B

The General Assembly,

Recalling all its previous resolutions on the scale of assessments, in particular resolutions 39/247 B of 12 April 1985 and 42/208 of 11 December 1987,

Having considered the report of the Committee on Contributions⁸⁰ and noting with appreciation the efforts of the Committee,

Bearing in mind the evolution of the world economic situation and its impact on the capacity to pay of Member States,

Taking into account the views expressed in the Fifth Committee during the forty-third session,⁸¹ in particular on the need for a substantial improvement of the existing methodology and criteria for the determination of the scale of assessments, and the need for information on the steps taken in the preparation of the scale of assessments,

Also taking into account the views expressed in the Fifth Committee during the forty-third session on the ceiling and floor levels,⁸¹

1. *Reconfirms* that the capacity to pay of Member States is the fundamental criterion for determining the scale of assessments;

2. *Requests* the Committee on Contributions, in order to ensure fairness and equity in the scale and to make the methodology transparent, easily understandable, stable over time and as simple as possible, to undertake a comprehensive review of all aspects of the existing methodology, and to this end:

(a) To continue to monitor the improvements in the area of the availability and comparability of national income data, and to continue its work on the price-adjusted rates of exchange methodology;

(b) To seek more comprehensive and systematic information on external debt with a view to ensuring that this factor is adequately taken into account in the calculations for determining the capacity to pay;

(c) To undertake a comprehensive review of the upper limit of the low per capita income allowance formula and the application of the formula;

(d) To review, in the light of the proposals made in the Fifth Committee:

(i) The statistical base period and its application;

(ii) The scheme to avoid excessive variations of individual rates between successive scales;

(iii) The possibility of excluding allocation of any additional points as a result of the application of the scheme of limits to those Member States with a very low per capita income;

and to include in its report the implications of the various options considered;

(e) To limit the use of *ad hoc* adjustments in the preparation of the scale to the minimum possible, keeping in mind that in case such *ad hoc* adjustments are necessary, they should be made on the basis of objective, rational and transparent considerations, applied uniformly, and to include in its reports on the preparation of future scales of assessments explicit information on the basis of which such *ad hoc* adjustments were made;

3. *Requests* the Committee on Contributions to examine, as a means of improving the current methodology, the possible use of other factors, including the situation of those countries:

(a) Whose economies depend on one or a few products or income sources;

(b) Which suffered a real loss of income as a result of deteriorating terms of trade;

(c) Which experience serious balance-of-payments (trade) problems or a negative net flow of resources;

(d) Which have limited capacity to acquire convertible currencies;

4. *Also requests* the Committee on Contributions to continue its study on the concept of national income, as indicated in paragraph 47 of its report;⁸⁰

5. *Further requests* the Committee on Contributions, in conducting the studies and reviews indicated in paragraphs 2 and 3 above, to examine also the interrelationship of each of the elements as part of the overall methodology, bearing in mind the need to avoid duplication and negative impact of each individual element on the others in order to reflect capacity to pay;

6. *Requests* the Committee on Contributions to submit a report on the above-mentioned reviews and their implications for future scales of assessments, with illustrative examples, to the General Assembly at its forty-fourth session;

7. *Requests* the Secretary-General to provide the Committee on Contributions with the facilities it requires to carry out its work, including supplementary assistance if necessary.

6. *Urges* the Secretary-General to take additional measures to ensure that the nationals of developing countries are duly represented at the senior levels in accordance with the relevant resolutions of the General Assembly;
