized as long as there remains even a single State not party to the Convention that could possess or acquire such weapons, calls upon all States that have not yet done so to become parties to the Convention without delay, and in this regard recalls the outcome of the Third Special Session of the Conference of the States Parties to Review the Operation of the Chemical Weapons Convention (the Third Review Conference);

11. *Recalls* that the Third Review Conference expressed concern regarding the statement made by the Director General of the Organisation for the Prohibition of Chemical Weapons in his report to the Executive Council of the Organisation at its sixty-eighth session, provided in accordance with paragraph 2 of decision C-16/DEC.11 of 1 December 2011 adopted by the Conference of the States Parties at its sixteenth session, that three possessor States parties, namely, Libya, the Russian Federation and the United States of America, had been unable to fully meet the final extended deadline of 29 April 2012 for the destruction of their chemical weapons stockpiles, and also expressed determination that the destruction of all categories of chemical weapons should be completed in the shortest time possible in accordance

17. *Expresses grave concern* that, despite the verified destruction of all 27 chemical weapons production facilities declared by the Syrian Arab Republic, the Technical Secretariat, as recently reported by the Director General in his report of 24 September 2021,¹⁵ cannot fully verify that the Syrian Arab Republic has submitted a declaration that can be considered accurate and complete in accordance with the Convention or Executive Council decision EC-M-33/DEC.1 as well as with the conclusion of decision C-SS-4/DEC.3, of the Fourth Review Conference, that the Syrian Arab Republic failed to declare and destroy all of its chemical weapons and chemical weapons production facilities, and underscores the importance of such full verification;

21. *Reaffirms* that the provisions of the Convention shall be implemented in a manner that avoids hampering the economic or technological development of States parties and international cooperation in the field of chemical activities for purposes not prohibited under the Convention, including the international exchange of scientific and technical information, and chemicals and equipment for the production, processing or use of chemicals for purposes not prohibited under the Convention;
