Review Conference on the Agreement for the Implementation of the Provisions of the United Nations Convention on the Law of the Sea of 10 December 1982 relating to the Conservation and Management of Straddling Fish Stocks and Highly Migratory Fish Stocks

New York, 22–26 May 2023

Provisional organization of work

Framework questions

Delegations are requested to organize their interventions around the following questions so as to frame the discussions on assessing the effectiveness of the Agreement:¹

1. In which areas is implementation of the Agreement and the recommendations adopted at the Review Conference in 2016 proceeding generally well, and in which areas could such implementation be strengthened?
2. What means could be proposed to further strengthen the substance and methods of implementation of the Agreement?

¹ This methodology does not preclude delegations from addressing other questions in order to complement and inform the discussions.
