Commission on Narcotic Drugs

Fifty-third session

Vienna, 8-12 March 2010

Item 5 of the provisional agenda*

Improving the collection, reporting and analysis of data to monitor the implementation of the Political Declaration and Plan of Action on International Cooperation towards an Integrated and Balanced Strategy to Counter the World Drug Problem

Revised set of data collection tools and mechanisms for the collection, collation, analysis and reporting of data, prepared by the expert group on data collection

Note by the Secretariat

Addendum

Revised draft annual report questionnaire: part III. Extent, patterns and trends in drug use**

* E/CN.7/2010/1.

** The present document was submitted after the date required by the 10-week rule as the meeting of the expert group on data collection was held from 12 to 15 January 2010.

Annex

Revised draft annual report questionnaire

Part III. Extent, patterns and trends in drug use

Report of the Government of _____

Reporting year _____

Completed on (date) _____

Please return the completed questionnaire to: arq@unodc.org

The completed revised draft annual report questionnaire is due on: [date].

Note

This is a printable version of the revised draft annual report questionnaire, which is in the form of an Excel spreadsheet and is designed to be completed electronically. In this printable version, definitions of key terms used in the questionnaire are given on page 5; in the electronic version, these definitions (and additional instructions) are repeated throughout the questionnaire through the “Comments” function in Excel. The Excel spreadsheet also uses drop-down lists for some questions, allowing respondents to simply select from a list the answer that is most appropriate for their country.

Instructions

The revised draft annual report questionnaire consists of the following four parts:

- Part I. Legislative and institutional framework;
- Part II. Comprehensive approach to drug demand reduction;
- Part III. Extent, patterns and trends in drug use;
- Part IV. Extent, patterns and trends in drug cultivation, manufacture and trafficking.

This is part three of the revised draft annual report questionnaire.

Respondents are asked to complete all questions. Where no data are available, this should be indicated by inserting two dashes (--) or writing "don't know" in the appropriate cell. All questions refer to the reporting year, unless otherwise indicated.

Respondents

All countries are invited to identify a single focal point for reporting data on drugs. In exceptional and duly justified cases, respondents may identify additional technical contacts who may contribute to completing the questionnaire, indicating, if possible, which questions they contributed to.

Metadata

Respondents may refer to multiple sources in completing the revised draft annual report questionnaire. These sources may include published reports and/or data sets not in the public domain, including routinely collected data from treatment, law enforcement or other agencies. All sources referred to during the completion of the questionnaire should be listed in the section on metadata, which can be found at the end of each section of the questionnaire. This information helps UNODC to understand the information provided.

About the questions

Part three of the revised draft annual report questionnaire asks for information at two levels, in recognition of the fact that not all countries have detailed data on all of the topics covered in the questionnaire.

Quantitative data or estimates

The questions ask for quantitative data or estimates. The revised draft annual report questionnaire includes standardized response categories but, should the data available not conform to those categories, they can still be included. Simply indicate the categories used (e.g. age range, drug category) in the space provided. Quantitative data or estimates should be provided for the reporting year. Where this is not possible, please include the most appropriate recent figures available. The year in which the data were collected should always be specified. If national data or estimates are not available, data or an estimate for a part of the country or for a sub-group of the population can be indicated. If more than one such partial dataset or estimate is available, the data or estimate that is believed to be the best

alternative for recent national data or estimates should be used. In such cases, the geographical or population coverage of the data or estimate should be specified as simply but as explicitly as possible; similarly, the size of the reference population should also be specified, if relevant.

Several questions relate to classes or types of drugs. Whenever applicable, it is important that the information requested be about individual drugs. Although care has been taken to include all major drugs, the pre-coded lists might not fully match the needs of every country. Therefore, in each list the opportunity has been provided to add other classes or types of drugs. These open categories can also be used to insert alternative groups of drugs. For example: some questions list “heroin” and “other illicit opioids”; if the only information available is on opioids in general (no types are specified), “any opioids” should be listed under “other drugs”.

Definitions

Definitions of some key terms used in the revised draft annual report questionnaire are given in the table below.

Class of drugs	A category of narcotic or psychotropic drugs, such as illicit opioids or illicit amphetamine-type stimulants. A class of drugs includes two or more specific types of drugs.
Diverted prescription drugs	Prescription drugs containing one or more substances under international control diverted from legitimate medical use to the illegal market.
Drug diversion	The diversion of prescription drugs containing one or more substances under international control from medical use to the illegal market.
Drug-related AIDS death	Deaths among drug users where AIDS has been assessed as the direct underlying cause of death and drug injecting has been identified as the mode of transmission of HIV.
Drug-related death	Death for which the underlying cause is (a) a mental or behavioural disorder caused by the use of psychoactive substances based on opioids, cannabinoids, cocaine, other stimulants, hallucinogens or a combination of those substances or (b) a poisoning that is accidental, intentional or of undetermined intent caused by the use of narcotic drugs or psychotropic substances.
Drug-related morbidity	Diseases and other health problems associated with the use of illicit drugs.
Drug-related mortality	Deaths where illicit drug use is a direct or indirect contributing factor.
Drug treatment	The process of intervention directed towards individual active drug users offered by providers of health, social or community services, aiming at ending or reducing the use of drugs or the negative consequences of drug use.
Fatal drug overdose	A case of death where an overdose or intoxication from illicit drugs has been assessed as the direct underlying cause of death.
Homeless person	A person without stable or consistent accommodation.
Illicit drug	Any drug listed in the schedules to the international drug control conventions whose origin (that is, its production, cultivation, sale or acquisition) is illicit or illegal.
Injecting drug user	A person who uses drugs exclusively or primarily by injection.
Non-prescribed/non-therapeutic use of prescription drugs	The use of diverted prescription drugs or use of one's own prescription drugs in a manner other than that prescribed by a medical practitioner (i.e. for non-therapeutic purposes).
Person in prostitution	A person who engages in sexual acts for financial or other material gain, regardless of the legality of the acts.
Prescription drug	Any substance under international control prescribed by a medical practitioner, whether used as prescribed or not.
Prisoner	A person held against his or her will by the State as punishment for the commission of a crime.
Severe/problem drug user	A user of illicit drugs who is considered particularly problematic, has used illicit drugs regularly and over a long period of time and/or is in need of help/treatment.
Sharing	The sharing of needles or syringes means that two or more people use the same needle or syringe to inject drugs, regardless of whether the equipment has been cleaned or disinfected.
Type of drugs	A specific type of narcotic or psychotropic drug within a class of drugs. For example, marijuana (herb) and hashish (resin) are types in the cannabis class.

Technical notes

Further explanation of some technical matters and explanations of some technical terms are provided below.

Technical terms

Incidence	Frequency with which an event (e.g. a fatal drug overdose) occurs within a specified population (e.g. injecting drug users) within a specific period of time (e.g. one year).
Prevalence	The proportion of individuals in a specified population with a given condition (e.g. HIV) or engaging in a particular type of behaviour (e.g. injecting drug use).
Reference population	The entire population to which an estimate applies.
Reporting year	The last full calendar year.

Prescription drugs (containing substances under international control)

Below are some examples of substances that fall within a certain category of prescription drugs. A full list of prescription drugs within each category, providing both the chemical and the most common proprietary names, is available from www.unodc.org.

Category of prescription drugs	Example
Prescription opioids	Buprenorphine, codeine, dextropropoxyphene, fentanyl, hydrocodone, hydromorphone, methadone, morphine, oxycodone, pethidine, suboxone, subutex.
Prescription stimulants	Amfepramone, fenetylline, methylphenidate, pemoline, phenmetrazine, phentermine.
Benzodiazepines	Alprazolam, clonazepam, diazepam, temazepam.
Other sedative hypnotics, including barbiturates	Meprobamate, methaqualone, phenobarbital, zolpidem.

Classes and types of drugs (narcotic drugs and psychotropic substances)

Listed below are the classes and types of drugs included in the revised draft annual report questionnaire. In some cases, examples of particular drug types are provided, but the lists of these examples are not exhaustive.

Class of drug	Type of drug
Any illicit drug	
Cannabis	Marijuana (herb) Hashish (resin)
Illicit opioids	Heroin Opium Other illicit opioids (e.g. “homebake”)
Cocaine	Powder (salt) “Crack” and base Other types of cocaine
Illicitly manufactured amphetamine-type stimulants	Amphetamine Methamphetamine “Ecstasy”-type substances (e.g. MDA, MDE/MDEA, MDMA) ¹ Other illicit amphetamine-type stimulants (e.g. Captagon, methcathinone, 4-MTA, 2C-B, MDBD)
Non-prescribed/non-therapeutic use of prescription drugs²	Prescription opioids Prescription stimulants Benzodiazepines Other sedative hypnotics, including barbiturates
Hallucinogens	Lysergic acid diethylamide (LSD) Other hallucinogens (e.g. phencyclidine (PCP), mushrooms with psychoactive properties, tryptamines)
Solvents and inhalants	
Drugs under national but not international control	Including <i>gamma</i> -hydroxybutyric acid (GHB), khat, piperazines (e.g. <i>N</i> -benzylpiperazine (BZP)), tramadol and ketamine.

¹ MDA=methylenedioxyamphetamine; MDEA=3,4-methylenedioxyethylamphetamine; MDMA=methylenedioxymethamphetamine.

² Use of diverted prescription drugs or use of one’s own prescription drugs in a manner other than that prescribed by a medical practitioner (i.e. for non-therapeutic purposes).

Respondents

Instructions

Provide details on the focal point charged with reporting drug data for your country. In the exceptional cases in which technical contacts have been identified, you may wish to list them in the table entitled “additional technical contacts”, indicating, if possible, which questions they have contributed to.

Focal point

Name	Position	Agency	Telephone	Fax	E-mail

Additional technical contacts (optional)

	Name	Position	Agency	Telephone	Fax	E-mail	Questions contributed to
<i>Example</i>	<i>Mr. John Smith</i>	<i>Chief Statistician</i>	<i>Office of Drug Control</i>	<i>+44 221 6573</i>	<i>+44 221 6001</i>	<i>j.smith@odc.gov</i>	<i>6-9 and 10-13</i>

What sources of information (published and unpublished) were referred to in answering these questions?

Injecting drug users

20. Do you have data on the total number of injecting drug users in your country?

- ☐ No (go to question 25)
☐ Yes, for the whole country
☐ Yes, for part of country or sub-population

21. (a) In which year were the data collected? _____.

(b) Which part of the country or sub-group of drug users is covered by the data? _____.

(c) What is the size of the reference population to which the data apply? _____.

Class and type of drugs	Question		
	22	23	24
	What percentage of users of each drug injects that drug?	What is the total number of people who inject each drug?	What percentage of active injecting drug users shared needles or syringes when they last injected?
			Preferred time frame: last time injected Time frame used: _____
Any illicit drug			
Illicit opioids			
Heroin			
Opium			
Other illicit opioids (specify)			
Cocaine			
Illicit amphetamine-type stimulants^a			
Amphetamine			
Methamphetamine			
"Ecstasy"-type substances			
Other illicit amphetamine-type stimulants (specify)			
Non-prescribed/non-therapeutic use of prescription drugs			
Prescription opioids			
Prescription stimulants			
Benzodiazepines			
Other sedative hypnotics			
Drugs under national but not international control (specify)			

^a Do the figures reported for use of illicit amphetamine-type stimulants include the non-prescribed/non-therapeutic use of prescription stimulants? Yes / No (circle one).

What sources of information (published and unpublished) were referred to in answering these questions?

Severe/problem drug users

25. Do you have data regarding the number of severe/problem drug users in your country?
- ☐ No (go to question 34)
- ☐ Yes, for the whole country
- ☐ Yes, for part of country or sub-population
26. (a) In which year were the data collected? _____.
- (b) Which part of the country or sub-group of the population is covered by the data? _____.
- (c) What is the size of the reference population to which the data apply? _____.
27. What is the number of severe/problem drug users in your country? _____.
28. What definition of “severe/problem drug user” applies to the data provided in response to question 27 and how was it calculated?

High-risk groups

High-risk groups	Question				
	29	30	31	32	33
	What is the estimated number of people in each high-risk group in your country?	What is the estimated percentage of each group that used any illicit drug in the reporting year?	What is the estimated percentage of each group that injected any illicit drug in the reporting year?	What are the three main drugs of concern in each high-risk group?	What is the estimated percentage of each high-risk group that used each illicit drug in the reporting year?
		Preferred time frame: 12 months Time frame used: _____	Preferred time frame: 12 months Time frame used: _____		Preferred time frame: 12 months Time frame used: _____
Prisoners				1. 2. 3.	1. 2. 3.
Persons in prostitution				1. 2. 3.	1. 2. 3.
Homeless people				1. 2. 3.	1. 2. 3.
Other high-risk groups (specify)					
				1. 2. 3.	1. 2. 3.
				1. 2. 3.	1. 2. 3.

What sources of information (published and unpublished) were referred to in answering these questions?

New developments in drug use

34. Have any new drugs or new patterns of drug use been observed in the past year?
<input type="checkbox"/> No (go to question 37) <input type="checkbox"/> Yes
35. Which new drugs or patterns of drug use have been observed? In which population groups have these new drugs or patterns of drug use emerged?
36. Use the space below to document any other developments in the prevalence and patterns of drug use in your country over the past year.

Metadata

What sources of information (published and unpublished) were referred to in answering these questions?

Drug-related morbidity

37. Has the prevalence of each of the infections listed below among injecting drug users changed in the past year?

Infection	Large increase	Some increase	Stable	Some decrease	Large decrease	Don't know
Hepatitis B	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Hepatitis C	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
HIV	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Tuberculosis	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

38. Do you have an estimate of the percentage of injecting drug users with any of the infections listed in question 37?

- ☐ No (go to question 42)
☐ Yes, for the whole population
☐ Yes, for a sub-group or part of the population

39. (a) In which year were the data referred to in question 38 collected? _____.

(b) Which part of the country or sub-group of injecting drug users is covered by the estimate? _____.

(c) What is the estimated size of the reference population to which the estimate applies? _____.

Infection	Question	
	40	41
	What is the estimated number of injecting drug users with each infection?	What is the estimated percentage of injecting drug users with each infection?
Hepatitis B		
Hepatitis C		
HIV		
Tuberculosis

Drug treatment

57. Do you have any data regarding the number of people receiving drug treatment in your country?

- ☐ No (go to question 67)
☐ Yes, for the whole country
☐ Yes, for part of the country or some treatment facilities

58. (a) In which year were the data referred to in question 57 collected? _____.

(b) Which part of the country or what types of treatment facilities are covered by the data? _____.

Note: Questions 59-63 refer to the year specified in question 58 (a).

Class and type of drugs	Question				
	59	60	61	62	63
	What is the estimated number of people receiving drug treatment?	What percentage of people in drug treatment entered treatment for the first time ever?	What percentage of people in drug treatment are female?	What percentage of people in drug treatment are injecting drug users?	What is the mean (average) age of people in drug treatment?
Any illicit drug					
Cannabis					
Illicit opioids					
Cocaine					
Illicit amphetamine-type stimulants (total)^a					
Methamphetamine					
Amphetamine					
“Ecstasy”-type substances					
Other illicit amphetamine-type stimulants (specify)					
Non-prescribed/non-therapeutic use of prescription drugs					
Hallucinogens					
Solvents and inhalants					
Drugs under national but not international control (specify)					

^a Do the figures reported for use of illicit amphetamine-type stimulants include the non-prescribed/non-therapeutic use of prescription stimulants? Yes / No (circle one).

64. For the purpose of ensuring the quality of data: does the total number of people in treatment provided above include people in treatment for alcohol abuse?

- ☐ Yes. Please specify the total number of people in treatment for alcohol abuse: _____.
- ☐ No

65. What is the estimated proportion of drug users in need of treatment that is currently receiving treatment in your country?

- ☐ None or almost none
- ☐ A minority
- ☐ About half
- ☐ The majority
- ☐ All or almost all
- ☐ Don't know

Definitions	Question				
	66				
What definition of "drug treatment" applies to the responses provided to questions 59-63 (tick one)?					
All people receiving treatment	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
People starting treatment	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
People in treatment at census date	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
People discharged from treatment	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Other (specify)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

What sources of information (published and unpublished) were referred to in answering these questions?

Collecting data and monitoring capacity

Registers, surveys and rapid situation assessments	Question 67				
	(a) Does your country collect the following data regarding drug use and treatment?				
	No	Yes			
Registers					
National data on drug treatment	<input type="checkbox"/>	<input type="checkbox"/>			
Register of problem drug users	<input type="checkbox"/>	<input type="checkbox"/>			
Register on drug-related morbidity	<input type="checkbox"/>	<input type="checkbox"/>			
Register on drug-related mortality	<input type="checkbox"/>	<input type="checkbox"/>			
	(b) How often does your country collect the following data regarding drug use and treatment?				
	Never	Once a year	Every two years	Every three to five years	Every six or more years
Surveys					
General population prevalence surveys	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
School population prevalence surveys	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Surveys among drug users	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Surveys among prisoners	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Rapid situation assessments	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Other data collections (specify)					
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Registers, surveys and rapid situation assessments	Question 68		
	How suitable do you think the following data sources are for making national estimates about the drug situation in your country?		
	Not very	Somewhat	Very
Registers			
National data collection on drug treatment	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Register of problem drug users	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Register on drug-related morbidity	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Register on drug-related mortality	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Surveys			
General population prevalence surveys	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
School population prevalence surveys	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Surveys among drug users	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Surveys among prisoners	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Rapid situation assessments	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Other data collections (specify)			
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

69. What measures (if any) have been taken to improve data collection systems for monitoring drug use at the national level in your country? What are the main barriers to implementing improved data collection systems?

70. Does your country have a national body dedicated to monitoring the situation with regard to illicit drugs?

- ☐ Yes
☐ No
