II. Matters brought to the attention of the Economic and Social Council

A. Economic Commission for Africa

4. The ninth Joint Annual Meetings of the African Union Specialized Technical Committee on Finance, Monetary Affairs, Economic Planning and Integration and the Economic Commission for Africa Conference of African Ministers of Finance, Planning and Economic Development was held in Addis Ababa on 4 and 5 April 2016 on the theme “Towards an integrated and coherent approach to the implementation, monitoring and evaluation of Agenda 2063 and the Sustainable Development Goals”. The Conference adopted a ministerial statement and approved a number of resolutions relating to the programme of work of the Economic Commission for Africa, summaries of which are set out below for the attention of the Economic and Social Council. The full texts of the ministerial statement and the resolutions are available at www.uneca.org/cfm2016.

Summary of the ministerial statement

5. The Ministers, cognizant that, with Agenda 2063 and the 2030 Agenda for Sustainable Development, the continent now had the frameworks for a qualitative transition towards a new transformative and people-centred development trajectory that combined economic, social, environmental and other developmental considerations,

acknowledged that the agendas offered a unique opportunity for Africa to achieve inclusive and transformative development with equity.

6. The Ministers underscored the importance for Africa of adopting a coherent strategy for the effective and coordinated implementation of Agenda 2063 and the 2030 Agenda and agreed upon the need for a single monitoring and evaluation framework and a common reporting architecture that would produce a single periodic performance report. They also recommended that a unified reporting platform that is consistent with the equivalence of goals and targets established through the goal, indicator mapping and costing exercise that has been undertaken should be put in place.

7. The Ministers welcomed continuing efforts to develop a core set of continental indicators to track progress on both agendas and urged all relevant stakeholders to speed up the operationalization of the Nelson Mandela African Institute of Statistics in Tunisia and the Pan-African Statistical Training Centre in Côte d'Ivoire. They also encouraged the development of a common platform for follow-up to, and review of progress on, Agenda 2063 and the 2030 Agenda, such as the Africa Regional Forum on Sustainable Development.

8. The Ministers recognized that the implementation of both agendas would require substantial amounts of financial and non-financial resources from all sources. Cognizant of the unpredictability of official development assistance, they underscored the role of domestic resources as the main source of financing for the two agendas, in line with the Addis Ababa Action Agenda.

9. Mindful that climate change undermines Africa's ability to attain its development goals, the Ministers welcomed the adoption of the Paris Agreement by the Conference of the Parties to the United Nations Framework Convention on Climate Change and called upon all relevant stakeholders to assist member States in the implementation of the Paris Agreement and to ensure alignment of their national development plans with the Agreement.

10. The Ministers recognized the key role of regional integration in the implementation of Agenda 2063 and the 2030 Agenda and called upon the United Nations to continue its support for Africa's transformative agenda by aligning itself with, and supporting the priorities of, the African Union, in particular Africa's aspirations for a continental free trade agreement, regional integration and trade, industrialization and the related goals of Agenda 2063.

11. The Ministers underscored the benefits of migration for economic and human development in Africa and stressed the importance of cooperation at the national, regional and international levels to ensure safe, orderly and regular migration with respect for the human rights and dignity of migrants, regardless of their origin and status.

12. The Ministers also acknowledged that promoting peace and security and combating terrorism are critical for Africa to achieve the development desired, and invited member States to join together to ensure that peace and security are upheld in Africa and across the world.

Joint resolution of the African Union Commission and the Economic Commission for Africa

Resolution 937 (XLIX)
