

## Security Council

Distr.: General  
27 February 2017

Original: English

---

### Note by the President of the Security Council

In paragraph 2 of resolution [2276 \(2016\)](#), the Security Council requested the Panel of Experts established pursuant to resolution [1874 \(2009\)](#) to provide a final report to the Council with its findings and recommendations.

Accordingly, the President hereby circulates the report received from the Panel of Experts (see annex).

**Annex**

**Letter dated 17 February 2017 from the Panel of Experts established pursuant to resolution 1874 (2009) addressed to the President of the Security Council**

The Panel of Experts established pursuant to resolution 1874 (2009) has the honour to transmit herewith, in accordance with paragraph 2 of resolution 2276 (2016), the final report on its work.

The attached report was provided to the Security Council Committee established pursuant to resolution 1718 (2006) on 30 January 2017 and was considered by the Committee on 16 February 2017.

The Panel would appreciate if the present letter and its enclosure were brought to the attention of the members of the Security Council and issued as a document of the Council.

## Report of the Panel of Experts established pursuant to resolution 1874 (2009)

### *Summary*

During the period under review, the Democratic People's Republic of Korea has intensified its prohibited activity by engaging in an unprecedented number of nuclear and ballistic missile-related tests. In response, the Security Council adopted resolutions 2270 (2016) and 2321 (2016), in which it significantly strengthened the sanctions regime against the Democratic People's Republic of Korea. While these measures impose new obligations on Member States, the Panel's investigations show that implementation remains insufficient and highly inconsistent. All Member States should reaffirm their commitment to rigorous enforcement of United Nations sanctions.

The Democratic People's Republic of Korea is flouting sanctions through trade in prohibited goods, with evasion techniques that are increasing in scale, scope and sophistication. The Panel investigated new interdictions, one of which highlighted the country's ability to manufacture and trade in sophisticated and lucrative military technologies using overseas networks. Another interdiction, of the vessel *Jie Shun*, was the largest seizure of ammunition in the history of sanctions against the Democratic People's Republic of Korea, and showed the country's use of concealment techniques, as well as an emerging nexus between entities trading in arms and minerals. The Panel's investigations further revealed previous arms trading by the Democratic People's Republic of Korea and cooperation in Africa, including hitherto unreported types of cooperation on a large scale.

Designated entities and banks have continued to operate in the sanctioned environment by using agents who are highly experienced and well trained in moving money, people and goods, including arms and related materiel, across borders. These agents use non-nationals of the Democratic People's Republic of Korea as facilitators, and rely on numerous front companies. Diplomats, missions and trade representatives of the Democratic Peoples' Republic of Korea systematically play key roles in prohibited sales, procurement, finance and logistics. In particular, designated entities are trading in banned minerals, showing the interconnection between trade of different types of prohibited materials.

Behind these illicit activities is the continued access of the Democratic People's Republic of Korea to the international banking system. Despite strengthened financial sanctions in 2016, the country's networks are adapting by using greater ingenuity in accessing formal banking channels, as well as bulk cash and gold transfers. Banks of the Democratic People's Republic of Korea maintain correspondent bank accounts and representative offices abroad and partner with foreign companies in joint ventures. Banks and designated entities of the Democratic People's Republic of Korea make use of broad interwoven networks to undertake procurement and banking activity. Their ability to conceal financial activity by using foreign nationals and entities allows them to continue to transact through top global financial centres.

Despite the new sectoral bans adopted for the first time in 2016, the Democratic People's Republic of Korea continues to export banned minerals to generate revenue. This is complicated by the fact that Member States have different interpretations of the minerals listed in the 2016 resolutions and construe their exemption clauses differently in practice.

By blocking the vessels listed in resolution [2270 \(2016\)](#) as assets of Ocean Maritime Management, Member States successfully prevented their access to foreign ports. However, the Democratic People's Republic of Korea has since adapted to these measures through various tactics, including identity fraud.

The Panel's report shows that, despite the support of Member States for strengthened sanctions by the Security Council through two new resolutions adopted in 2016, this effort has not yet been matched by the requisite political will, prioritization and resource allocation to ensure effective implementation. The Panel recommends a series of designations and practical measures in order to offer the Security Council, the Committee and Member States additional tools by which to address current challenges and shortcomings.

## Glossary

The following words and phrases are used in this report with the following specific meanings:

“The country”	The Democratic People’s Republic of Korea
“The Committee”	The Security Council Committee established pursuant to resolution <a href="#">1718 (2006)</a>
“The resolutions”	Security Council resolutions <a href="#">1718 (2006)</a> , <a href="#">1874 (2009)</a> , <a href="#">2087 (2013)</a> , <a href="#">2094 (2013)</a> , <a href="#">2270 (2016)</a> and <a href="#">2321 (2016)</a>
“The Panel”	The Panel of Experts established pursuant to resolution <a href="#">1874 (2009)</a>
“The sanctions”	The measures set out in the resolutions
“Interdiction”	The inspection, seizure and disposal of cargo as defined by paragraphs 11 to 14 of resolution <a href="#">1874 (2009)</a> , paragraph 8 of resolution <a href="#">2087 (2013)</a> and paragraph 16 of resolution <a href="#">2094 (2013)</a>
“Designate/Designation”	Action taken by the Security Council or the Committee under paragraphs 8 (d) and (e) of resolution <a href="#">1718 (2006)</a> (as amended by subsequent resolutions, including paragraph 27 of resolution <a href="#">2094 (2013)</a> ) against individuals or entities (asset freeze and/or travel ban)

## I. Introduction

1. By its resolution [2276 \(2016\)](#), the Security Council extended the Panel's mandate until 24 April 2017. The present report covers the period from 6 February 2016 to 1 February 2017. (For the Panel's methodology, see annex 1-1.)

## II. Background and political context

2. During the reporting period, the Democratic People's Republic of Korea undertook two nuclear tests and a series of ballistic missile tests, showing the country's ongoing resolve to develop prohibited programmes in defiance of United Nations resolutions. Kim Jong Un continued to emphasize his policy of simultaneous development of nuclear capability and the economy, including during his address to the Seventh Congress of the Workers Party.<sup>1</sup>

3. Domestically, Kim Jong Un focused on reinforcing his power base in the party, the military and society through enhanced military supervision and internal control over society. He revised the constitution at the Thirteenth Supreme People's Assembly in June 2016 to cement his position as the Chairman of "the State Affairs Commission", the supreme leader of the country.<sup>2</sup> The country continues to upgrade its national defence industry with a renewed emphasis on the science and technology sector, including by developing weapons systems and building weapons of mass destruction capabilities.<sup>3</sup>

4. The regime's ongoing violations of United Nations resolutions continued to deepen its international isolation, with the exception of several traditional relationships with countries in Asia and Africa. In international forums, including the seventeenth Summit of the Non-Aligned Movement and high-level United Nations meetings, the Democratic People's Republic of Korea rejected resolution [2270 \(2016\)](#) in an attempt to legitimize its nuclear and ballistic missile tests as part of a broader strategy of gaining acceptance as a nuclear State.<sup>4</sup> The country also continued to condemn actions by the United Nations on its human rights situation, including General Assembly resolution [71/202](#) of 19 December 2016,<sup>5</sup> in which the Assembly welcomed the decision by the Security Council to include the situation in the list of issues. The inter-Korean relationship deteriorated further following the January 2016 nuclear test and subsequent ballistic missile launches.

5. The unprecedented frequency and intensity of the nuclear and ballistic missile tests conducted during the reporting period helped the country to achieve technological milestones in weapons of mass destruction capability, and all indications are that this pace will continue. The country has indicated its intention to complete its nuclear capability by claiming that it has "developed [an] H-bomb and had access to [a] standardized nuclear warhead"<sup>6</sup> and "entered the final stage of preparation for the test launch of [an] intercontinental ballistic missile".<sup>7</sup> The stated

<sup>1</sup> "Work report at 7th WPK Congress", *Rodong Sinmun*, 8 May 2016.

<sup>2</sup> "Fourth session of 13th SPA held in DPRK in presence of Kim Jong Un, *Rodong Sinmun*, 30 June 2016.

<sup>3</sup> "Work report at 7th WPK Congress", and "Kim Jong Un's new year address", *Rodong Sinmun*, 2 January 2017.

<sup>4</sup> "Kim Yong Nam refers to stand of DPRK Government on NAM position and role" 20 September 2016 and "DPRK FM speaks at general debate of 71st UN General Assembly", *Rodong Sinmun*, 26 September 2016.

<sup>5</sup> General Assembly resolution [71/202](#).

<sup>6</sup> "DPRK's ICBM development is to cope with US Nuclear War Threat: FM spokesman", Korean Central News Agency, 8 January 2017.

<sup>7</sup> "Kim Jong Un's new year address", *Rodong Sinmun*, 2 January 2017.

goals of the resolutions of achieving denuclearization and a peaceful solution to the situation seem increasingly remote.

### III. Reports by Member States

#### National implementation reports

6. Following the adoption of resolution 2270 (2016), the Panel noted a significant increase in the number of national implementation reports by Member States compared with much lower reporting levels under resolution 2094 (2013). Since the adoption of resolution 2270 (2016), 76 Member States have submitted reports (see figure 1) compared with 31 Member States for the 11-month period<sup>8</sup> following the adoption of resolution 2094 (2013). Of the reporting States, 10 submitted their first reports since the introduction of sanctions in 2006.

7. The Panel's contribution to this improvement was through significant outreach to Member States. Following the adoption of resolution 2270 (2016), the Panel sent reminders to 90 Member States that had never submitted national implementation reports.<sup>9</sup> Six months later, reminders were sent to 134 non-reporting Member States under resolution 2270 (2016). Particular attention was paid to Security Council members and co-sponsors of the resolution to invite them to lead by example. The Panel encouraged non-reporting Member States to use the updated guidelines on the preparation and submission of national implementation reports. In contrast to the previous period, all Security Council Members submitted their national implementation reports in 2016.<sup>10</sup> Despite increased reporting for resolution 2270 (2016) as compared with previous resolutions, the Panel notes that the number of non-reporting States (116) remains significant (see annex 2-1).

8. The Panel notes an improvement in the quality of some of the reports submitted, for example by providing information on delisted vessels, expelled individuals working for designated entities and non-renewal of contracts violating the resolutions. The Panel encourages Member States to enhance the level of detailed information in their reports, showing the extent to which their domestic legislation and practices address the measures contained in resolutions 2270 (2016) and 2321 (2016).

9. **The Panel recalls that Member States are to submit their reports in a timely manner as per paragraph 36 of resolution 2321 (2016).**

Overview of reporting by region

## IV. Continuing violations by the Democratic People’s Republic of Korea of its obligation to abandon nuclear and other weapons of mass destruction and ballistic missile programmes

### A. Recent nuclear-related activities

#### 1. Nuclear test of 9 September 2016

10. On 9 September 2016, the Nuclear Weapons Institute of the Democratic People’s Republic of Korea announced that the country had conducted a “nuclear explosion test for the judgment of the power of a nuclear warhead newly studied and manufactured”.<sup>11</sup> The Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization (CTBTO) detected “an unusual seismic event” near the location of the previous test.<sup>12</sup> The magnitude of 5.1<sup>13</sup> is the largest among the tests conducted by the country (see figure 2). The waveform characteristics were similar to those from the 6 January 2016 test.<sup>14</sup> The type of device used has yet to be confirmed.

<sup>11</sup> “DPRK Succeeds in Nuclear Warhead Explosion Test”, KCNA, 9 September 2016.

<sup>12</sup> “CTBTO Executive Secretary Lassina Zerbo on the unusual seismic event detected in the Democratic People’s Republic of Korea”, CTBTO, 9 September 2016.

<sup>13</sup> Magnitude of past tests (CTBTO): 4.82 (January 2016), 4.92 (2013), 4.51 (2009) and 4.08 (2006).

<sup>14</sup> Technical findings of CTBTO (9 September 2016).

Figure 2  
**Location estimates for the tests conducted in 2006 (blue), 2009 (green), 2013 (yellow), January 2016 (orange) and September 2016 (red)**

Source: CTBTO.

## 2. Continuing activities and expansion of infrastructure

11. On 9 March 2016, state media announced that Kim Jong Un had inspected a spherically shaped object and been briefed on “specifications and the mechanism of the miniaturized powerful nuclear warheads with a Korean-style structure of mixed charge” (see figure 3). The report claimed that “the nuclear warheads [have] been standardized to be fit for ballistic rockets”.<sup>15</sup> According to a Member State, the device lacks the physical characteristics typically associated with a thermonuclear device,<sup>16</sup> and its plates, which can be seen on the surface, do not hide explosive lenses.<sup>17</sup>

<sup>15</sup> “Kim Jong Un guides work for mounting nuclear warheads on ballistic rockets”, *Rodong Sinmun*, 9 March 2016.

<sup>16</sup> A standard thermonuclear device features two stages, not featured in the Democratic People’s Republic of Korea device.

<sup>17</sup> Distributing explosive lenses on the surface at regular intervals may achieve a higher degree of implosion symmetry and, hence, higher yield.

Figure 3  
Object inspected by Kim Jong Un

Source: Korean Central News Agency (KCNA).

12. On 17 August 2016, the Atomic Energy Institute of the Democratic People's Republic of Korea stated that the nuclear fuel rod fabrication plant, the 5 MW(e) reactor and the radiochemical laboratory were in normal operation, and plutonium production had been resumed by reprocessing spent nuclear fuel from the 5 MW(e) reactor. Further, the uranium enrichment facility was operating at normal production capacity.<sup>18</sup> Information obtained and satellite imagery analysis by the Panel appears to be consistent with some of the reported activities.

13. The August 2016 report by the Director-General of the International Atomic Energy Agency (IAEA) on the application of safeguards in the Democratic People's Republic of Korea attested to indications consistent with the operation of the 5 MW(e) reactor for the entire reporting period, except for between mid-October and early December 2015. IAEA also noted that this inactive period would be sufficient for the reactor to have been defuelled and refuelled.<sup>19</sup>

14. Construction was completed on what appears to be an electrical switchyard adjacent to the light water reactor with ongoing construction on a nearby sandbar (see annex 3-1 and 3-2).<sup>20</sup> The radiochemical laboratory and associated steam plant appear to have operated from early 2016 to early July given the plumes of smoke and fluctuating amounts of coal observed at the steam plant stockpiles (see annex 3-3). Construction work continues at the fuel rod fabrication plant area, including the new building on the east side.<sup>21</sup> Academic analysis postulates that the new building is for an isotope separation plant for thermonuclear and/or boosted fission weapons development.<sup>22</sup>

15. The satellite images of the Punggye-ri nuclear test site also show construction work and other activities, in particular at the "North Portal" and "West Portal" (see annex 3-4 and 3-5).

<sup>18</sup> Written interview, *Kyodo News*, 17 August 2016.

<sup>19</sup> IAEA, GOV/2016/45-GC(60)/16.

<sup>20</sup> See S/2016/157, para. 21.

<sup>21</sup> *Ibid.*, para. 21 and annex 5.

<sup>22</sup> David Albright and others, "September 2016: monitoring activities at Yongbyon nuclear site", Institute for Science and International Security, 20 September 2016.

16. IAEA also observed mining and milling-related activities at the Pyongsan uranium mine and concentration plant.<sup>23</sup>

### 3. Nuclear programme-related entities and individuals

#### *Nuclear Weapons Institute*

17. The Panel notes the emergence of the Nuclear Weapons Institute, which was reportedly a key actor in the September 2016 nuclear test. Kim Jong Un also met with members of the Institute and with Hong Sung Mu<sup>24</sup> during the “object’s” inspection.<sup>25</sup> This provides evidence of Mr. Hong’s key role in the country’s nuclear programme.

#### *Korea Kumsan Trading Corporation*

18. The Panel’s investigation reveals that Korea Kumsan Trading Corporation (Kumsan) shares a phone and fax number and an e-mail address with the designated General Bureau of Atomic Energy and the Ministry of Atomic Energy Industry. The Panel previously determined that the Ministry and the Bureau are the same entity.<sup>26</sup> The Panel further notes that Kumsan’s address is identical to that of the sanctioned entities (see figure 4 or annex 4-1).

Figure 4  
Identifier comparison

Source: The Panel and Naenara (www.naenara.com.kp) (bottom right).

19. Two Member States announced that Kumsan is controlled by General Bureau of Atomic Energy, procures supplies for the Bureau, is a cash route to Pyongyang, is utilized by the Ministry of Atomic Energy Industry to produce sensitive materials and collect nuclear technology-related data and acted as the Ministry’s overseas representative.<sup>27</sup> The Panel found that the president of Kumsan is Mr. Kim Chol Nam, which was corroborated by several Member States.

<sup>23</sup> IAEA document GOV/2016/45-GC (60)/16.

<sup>24</sup> Vice-director of the Munitions Industry Department (see para. 52 below). He attended the 9 September nuclear test celebration.

<sup>25</sup> “Kim Jong Un guides work for mounting nuclear warheads on ballistic rockets”, *Rodong Sinmun*, 9 March 2016.

<sup>26</sup> See S/2015/131, paras. 27-28.

<sup>27</sup> United States Department of the Treasury, “Treasury sanctions individuals and entities supporting the North Korean Government and its nuclear and weapons proliferation efforts” (2 December 2016); and Republic of Korea Ministry of Strategy and Finance, “Public announcement 2016-4” (8 March 2016).

20. Multiple online commercial sources advertise Kumsan's business activities in Moscow and Dandong, highlighting dealings in "metal minerals and mineral ore, including vanadium ore", which is prohibited by the resolutions (see annex 4-2). Kumsan's sales address is the Embassy of the Democratic People's Republic of Korea in Moscow (see annex 4-3). According to an official website, Kumsan controls mines and chemical factories that extract and refine prohibited minerals, including vanadium, gold, zinc, copper and iron, with its main export being vanadium pentoxide.

21. Russia informed the Panel that Kumsan was not officially registered and that no vanadium trade had occurred since March 2016. The Panel considers the embassy of the Democratic People's Republic of Korea to be abusing its diplomatic status by operating as a front for its clandestine vanadium sale operations without providing official notification to the Russian Federation.

**22. The Panel recommends that the Committee designate Kumsan for attempted sale of prohibited minerals and use of the embassy of the Democratic People's Republic of Korea in Moscow for commercial activities. Alternatively, the Committee could update the Committee's sanctions list by adding Kumsan as an alias of the Ministry of Atomic Energy Industry/General Bureau of Atomic Energy.**

**23. The Panel recommends that Member States exercise heightened vigilance over diplomatic agents of the Democratic People's Republic of Korea who are engaging in professional or commercial activities, particularly in prohibited items.**<sup>28</sup>

#### *General Precious Metal*

24. The Panel investigated the 2016 attempted online sale of lithium metal by the Democratic People's Republic of Korea.<sup>29</sup> The enriched lithium-6 isotope, and products or devices containing it, are on the list of prohibited nuclear-related items adopted by the Security Council (see annex 4-4). According to IAEA, lithium-6 is used to produce tritium, an isotope found in boosted nuclear devices.<sup>30</sup> This sales attempt suggests that the Democratic People's Republic of Korea has access to remaining quantities of the material.

25. Li-6 is advertised for sale by a company of the Democratic People's Republic of Korea, General Precious Metal, which the European Union has identified as an alias of Green Pine Associated Corporation (Green Pine). Mr. Chol Yun was listed as the contact person of General Precious Metal for sale of the mineral and has an address and phone numbers in Beijing (see annex 4-5). The same name appeared as third secretary of the embassy of the Democratic People's Republic of Korea in Beijing on an official diplomatic list dated 24 September 2012 (see annex 4-6). The Panel notes a pattern whereby the Democratic People's Republic of Korea has accredited Green Pine overseas representatives as diplomats. The Panel continues to investigate this diplomat's involvement in prohibited activities and his possible connection with another prohibited activity (see para. 91).

<sup>28</sup> See Security Council resolution [2321 \(2016\)](#), para. 17.

<sup>29</sup> "North Korea's proliferation and illicit procurement apparatus", Project Alpha, Centre for Science and Security Studies, King's College London.

<sup>30</sup> See IAEA document GC(XXXVII)/1075, 9 September 1993. Available from [www.iaea.org/About/Policy/GC/GC37/GC37Documents/English/gc37-1075\\_en.pdf](http://www.iaea.org/About/Policy/GC/GC37/GC37Documents/English/gc37-1075_en.pdf).

## B. Recent activities related to the ballistic missile programme

### 1. Ballistic missile launches

26. In 2016, the Democratic People's Republic of Korea continued to defy the resolutions by launching a record 26 ballistic missiles or other systems using ballistic missile technology (see table 1). The Panel has identified two significant trends in the country's ballistic missile programme which demonstrate major technological progress within a short period of time: significantly increased range through the introduction of intermediate-range ballistic missiles and a shift to solid-fuel technology in its submarine-launched ballistic missiles.

Table 1  
2016 ballistic missile launches

<i>Date</i>	<i>Type</i>	<i>Number</i>	<i>Reported launch area</i>	<i>Reported range (km)</i>	<i>Remark</i>
7 February	Kwangmyongsong	1	Sohae		
10 March	Scud	2	Nampo	500	
16 March	KN-11	1	Sinpo		Ejection test
18 March	Nodong	2	Sukchon	800	One failure
15 April	Musudan	1	Wonsan		Failure
23 April	KN-11	1	Sinpo		Failure after 30 km
28 April	Musudan	2	Wonsan		Failure
31 May	Musudan	1	Wonsan		Failure
22 June	Musudan	2	Wonsan	400	One failure
9 July	KN-11	1	Sinpo		Failure
19 July	Scud	1	Hwangju	500	
19 July	Nodong	2	Hwangju	600	One failure
3 August	Nodong	2	Hwangju	1 000	One failure
24 August	KN-11	1	Sinpo	500	
5 September	Scud	3	Hwangju	1 000	
15 October	Musudan	1	Kusong		Failure
20 October	Musudan	1	Kusong		Failure
December	KN-11	1	Sinpo		Ejection test

#### *Space launches using ballistic missile technology*

27. Having alerted international organizations<sup>31</sup> of an impending satellite launch (see annex 5-1), the Democratic People's Republic of Korea launched a three-stage rocket from the Sohae satellite launching station on 7 February 2016. The stages and fairing fell in previously announced locations (see annex 5-2) and, according to the Office for Outer Space Affairs, the rocket successfully placed a satellite into orbit.<sup>32</sup> The Democratic People's Republic of Korea subsequently registered it as an earth observation satellite, named "Kwangmyongsong 4" (see annex 5-3). A designated entity (see para. 48) supervised the launch, which was condemned by the

<sup>31</sup> International Civil Aviation Organization, International Maritime Organization and International Telecommunication Union.

<sup>32</sup> The satellite was assigned Committee on Space Research designator 2016-009A. A Member State informed the Panel that the satellite emitted a signal only during the first few days, indicating that the satellite launch was a cover for a ballistic missile test.

Security Council. According to a Member State, this launch is part of an effort to develop a missile with a theoretical maximum range of 12,000 km.

28. Similarly to the 12 December 2012 launch, debris was retrieved. This included parts of the first stage and the fairing (see annex 5-4).<sup>33</sup> According to a Member State, it indicates that the rocket was identical to the December 2012 Unha-3 rocket (see figure 5), as shown by the painted blue number “3” of Unha-3 underneath the overpaint (see annex 5-4). Analysis of the fuel tank indicates that, unlike in the 2012 launch, hydrogen fluoride was added to prevent corrosion. Furthermore, an explosion occurred following first-stage separation that was intended to destroy and scatter debris in order to prevent collection and analysis.<sup>34</sup>

Figure 5

**Rockets launched on 12 December 2012 (left) and 7 February 2016 (right)**

Source: KCNA (left) and KCTV (right).

29. Although the fairing contained some insulation materials (see annex 5-5), according to a Member State, it showed traces of explosives inconsistent with peaceful space launch applications.

#### *Intermediate-range ballistic missiles*

30. The Musudan was flight-tested eight times in 2016; one launch was apparently successful, among repeated failures. These failures highlight engine malfunctions and call into question the operational status of the missile. The rapid pace of missile testing indicates the importance that the Democratic People’s Republic of Korea attaches to attaining greater ranges.

31. On 22 June, the Democratic People’s Republic of Korea flight tested the “Hwasong-10” (Musudan),<sup>35</sup> which was also condemned by the Security Council. Member States reported it to the Committee as part of a salvo of two mobile intermediate-range ballistic missiles.

<sup>33</sup> See S/2013/337, paras. 30-33.

<sup>34</sup> The first stage disintegrated into more than 270 fragments.

<sup>35</sup> “Kim Jong Un guides test-fire of Hwasong-10”, *Rodong Sinmun*, 23 June 2016.

32. The missile was launched on a lofted trajectory and “targeted waters 400 km away after flying to the maximum altitude of 1413.6 km”.<sup>36</sup> This trajectory, confirmed by a Member State, allowed testing without overflying another Member State (see annex 5-6). The missiles were launched from an area near Wonsan, where reportedly a launch pad was recently constructed (see annex 5-7).<sup>37</sup>

33. Images of the 22 June 2016 launch confirm that it was the same road-mobile ballistic missile displayed for the first time at the 10 October 2010 parade (see figure 6).<sup>38</sup> According to a Member State, it is based on the former Union of Soviet Socialist Republics R27 and has a range of 3,500 km with a payload of 650 kg. It uses liquid fuel and has a detachable warhead.<sup>39</sup>

Figure 6

**Musudan ballistic missiles at 15 April 2012 parade (left) and 22 June 2016 launch (right)**

Source: KCNA.

#### *Short- and medium-range ballistic missiles*

34. Kim Jong Un oversaw the 10 March launches, which state media described as designed to “simulate the conditions of exploding a nuclear device from [a] pre-set altitude”.<sup>40</sup> The launches occurred one day after the exhibition of the purported “miniaturized nuclear device” (see para. 11). On 5 September, three Scud-class short-range ballistic missiles were launched, and reportedly flew approximately 1,000 km. Kim Jong Un again witnessed the drill, the aim of which was to examine the “guided accuracy of the improved ballistic rockets”.<sup>41</sup> They appear to be a new type of Scud-class ballistic missile with an extended range near that of medium-range ballistic missiles.<sup>42</sup>

35. The 19 July launches, again overseen by Kim Jong Un, were publicized as having been made “under the simulated conditions of making pre-emptive strikes at ports and airfields in the operational theatre in South Korea”.<sup>43</sup> On 3 August, one of the missiles reportedly flew 1,000 km (almost its maximum range of 1,300 km) before falling in the exclusive economic zone of Japan.

<sup>36</sup> Ibid.

<sup>37</sup> “Geolocating the June 22 Hwasong-10 test: the Kalma firing position”, *38 North* (5 August 2016).

<sup>38</sup> KCNA Musudan images indicate a diameter of around 1.5 m and a length of around 12 m.

<sup>39</sup> It uses a combination of nitrogen tetroxide and unsymmetrical dimethyl hydrazine.

<sup>40</sup> “Kim Jong Un watches ballistic rocket launch drill of Strategic Force of KPA”, *Rodong Sinmun*, 11 March 2016.

<sup>41</sup> “Kim Jong Un guides fire drill of ballistic rockets”, *Rodong Sinmun*, 6 September 2016.

<sup>42</sup> KCNA images suggest a diameter of 1 m and length of 12.5 m for this new missile.

<sup>43</sup> “Kim Jong Un guides drill for ballistic rocket fire”, *Rodong Sinmun*, 20 July 2016.

### *Submarine-launched ballistic missiles*

36. The Democratic People's Republic of Korea has continued its development of the Pukgeukseong-1 (in Korean 북극성-1) submarine-launched ballistic missile, also known as the KN-11. Four KN-11 tests occurred within five months from the Sinpo area, showing rapid development. A land-based ejection test on 16 March was shortly followed by a sea-based test on 23 April 2016. Images from the latter demonstrate a successful cold-launch of the KN-11 emerging from the water, igniting just above the sea surface and entering the boost phase, flying for 30 km. While externally resembling the 8 May 2015 missile, it used solid instead of liquid propellant, evidenced by differences in the exhaust plume and smoke (see figures 7 and 8).<sup>44</sup>

Figure 7

**Exhaust plumes of 8 May 2015 test (top) and 23 April 2016 test (bottom), showing transition from liquid- to solid-fuel engines**

Source: *Rodong Sinmun*, 9 May 2015 (top) and 25 April 2016 (bottom).

37. Rapid technological developments have taken place over a short period, resulting in significant progress towards an operational submarine-launched ballistic missile system. The shift from liquid- to a solid-fuel engine for the KN-11 is a major technological development, affording greater stability, quicker preparation and longer fuel storage. The country has also developed a gas generator attached to the missile to eject it from its tube (see figures 8 and 9). Imagery from the 24 August test revealed that the KN-11 is a two stage rocket (see annex 5-8).

<sup>44</sup> The solid propellant nature of the missile is indicated by the bright and white plume instead of the orange and yellow colour associated with liquid fuel propellants.

Figure 8  
Exhaust control vanes for 24 March ground test (left) and 23 April launch test (right)

Source: Rodong Sinmun, 24 March (left); and Rodong Sinmun, 25 April 2016 (right).

Figure 9  
Gas generator for 24 March test (left) shown fitted to base of submarine-launched ballistic missile (right)

Source: KCNA.

38. The development of the KN-11 continued with a sea-based test on 9 July, in which the submarine-launched ballistic missile successfully ejected underwater and flew a short distance before exploding at an altitude of approximately 10 km.

39. The test of 24 August, by successfully going through ejection, boost and flight phases, was unprecedented in demonstrating the country's capabilities with regard to submarine-launched ballistic missiles. The lofted trajectory of the missile attained a reported range of 500 km (see figure 10).

Figure 10  
Lofted trajectory of 24 August 2016 KN-11 test

Source: KCNA.

#### *Launch platform*

40. The Gora-class submarine launch platform has been modified to solve ejection and stability problems. To this end, vents were added on either side of the launch tube (see figure 11). These improvements are notable given that this vessel will likely serve as the basis for future submarine-launched ballistic missile submarines with multiple tubes.<sup>45</sup>

Figure 11  
**Open hatch and the vent modifications**

Source: KCNA.

41. **Member States should be vigilant regarding the export of dual-use commercial items that could contribute to the submarine programme, in particular for launch-capable submarines, in accordance with paragraph 22 of resolution 2094 (2013) and paragraph 8 of resolution 2270 (2016).**<sup>46</sup> The Committee also introduced a list of dual-use items with conventional arms applications which contained naval-related items.

<sup>45</sup> The presence of the vents and the hatch confirm that there is only a single launch tube in the submarine, confirming that this is a still a prototype.

<sup>46</sup> See S/2016/157, recommendation 10 (c). For a watch list of 60 such items, see Republic of Korea, "Tailored watch list for submarine parts", press release of 8 December 2016.

### *Facilities for ballistic missile-related activities*

42. Two new sites have been used for ballistic missile activity, Chamjin (south-west of Pyongyang) and Hamhung (on the east coast). The Sohae and Chamjin test sites have been used for tests related to intercontinental ballistic missiles while the Hamhung and Sinpo facilities have been used for activities relating to submarine-launched ballistic missiles.

### *Sohae and Chamjin*

43. The Panel previously noted that the upgrade of the engine test pad at Sohae was an indication that the site could be used to test larger engines.<sup>47</sup> On 20 September 2016, state media reported the test of a “new-type high-power engine of carrier rocket for geostationary satellite” at the Sohae engine test pad, with a thrust of 80 tons.<sup>48</sup> Engine images (see figure 12) are consistent with this statement and indicate the use of liquid propellants. One Member State has designated two individuals for cooperating with the Democratic People’s Republic of Korea and the development of an “80-ton rocket booster”.<sup>49</sup> The test also shows the ongoing development of a space launch vehicle that is larger than the Unha-3.<sup>50</sup>

Figure 12  
**The “80 tons” engine test**

Source: KCTV (left) and KCNA (right).

44. On 9 April 2016, the Democratic People’s Republic of Korea announced the Sohae test of “a new type high-power engine of inter-continental ballistic rocket” (see figure 13).<sup>51</sup> According to a Member State, the engine was a cluster of two Hwasong-10 (a.k.a Musudan) engines and is for the Hwasong-13 intercontinental ballistic missile (a.k.a KN-08).<sup>52</sup>

<sup>47</sup> See S/2015/131, para. 40.

<sup>48</sup> “Kim Jong Un guides ground jet test of new-type high-power engine of carrier rocket for geostationary satellite”, *Rodong Sinmun*, 20 September 2016.

<sup>49</sup> United States Department of the Treasury, “Treasury sanctions those involved in ballistic missile procurement for Iran”, 17 January 2016.

<sup>50</sup> The Panel previously linked the launch pad gantry tower upgrade to the development of a larger rocket (see S/2015/131, para. 43).

<sup>51</sup> “Kim Jong Un guides ground jet test of new-type high-power engine of intercontinental ballistic rocket”, *Rodong Sinmun*, 9 April 2016.

<sup>52</sup> Consistent with test images showing a rocket plume appearing to originate from two main nozzles. Images of the Hwasong-13 also indicate that the missile is powered by a two-engine cluster (see annex 5-9).

Figure 13  
**Intercontinental ballistic missile engine test**

Source: KCNA.

45. On 15 March 2016, state media reported on an experiment involving a ballistic missile re-entry vehicle nose cone placed within the plume of a Nodong engine (see figure 14), which was designed to verify “heat-resisting materials” and guarantee “the reliability of the intercontinental ballistic rocket warhead re-entry”.<sup>53</sup> According to a Member State, the experiment was performed at the Chamjin test site (see annex 5-10).<sup>54</sup> The nose cone is similar to that of the Hwasong-13 intercontinental ballistic missile blunt warhead paraded on 10 October 2015 (see annex 5-9).<sup>55</sup>

Figure 14  
**Images of re-entry vehicle test**

Source: KCNA.

<sup>53</sup> “Kim Jong Un guides ballistic rocket’s re-entry environmental simulation”, *Rodong Sinmun*, 15 March 2016.

<sup>54</sup> The test site is part of the Chamjin complex, where Scud, Nodong and Musudan ballistic missiles are manufactured. Aliases of the Chamjin missile factory are “Thaesong Machine Plant” and “Thaesong Machine Factory”.

<sup>55</sup> Despite claims of “heat-flow five times stronger than the condition caused at the time of ballistic rocket re-entry”, the temperature within the Nodong plume is much lower than those experienced by intercontinental ballistic missile warheads during re-entry, underlining the limits of “re-entry vehicle testing”. Proving the reliability of an intercontinental ballistic missile re-entry vehicle would ultimately require several flight tests.

*Hamhung and Sinpo complex*

46. The Democratic People’s Republic of Korea reported the 24 March test of a “high-power solid-fuel rocket engine” (see figures 8 and 15). Image analysis indicates that the plume colour is consistent with solid propellants and that the engine diameter is similar to the KN-11 submarine-launched ballistic missile. A gas generator attached at the engine-base suggests possible use by the Gorae class submarine to eject the submarine-launched ballistic missile from its launch tube (see para. 37). According to a Member State, the test was conducted in a facility near Hamhung (see annex 5-11).

Figure 15  
**Solid fuel engine test with gas generator**

Source: KCNA.

47. Infrastructure improvement at Sinpo shipyard includes a nearly complete main (fabrication) hall, in addition to the construction of a second hall nearby (see annex 5-12). The main hall may be used to construct additional, larger submarines that are capable of carrying more than one submarine-launched ballistic missile. The second hall, which has since been partially covered (hardened) and potentially could be fully covered, may serve as a future loading and unloading facility for submarine-launched ballistic missiles (see annex 5-13).<sup>56</sup>

## 2. Ballistic missile programme-related entities and individuals

### *National Aerospace Development Administration*

48. According to an 8 February report by the National Aerospace Development Administration (NADA), “Scientists and technicians of the NADA succeeded in putting the newly developed earth observation satellite Kwangmyongsong-4 into its orbit” using a “carrier rocket Kwangmyongsong” launched from Sohae.<sup>57</sup> The Administration also stated that it would “in the future, too, launch more satellites”. Kim Jong Un’s 6 February launch order underlines the key role played by NADA in the launch. Additionally, NADA was responsible for an engine test of an engine for a larger rocket than the Unha-3 (see para. 43 and annex 6-1).

49. In its national implementation report on resolution [2270 \(2016\)](#), Malaysia stated it “had declined the offer made by the Democratic People’s Republic of Korea in 2013 to transfer its satellite-launching technology”. The Panel is investigating whether this offer implicated NADA, given its responsibility for all space-related activities.

<sup>56</sup> Analysis of the notches for the new halls’ dock indicates that a larger submersible dry dock than the existing one will be necessary to launch larger submarine-launched ballistic missile submarines (annex 5-13).

<sup>57</sup> “DPRK NADA releases report on satellite launch”, *Rodong Sinmun*, 8 February 2016.

### *Munitions Industry Department*

50. Resolution 2270 (2016) designated the Munitions Industry Department and its director Mr. Ri Man Gon, for overseeing weapons production and research and development programmes, including ballistic missile programmes. Throughout 2016, the Department continued to play a pivotal role in developing these programmes. Key Department officials have monitored and controlled key nuclear and ballistic missile test activities and provided briefings directly to Kim Jong Un.

51. The Panel previously reported on the key role of the first vice-director of the Department, Ri Pyong Chol,<sup>58</sup> in the nuclear programme and recommended his designation.<sup>59</sup> This year, in addition to his continued nuclear role, he occupies the pivotal position within the ballistic missile programme. Confirmed by information from Member States and state media, Mr. Ri has also provided briefings to Kim Jong Un at almost every test site and launch (see table 2 and annex 6-2).

52. Other key Department officials, including Mr. Hong Sung Mu, Mr. Hong Yong Chil and Mr. Kim Jong Sik, were also seen standing next to Kim Jong Un and providing him briefings throughout 2016 (see table 2 and annex 6-3). Mr. Hong Sung Mu, a key nuclear weapon expert, has consistently participated in nuclear warhead simulation tests. Both Mr. Hong Sung Mu and Mr. Hong Yong Chil were designated by multiple Member States and the European Union, having been identified as vice-directors of the Munitions Industry Department.

### *Strategic Force Command*

53. The corresponding military entity responsible for ballistic missiles is the Strategic Force Command. State media have stated that the Command was responsible for the launches of short- and medium-range ballistic missiles throughout 2016.<sup>60</sup> These roles were also reconfirmed by a map studied by Kim Jong Un bearing the Command's name (see annex 6-4). The Command has been designated by multiple Member States.<sup>61</sup>

54. The commander of the Strategic Force Command, Mr. Kim Rak Gyom,<sup>62</sup> controlled and commanded ballistic missile tests and provided Kim Jong Un with briefings (see table 2). The Panel previously recommended him for designation to the Committee. He was also designated by multiple Member States.

**55. The Panel recalls its previous recommendation to designate the following entity and individuals for their role in and support for the country's prohibited programme:**

- Strategic Force Command<sup>63</sup>
- Ri Pyong Chol, First Vice-Director of the Munitions Industry Department
- Hong Sung Mu, Vice-Director of the Munitions Industry Department
- Hong Yong Chil, Vice-Director of the Munitions Industry Department

<sup>58</sup> A.k.a. Ri Pyong Chol (리병철).

<sup>59</sup> See S/2016/157, para. 24.

<sup>60</sup> "Kim Jong Un watches ballistic rocket launch drill of Strategic Force of KPA", *Rodong Sinmun*, 11 March 2016.

<sup>61</sup> The United States on 8 December 2015 and the Republic of Korea on 8 March 2016, as well as the European Union on 19 May 2016.

<sup>62</sup> A.k.a. Kim Rak Kyom (in Korean: 김락겸).

<sup>63</sup> A.k.a. Strategic Forces, Strategic Rocket Force, Strategic Rocket Force of the Korean People's Army and the Strategic Rocket Force Command of the Korean People's Army and Strategic Force.

- Kim Jong Sik, Vice-Director of the Munitions Industry Department
- Kim Rak Gyom, Commander of the Strategic Force Command.

## V. Embargoes

56. The Democratic People’s Republic of Korea continues to trade in arms and related materiel, exploiting markets and procurement services in Asia, Africa and the Middle East. Panel investigations in 2016 highlighted the country’s trade in hitherto unreported items such as encrypted military communications, man-portable air defence systems, air defence systems and satellite-guided missiles that may

involve large teams of the country's technicians deployed to assemble or service the banned items. The country also uses its construction companies that are active in Africa to build arms-related, military and security facilities.

## A. Implementation of the embargo on nuclear weapons, other weapons of mass destruction and ballistic missile-related items

### Kwangmyongsong foreign sourced items

57. Debris from the 7 February 2016 rocket contained several foreign-sourced commercial items, including components similar to those from the 2012 Unha-3 rocket debris.<sup>64</sup> These include a camera electromagnetic interference (EMI) filter, ball bearings and pressure transmitters.

58. The ball bearings and engraved Cyrillic characters were identical to those from the 2012 Unha-3. Based upon the serial number and manufacturer of the camera EMI filter, the Panel contacted the Chinese manufacturer, Beijing East Exhibition High-Tech Technology Co. Ltd., for the procurement route. The Panel has not received a reply.

59. The pressure transmitters that were manufactured in the United Kingdom of Great Britain and Northern Ireland were the same model as those retrieved from the 2012 Unha-3 (see figure 16), but this time had gone through other intermediaries than the company based in Taiwan Province of China as reported on by the Panel in the 2006 and 2010 acquisition.<sup>65</sup> In that case, they were sold by the manufacturer's distributor in China to a Beijing-based company, which sold them on to Beijing Xinjianteng Century Technical Technology. This company was unable to provide the identity of the purchaser and indicated that the pressure transmitters had been sold in an electronics market.

Figure 16  
100 bar pressure transmitter in 2012 rocket (left) and 2016 rocket (right)

Source: The Panel.

<sup>64</sup> See S/2013/337, para. 33; and S/2014/147, paras. 55-59.

<sup>65</sup> See S/2015/131, paras 58-59.

60. That case demonstrates the continuing critical importance of high-end, foreign-sourced components in manufacturing the Unha-3, and the ability of the Democratic People's Republic of Korea to diversify its procurement channels, even for the same components. **Member States should rigorously implement the now legally binding “catch-all” provision for items which could contribute to the country's nuclear or ballistic missile programmes (paragraph 27 of resolution 2270 (2016)).**

## B. Implementation of the arms embargo

### 1. Interdiction of ammunition aboard the vessel *Jie Shun* by Egypt

61. On 11 August 2016, Egypt intercepted the *Jie Shun* (International Maritime Organization (IMO) No. 8518780), a vessel commanded by a Democratic People's Republic of Korea captain that was en route from the Democratic People's Republic of Korea towards the Suez Canal. A search revealed a cargo containing 30,000 PG-7 rocket propelled grenades and related subcomponents in wooden crates concealed under about 2,300 tonnes of limonite (iron ore),<sup>66</sup> the largest interdicted ammunition consignment in the history of sanctions against the Democratic People's Republic of Korea (see figures 17 and 18). The transfer of iron ore is prohibited unless exempted under paragraph 29 of resolution 2270 (2016). This shipment of arms and iron ore highlights the nexus in trade by the Democratic People's Republic of Korea in a variety of illicit goods, from small arms and light weapons ammunition (banned in 2009) to the trade in minerals banned under resolution 2270 (2016).

Figure 17

#### Interdicted *Jie Shun*

Source: Egypt.

Figure 18

#### Cargo with limonite concealing arms

Source: Egypt.

<sup>66</sup> The ammunition placed under limonite was a concealment technique deterring cursory inspection at sea or in port, similar to the *Chong Chon Gang* case in 2013 (see S/2014/147).

### Voyage

62. Departing Haeju port on 23 July 2016, the vessel passed through the Straits of Malacca and was interdicted in Egyptian territorial waters south of the Suez Canal (see figure 19). The vessel's automatic identification system was off for the majority of the voyage except in busy sea lanes, where such behaviour could be noticed and assessed as a safety threat.

Figure 19  
**Jie Shun voyage**

### Cargo

63. The 132-ton arms cargo consisted of 79 crates containing 24,384 disassembled PG-7 rocket-propelled grenades and materials for an additional 4,616 rocket-propelled grenades, all manufactured in the Democratic People's Republic of Korea, according to Egypt. The markings indicated that they were manufactured in February 2016, but the Panel's on-site analysis revealed that they were not of recent production but rather had been stockpiled for some time. The bill of lading contained a false description of items as "assembly parts of the underwater pump", loaded in Nanjing, China, on 31 March 2016 (see figure 20). On the bill of lading, the address of the shipper, "Dalian Haoda Petroleum Chemical Co. Ltd", is that of a hotel in Dalian. Large nailed canvas patches concealed the destination and consignee stencilled on the crates. The destination and end user of the equipment was investigated by the Egyptian general prosecutor.<sup>67</sup>

Figure 20  
**False description as "assembly parts for underwater pump"**

64. Unlike previous arms interdiction cases, the components' plastic tubes bore no markings from the Democratic People's Republic of Korea, indicating an additional layer of obfuscation (see figures 21 and 22). The Panel witnessed the destruction of part of the ammunition by the Egyptian Army on 7 and 8 November 2016 through controlled explosions, in compliance with the resolutions.

<sup>67</sup> National authorities closed the private company and revoked its licence.

Figure 21  
Assembled PG-7 from shipment

Source: Egypt.

Figure 22  
PG-7 components before destruction

Source: Egypt.

65. For the limonite, there were two different bills of lading, one listing 1,998 tons from a consignor in the Democratic People's Republic of Korea to a Dandong company,<sup>68</sup> to be discharged in a "China port" and the other for 2,300 tons from a different consignor in the Democratic People's Republic of Korea to Egypt (see annex 7-1).<sup>69</sup> Both share the same reference number HJ-1, were dated 22 June 2016 and had certificates of origin from Haeju. The Egyptian authorities did not exempt the cargo under paragraph 29 (b) of resolution 2270 (2016) and stated they were investigating the consignee.

*Jie Shun: crew, management and vessel operation*

66. The *Jie Shun* sailed under a Cambodian flag of convenience with a captain from the Democratic People's Republic of Korea and 22 crew that had been certified by the Maritime Administration of that country. The Panel had previously reported on three individuals and their companies which subsequently reappeared as playing a key role in this vessel's operation. The first was the holder of the vessel's document of compliance, Mr. Fan Mintian (范民田), who used the e-mail address of Dalian Sea Glory, which was linked to the *Light*, a vessel suspected of carrying

<sup>68</sup> Korea Solbongsan Trading Company to Dandong Jinchang Industrials Trade Co. Ltd.

<sup>69</sup> Korea Suyangsan Trading Corporation.

prohibited arms.<sup>70</sup> While Mr. Fan claimed that he was only a “consultant” for the *Jie Shun*, he confirmed K-Brothers Marine Ltd. as the vessel’s operator (see annex 7-2).<sup>71</sup>

67. The second individual, Mr. Zhang Qiao (张桥), a.k.a Jack, served at least three functions for the *Jie Shun*: he was its emergency contact (see annex 7-3); he arranged the protection and indemnity insurance (see annex 7-4);<sup>72</sup> and, through his company, Bene Star Shipping Ltd., he registered the vessel’s operator, K-Brothers, in the Marshall Islands. K-Brothers and Bene Star share a fax number.<sup>73</sup> Bene Star is a key node connecting multiple companies linked to the Democratic People’s Republic of Korea and vessels associated with the Ocean Maritime Management Company, Limited (OMM) (see annex 7-5). Mr. Zhang also claimed to be a “consultant” instead of the vessel’s operator and stated that K-Brothers was “separate from myself”. The Panel notes that individuals listed as K-Brothers emergency contacts have been involved with OMM-associated vessels.<sup>74</sup>

68. With regard to the limonite used to hide the arms shipment, the Panel notes that, in addition to the *Jie Shun*, Mr. Zhang’s companies managed, operated or owned other vessels and companies that had been involved in the export of coal and iron ore from the Democratic People’s Republic of Korea (see annex 7-7).<sup>75</sup> Another vessel associated with Mr. Zhang reportedly transported coal in 2016 for a company affiliated to the military of that country.<sup>76</sup> Mr. Zhang provided bills of lading to refute the Member State’s report to the Panel; these documents bear the letterhead of the owner of the *Light*, Ever Ocean Shipping Agency Co. Ltd., which was dissolved from the Hong Kong, China, registry on 2 March 2012 (see annex 7-7).

69. The third individual, Mr. Li Anshan (李安山), was named in previous Panel reports, together with his companies, for his association with OMM. When Mr. Li first registered the *Jie Shun* in 2012 under the Cambodian flag, officers and crew from the Democratic People’s Republic of Korea took over the vessel.<sup>77</sup> In the IMO company registration process, after first registering the vessel under his company,<sup>78</sup> Mr. Li transferred it two months later to another of his companies, Hua Heng Shipping Ltd., which Egyptian authorities stated is the de facto owner of the *Jie Shun*. This company also served as manager/international safety management

<sup>70</sup> sea\_glory@163.com. Dalian Sea Glory was international safety management manager of the *Light*, commanded by a Democratic People’s Republic of Korea captain and crew (see S/2014/147, paras. 135-136).

<sup>71</sup> K-Brothers engaged in business dealings with Mr. Hiroshi Kasatsugu, an individual known for acting on behalf of the designated company Ocean Maritime Management Company, Limited (OMM), in the acquisition of two OMM vessels: the *Ocean Galaxy* and *Ocean Dawning* (see S/2016/157, table 7).

<sup>72</sup> He used benestar@byocean.com, ops@byocean.com, tech@byocean.com and jack@byocean.com.

<sup>73</sup> Bene Star was transliterated into Jixing Ship Trading Co. Ltd. (operating in Taiwan Province of China). In addition, Mr. Zhang runs several other businesses which have been investigated by the Panel, including Baili Shipping and Trading Ltd, and which had business dealings involving OMM-associated vessels (see annexes 7-5 and 7-6).

<sup>74</sup> Ms. Gu Min, Director of Bene Star; Mr. Pan Wei Chao, Director of Pantech Shipping Ltd.; and Mr. Li Qi, vice-president of Dalian Shenghao International Trade Ltd., registered by the maritime administration of the Democratic People’s Republic of Korea and also involved in the country’s imports of coal and iron ore (see annex 7-7).

<sup>75</sup> The bills of lading inspected by the Panel on-board confirm that these were the main types of cargo.

<sup>76</sup> According to a Member State, the *Bright Star* made at least three voyages shipping coal from the Democratic People’s Republic of Korea on behalf of Korea Kangbong Trading Corp., which is affiliated to the country’s Ministry of the People’s Armed Forces.

<sup>77</sup> The vessel was delisted by Cambodia on 28 August 2016.

<sup>78</sup> Liaoning International Trade Foodstuffs Shipping Company.

manager for two vessels designated as OMM assets.<sup>79</sup> The Panel has not received replies from Mr. Li, *Jie Shun* owner Vast Win Trading Ltd., Cambodia or the Marshall Islands.

70. This case demonstrates not only how the Democratic People's Republic of Korea abuses flag of convenience cover, but also how it uses vessels managed by third-country nationals to transfer different types of prohibited goods.

71. **The Panel recalls paragraph 23 of resolution 2321 (2016), by which the Security Council decided to prohibit the procurement of crewing services from the Democratic People's Republic of Korea, and recommends that the Council prohibit all flag registries from registering vessels commanded by officers from the Democratic People's Republic of Korea or operated by crews from that country.**

## 2. Shipment of military communications materiel to Eritrea

72. The Panel investigated the July 2016 interdiction reported by a Member State of an air shipment suspected to be in violation of the resolutions. The shipment originated in China and was destined for a company in Eritrea, Eritech Computer Assembly & Communications Technology PLC (see annex 8-1), according to airway bills.<sup>80</sup> Given the involvement of the Democratic People's Republic of Korea in the cargo's manufacture and logistics, the Panel concluded that it had violated the arms embargo (paragraph 9 of resolution 1874 (2009)).

### *Inspection*

73. The Panel inspected the consignment of 45 boxes and determined that the contents were military radio communications products and related accessories, including high-frequency software-defined radios, crypto-speaker microphones, GPS antennas, high-frequency whip antennas, clone cables, camouflaged rucksacks and carry-pouch (see figure 23 and annex 8-2). Certain boxes and articles were labelled "Glocom", and almost all of the items had been advertised by the company Global Communications Co (Glocom) on its website<sup>81</sup> (see annex 8-2).

<sup>79</sup> Mr. Li is the sole director and shareholder of Petrel Shipping, a British Virgin Islands company also associated with OMM.

<sup>80</sup> Based on information from the Panel, Chinese authorities thoroughly searched cargo manifest, air transport and customs clearance data for June and July 2016 and could not find any corresponding cargo from the Chinese mainland. The consignee is yet to reply to the Panel.

<sup>81</sup> The Glocom website was shut down shortly after the Panel sent letters to Glocom front companies in Malaysia.

Figure 23  
**Crypto-speaker microphone (top right) with box (top left) and software-defined radio (bottom)**

Source: The Panel.

74. Inside the rucksacks, the Panel discovered reinforcement material consisting of cigarette packaging with Korean script and “made in DPR Korea” labels (see figure 24).

Figure 24  
**Markings inside the rucksacks**

Source: The Panel.

#### *Shipper*

75. The air waybills listed the shipper as Beijing Chengxing Trading Co. Ltd.<sup>82</sup> According to the Chinese business registry, the company is still active, mainly

<sup>82</sup> In Chinese: 北京成兴贸易有限公司.

trading in electronics, mining equipment and machinery (see annex 8-3). Mr. Pei Minhao (裴民浩) was listed as a legal representative until 26 February 2016 and still owns most shares in the company (see para. 164).

76. The same individual has been listed in several online commercial databases as director of at least two other Beijing-based entities, including Guangcaiweixing Trading Co., Ltd.<sup>83</sup> (see annex 8-3). Guangcaiweixing was listed as the shipper of a suspect shipment interdicted en route to Eritrea aboard the *Kota Karim* and reported to the Committee in August 2012. The container cargo manifest listed mostly dual-use items (see annex 8-4), including “numerical control” machine tools and related equipment, which had been inspected and detained by a Member State. The 2016 interdiction is the second documented interception of military-related items exported from the Democratic People’s Republic of Korea to Eritrea and confirms ongoing arms-related cooperation between the two countries.<sup>84</sup>

#### *Manufacturer*

77. Glocom is a Malaysia-based company which advertises radio communications equipment for military and paramilitary organizations. Glocom claims a presence in more than 10 countries and a prominent international reputation gained through participating, according to its website, in three biennial “Defense Service Asia” arms exhibitions since 2006.

78. While Glocom is not officially registered and has no presence at its listed physical address, two other Malaysia-based companies acted on its behalf: International Golden Services Sdn Bhd and International Global Systems Sdn Bhd. International Golden Services was listed as the contact point for Glocom on the latter’s website, while International Global Systems is the entity that registered Glocom’s website (see annex 8-5).

79. Information obtained by the Panel demonstrates that Glocom is a front company of the Democratic People’s Republic of Korea company Pan Systems Pyongyang Branch (Pan Systems Pyongyang), which is linked to a Singaporean company named Pan Systems (S) Pte Ltd (Pan Systems Singapore).<sup>85</sup> The address on an invoice to a Glocom supplier is that of Pan Systems Pyongyang (see annex 8-6). Other facts confirm Glocom’s link with the Democratic People’s Republic of Korea: its stamp features the acronym “NKPY-PAN”<sup>86</sup> and its catalogue features Korean characters that have been deliberately blurred or blackened (see annex 8-7). Its director is a national of the Democratic People’s Republic of Korea, Mr. Pyon Won Gun.

80. Pan Systems Pyongyang is operated by the following nationals of the Democratic People’s Republic of Korea: Ms. Ryang Su Nyo (director), Mr. Pyon Won Gun, Mr. Pae Won Chol, Mr. Ri Sin Song, Mr. Kim Pyong Chol, Mr. Kim Sung Su (representative in China) and Mr. Kim Chang Hyok (representative in Malaysia) (see annex 8-8).

#### *Modus operandi*

81. Financial aspects of the operations of Pan Systems Pyongyang showed that the network utilized bank accounts, front companies and agents, mostly located in China and Malaysia, to procure components and sell completed systems (see

<sup>83</sup> In Chinese: 光彩伟兴贸易(北京)有限公司.

<sup>84</sup> See S/2016/157, paras. 94-95.

<sup>85</sup> The Pyongyang branch of Pan Systems Pte Ltd. was unilaterally designated by a Member State on 8 March 2016.

<sup>86</sup> NKPY-PAN is likely an acronym for North Korea Pyongyang-Pan Systems.

paras. 232-241). Suppliers were mostly located in China (in particular in Hong Kong, China), and many of them were selling widely available electronic products. Components were sent to Beijing or Dandong, with Mr. Pyon apparently directly responsible for all acquisition matters.<sup>87</sup> The Democratic People's Republic of Korea procured relatively inexpensive components for the purpose of assembling and selling very expensive tactical military radio communications materiel (see annex 8-9).<sup>88</sup>

82. Regarding its relationship with its office in Pyongyang, the director of Pan Systems Singapore informed the Panel that it had started doing business in 1996 and "after doing business for almost two years, [Ryang Su Nyo] suggested setting up a Pan Systems 'representative office' (unofficial) to help her in sales and logistics. At that time I think it was a good idea and agreed".<sup>89</sup> Over the next 10 years, the two offices engaged in joint projects to procure information technology items for shipment to the Democratic People's Republic of Korea, and the Pan Systems Singapore director visited Pyongyang several times. The Pan Systems Singapore director also claims that, for the past 10 years, he had no knowledge of the activities undertaken by Ms. Ryang.

83. However, the Panel's investigation has shown that in recent years Ms. Ryang regularly travelled to Singapore, where she met with the director of Pan Systems Singapore.<sup>90</sup> During her travels to Singapore, Ms. Ryang was accompanied by her staff, including Mr. Pyon Won Gun, Mr. Pae Won Chol and Mr. Kim Pyong Chol, and also met with its representative in Malaysia, Mr. Kim Chang Hyok.<sup>91</sup> Information indicates that the director of Pan Systems Singapore kept in regular contact with Mr. Kim Chang Hyok.<sup>92</sup> The Panel notes that Singapore informed the Committee, in its national report on the implementation of resolution 2270 (2016), of its decision to cancel the visa waiver for nationals of the Democratic People's Republic of Korea, which should assist in limiting the capacity of such networks to engage in and coordinate illicit activities abroad.<sup>93</sup>

84. Pan Systems Pyongyang used Malaysia as a base for its key representative abroad and for the companies that have acted on its behalf (see paras. 77-78). The Panel sent a request for information to Malaysia asking whether it intended to expel Kim Chang Hyok from its territory for the purpose of repatriation to the Democratic People's Republic of Korea pursuant to paragraph 10 of resolution 2094 (2013), and to freeze the assets or resources of International Golden Services and International Global Systems on its territory or that were subject to its jurisdiction pursuant paragraph 11 of resolution 2094 (2013). The Panel has yet to receive an answer.

<sup>87</sup> An address used in Beijing was "Mr. Jin, Room 1203, Shuimutiangcheng 2nd building, Qinghe, Haidian district".

<sup>88</sup> A software-defined radio model GR-150 was sold by Glocom for around \$8,000 (with accessories), containing five electronic cards together valued at around \$15.

<sup>89</sup> According to the director of Pan Systems Singapore, "Pan Systems Pyongyang is not a branch of Pan Systems (S) Ltd".

<sup>90</sup> Ms. Ryang undertook one trip in 2016, three in 2015, three in 2014 and one in 2010. The director of Pan Systems Singapore stated that her trips to Singapore were related to medical issues.

<sup>91</sup> The Panel notes that Mr. Kim Chang Hyok has undertaken 58 trips to Singapore since 2012 (mostly overland) and is investigating the purpose of the travels.

<sup>92</sup> The director of Pan Systems Singapore stated "I hardly see or meet him, let alone have [a] meeting with him. I may [have] seen or met him on one or two occasions". However, the Panel has information that the director of Pan Systems Singapore made sure that Mr. Kim would participate in an annual Pan Systems staff dinner.

<sup>93</sup> This measure took effect on 1 October 2016.

*Links with designated entities*

85. According to information obtained by the Panel, Pan Systems Pyongyang is operated by the Reconnaissance General Bureau, the country's premier intelligence agency, designated under resolution 2270 (2016). This shows how the Bureau enables its key agents to generate revenues for its operations through such networks. Additionally, the Panel determined that "Wonbang Trading Co." is an alias of Pan Systems Pyongyang. The Panel is investigating whether this company is actually Wonbang Trading Co., which, according to two Member States, is controlled by the Bureau and is a lead exporter of coal from the Democratic People's Republic of Korea. Information shows that Pan Systems Pyongyang also regularly received funds from the Korea Mining Development Trading Corporation (KOMID) (see figure 25 and para. 237 below).

Figure 25  
**Pan Systems Pyongyang network**

86. **In the light of the above, the Panel recommends that the Committee designate Pan Systems Pyongyang for its involvement in the sales of arms and related materiel.**

Name: Pan Systems Pte. Ltd. (Pyongyang branch)  
A.k.a: Wonbang Trading Co.  
Address: Room 818, Pothonggang Hotel, Ansan-Dong, Pyongchon district,  
Pyongyang, Democratic People's Republic of Korea  
Director: Ryang Su Nyo;  
Employees: Pyon Won Gun, Pae Won Chol, Ri Sin Song, Kim Sung Su, Kim Chang  
Hyok and Kim Pyong Chol;  
Telephone: +850-218-111 (ext. 8636).

87. This case demonstrates the increasingly sophisticated nature of evasion of sanctions by the Democratic People's Republic of Korea and illustrates important and previously unknown trends. The Democratic People's Republic of Korea was able to establish a company in a third country, building up significant international recognition, including through participation in prominent regional arms fairs and by selling high-end arms and related materiel in multiple countries. It shows how the Democratic People's Republic of Korea has accessed a very lucrative niche market, representing a significant shift from the former focus on refurbishment of Soviet-era arms. In addition, this revenue-generating activity was coordinated by a network affiliated with the Reconnaissance General Bureau that utilizes different countries in the region for the purpose of purchasing components, locating its front companies and managing its illicit activities. Finally, the route followed by the interdicted cargo indicates that multiple regional or global freight forwarders and transportation modes were utilized to obfuscate the origin of the goods.

### 3. Shipment of Scud spare parts to Egypt

88. The Panel continued its investigation into the shipment of Scud spare parts to Egypt by focusing on the shipper, Ryongsong Trading Co. Ltd (Ryongsong); the seller, Rungrado General Trading Corporation (Rungrado); and the consignee, MODA Authority International Optronic.<sup>94</sup>

89. The Panel identified the intermediary companies and individuals involved in the shipment and determined that the Democratic People's Republic of Korea was operating out of its Beijing embassy, using cash to remit payment for shipping. The seller is a major company in the Democratic People's Republic of Korea that is under the control of the Workers' Party of Korea which, among other activities, earns money by dispatching migrant workers overseas.

#### *Shipper*

90. The carrier's agent as listed on the airway bill (see annex 9-1), New Times International Transport Service Co. Ltd. (NTS), indicated it had had no direct contact with Ryongsong and that the freight forwarder, a Beijing-based company, BLH Global Cargo Co. Ltd., had acted on behalf of the shipper. BLH informed the Panel that it had indeed reserved aircraft space for the shipment, according to an agreement with NTS, but had acted on behalf of Mr. Liu Zhen Ren (刘振仁), who personally requested, in a telephone call a few days prior to the shipment, assistance in handling a consignment.

91. Mr. Liu informed the Panel that he had handled the transaction in Beijing near the embassy of the Democratic People's Republic of Korea with an individual called Mr. "Yin" (尹), whom he believes is a national of the Democratic People's Republic of Korea.<sup>95</sup> There was no documentation for this transaction, as Mr. "Yin" paid 7,500 renminbi in cash for the shipment. The Panel is investigating whether Mr. "Yin" was from the embassy of the Democratic People's Republic of Korea.<sup>96</sup>

#### *Seller*

92. Rungrado is operated by the Workers' Party of Korea and has over 10,000 employees (see annex 9-2). It has branches abroad, as well as partners in 40 countries and regions. It describes itself as dealing in "various kinds of heavy

<sup>94</sup> See S/2016/157, paras. 71-77.

<sup>95</sup> Ryongsong listed the address of the embassy of the Democratic People's Republic of Korea in Beijing as its address on the airway bill.

<sup>96</sup> The corresponding name in Korean for Mr. Yin would be Mr. Yun.

machines, vehicle, light industry and electronic goods and seafood, as well as trade cargo service, passenger and freight transport” (see annex 9-3).<sup>97</sup> The Panel determined that Rungrado’s activities included dispatch of workers abroad, including in Poland under an agreement with a Polish company, covering work on construction sites and at naval yards (see annex 9-4).<sup>98</sup> In paragraph 34 of resolution [2321 \(2016\)](#), the Security Council expressed “concern that Democratic People’s Republic of Korea nationals are sent to work in other States for the purpose of earning hard currency that the Democratic People’s Republic of Korea uses for its nuclear and ballistic missile programmes, and calls upon States to exercise vigilance over this practice”.

**93. In light of its involvement in the sale of arms and related materiel, the Panel recommends that the Committee designate Rungrado Trading Co.**<sup>99</sup>

Name: Korea Rungrado General Trading Corporation  
 A.k.a.: Rungrado Trading Corporation  
 Address: Segori-dong, Pothonggang District, Pyongyang, Democratic People’s Republic of Korea  
 Director: Pak Kyu Hong (a.k.a. Pak Gyu Hong);  
 Telephone: +850-2-18111-3818022, Fax: +850-2-3814507;  
 E-mail address: rrd@co.chesin.com

*Consignee*

94. The contract associated with Scud spare parts mentioned an entity based in Egypt, “MODA Authority International Optronic”, also listed as consignee in the airway bill (see annex 9-1). Although no company under that exact name exists in the Egyptian registry,<sup>100</sup> the Panel determined that the address and fax numbers of that entity were the same as those of another Egyptian company, “Arab International Optronics” (see annex 9-5). The majority shareholder is the National Service Organization under the Ministry of Defence and Military Production of Egypt. Its activities include general contracting to satisfy the needs of the armed forces as first priority. Arab International Optronics also regularly used the name “MODA Authority — Arab International Optronics” when purchasing military equipment, which bears obvious similarities to “MODA Authority International Optronic” (see annex 9-6).<sup>101</sup>

95. The Panel subsequently enquired with Egypt as to any involvement by Arab International Optronics in the acquisition of the Scud spare parts. Egypt replied that “The company Arab International Optronics has no connection with that transaction and has no connection with the North Korean companies mentioned in the memorandum from the Panel of Experts. The fact that the names of the companies mentioned in the memorandum from the Panel of Experts are similar does not mean that they are identical” (see annex 9-7).

<sup>97</sup> In an Italian economic forum in March 2007, Rungrado was presented as specializing in “overseas construction”.

<sup>98</sup> In 2012, Rungrado sent at least 29 workers to Poland. Rungrado’s workers in Poland have reportedly been involved in forced labour.

<sup>99</sup> On 8 March, the Republic of Korea designated Rungrado Trading Corp as an alias of Ryongsong Trading Co. Ltd.

<sup>100</sup> Fax of 15 February 2016 from Egypt to the Panel.

<sup>101</sup> Egypt informed the Panel that it had undertaken several measures to guarantee the full implementation of the relevant Security Council resolutions, including the establishment of a national committee to oversee the implementation (inter-agency mechanism), and revision and streamlining any commercial or investment transactions with the Democratic People’s Republic of Korea.

#### 4. Military vehicles observed at parade and missile launch

96. The Panel investigated a three-axle military vehicle transporting an anti-air guided missile system which was tested during a military drill, and reported by state media on 2 April 2016. The guided missile system is identical to a strategic surface-to-air missile system (KN-06) displayed during the October 2015 military parade (see figure 26).

97. The surface-to-air missile system and radar transporter vehicles at the parade were labelled “Taebaeksan-96” in Korean script and strongly resemble a series of Russian-manufactured trucks (see annex 10-1). The Panel confirmed that a Russian Federation truck company had been operating an assembly line in the Democratic People’s Republic of Korea since 2007 and that medium-sized trucks with the name “Taebaeksan-96” had been produced and licensed by that company at the Pyongsong Auto assembly plant. The Panel concludes that these “Taebaeksan-96” trucks were produced at the plant and were copies of the company’s specific truck model.

Figure 26

**KN-06 launch during the 2016 military drill (left) and trucks on parade in 2012 (middle) and 2015 (right)**

Source: *Rodong Sinmun*, anonymous and KCTV.

98. In its reply, the Russian Federation stated that the truck company had established a joint venture with Korea “Pusen” corporation involving an assembly plant for manufacturing trucks in the Democratic People’s Republic of Korea from November 2006 to December 2010, during which time 156 truck kits were delivered to the country. The joint agreement consisted of two components: a licensing agreement, including technical specifications for assembly and production; and a commercial contract on truck kit deliveries. The Russian Federation clarified that, under the contract and end user certificate, “Pusen” corporation was not authorized to utilize the model for military purposes, and resolutions 1718 (2006) and 1874 (2009) did not prohibit shipments of trucks to the Democratic People’s Republic of Korea during the period when the joint venture contract was in force.

99. The Panel notes that no company named “Pusen” exists in the Democratic People’s Republic of Korea, but that a similarly named “Korea Pusong Corporation” manufactures vehicle-related machinery parts like grinders and bearings, and considers “Pusen” to be a derivative pronunciation of “Pusong”.<sup>102</sup> Korea Pusong was designated by a Member State in March 2016 for its role in military logistics and the procurement of weapons of mass destruction.<sup>103</sup> Another Member State

<sup>102</sup> “DPRK products popular at Pyongyang Spring Int’l Trade Fair”, KCNA, 21 May 2013; and “Corundum-made products widely used”, KCNA, 22 July 2013.

<sup>103</sup> 8 March 2016, Republic of Korea designation.

stated that Pusong's alias, "Elite Surveying Instruments", had been involved in illicit shipments of dual-use items to an entity in the Syrian Arab Republic, "Megatrade", a front company of the Syrian Scientific Studies and Research Centre, that had previously been involved in prohibited activities.<sup>104</sup> According to the truck's brochure, Korea Ryongwang Trading Corporation markets this truck and provides repair and technical services (see annex 10-2). The Panel identified Ryongwang as an alias of a designated entity, Korea Ryonbong General Corporation.<sup>105</sup>

100. Spare parts almost certainly would have had to have been imported for vehicles such as "Taebaeksan-96". **Given that resolution 2270 (2016) extends the arms embargo to any item that could directly contribute to the development of the country's operational capabilities of its armed forces, the Panel reiterates that Member States should prevent the export to the country of any commercial vehicles or spare parts thereof that could be used for military purposes.** Furthermore, paragraphs 8 (a), (b) and (c) of resolution 1718 (2006) apply to the transfer of "truck chassis with 6 or more axles", listed in annex III of resolution 2321 (2016).

##### **5. Reported supply of man-portable air defence systems, surface-to-air missiles and radar to Mozambique**

101. According to a Member State, the Democratic People's Republic of Korea supplied arms and arms-related materiel to a company controlled by the Government of Mozambique, "Monte Binga". In a contract dated 28 November 2013, the Democratic People's Republic of Korea agreed to supply man-portable air defence system components and training equipment and P-18 early warning radar components, and to refurbish T-55 tanks and modernize the surface-to-air Pechora missile system of Mozambique (see annex 11-1).

102. The \$6 million contract was signed by Mr. Choe Kwang Su, the representative of Haegeumgang Trading Corporation in Mozambique. Mr. Choe is also third secretary at the embassy of the Democratic People's Republic of Korea in Pretoria. In addition to the contract itself, a Member State showed the Panel photographs of the activities, including technicians of the Korean People's Army standing in front of refurbished tanks. Mozambique has yet to respond to the Panel's enquiries.

##### **6. Patrol boat refurbishment in Angola and ship-building plans for Sri Lanka**

103. The Panel continued its investigation into the refurbishment by the Democratic People's Republic of Korea of Angolan naval patrol boats through Green Pine. The Panel requested information from Angola and China about shipment of conventional arms dual-use exports to Angola by a front company linked to Green Pine (see para. 175). The Panel established that the representative of Green Pine in Angola, a diplomat of the Democratic People's Republic of Korea named Mr. Kim Hyok Chan, and another Angola-based diplomat named as a Green Pine representative, Mr. Jon Chol Young, travelled together to Sri Lanka three times (between 2014 and 2016) to discuss shipbuilding projects. Described as boat-building experts, they reportedly met with the State Minister of Defence of Sri Lanka on 5 November 2015 to discuss building naval patrol vessels at a Sri Lankan shipyard prior to sale to its navy. The Panel has yet to receive a reply from Sri Lanka.

<sup>104</sup> See S/2014/147, paras. 51-54.

<sup>105</sup> See S/2016/157 para. 162.

## 7. Provision by the Democratic People's Republic of Korea of small arms and training of the Presidential Guard to the Democratic Republic of Congo

104. According to information from the Group of Experts on the Democratic Republic of the Congo established pursuant to resolution 1533 (2004), the Democratic Republic of the Congo received automatic pistols and other small arms shipped from the Democratic People's Republic of Korea bearing characteristics similar to those manufactured there.<sup>106</sup> The pistols were issued to the Presidential Guard of the Democratic Republic of the Congo, as well as to special units of the Congolese national police, some of whom were deployed in the United Nations Multidimensional Integrated Stabilization Mission in the Central African Republic (MINUSCA). The Group of Experts reported that the pistols were part of a larger series of transfers of arms and related materiel in 2014 and 2015, including assault rifles, and anti-tank and anti-personnel mines.

105. The Group stated that the pistols and other arms were used in training by instructors from the Democratic People's Republic of Korea at the Kibomango military base outside Kinshasa, access to which is controlled by the Presidential Guard. The Group stated that training recipients included the Presidential Guard and special police. The instructors were housed at the former Gulf Oil Company premises in the Binza district of Kinshasa. The Democratic Republic of the Congo has yet to respond to the Panel's enquiries.

## 8. Reported supply of 122-mm guided rockets and aerial missiles to the Sudan

106. According to a Member State, the Democratic People's Republic of Korea supplied 100 122-mm precision guided rocket control sections and 80 air attack satellite guided missiles (AGP-250, for ground attack) to Sudan Master Technology Engineering Company in two contracts of 29 August 2013, worth €5,144,075 and signed by reported KOMID president Mr. Kang Myong Chol (alias Pak Han Se), using a reported KOMID front company, Chosun Keuncheon Technology Trade Company.<sup>107</sup> The Member State provided travel information on KOMID officials responsible for the contracts (see table 3). The Sudan has not responded to the Panel's enquiries.

Table 3

### Travel of representatives of the Korea Mining Development Trading Corporation to the Sudan

<i>Name</i>	<i>Arrival</i>	<i>Number of accompanying KOMID staff</i>
Mr. Kang Myong Chol (aka Pak Han Se)	28 August 2013 and 15 December 2013	2 and 5, respectively
Mr. Kim Song Chol	29 August 2013, 22 March 2014 and 4 December 2014	9, 11 and 4, respectively
Mr. Jang Song Chol	10 June 2014	13
Mr. Ryu Mong Chol	4 April 2014	

<sup>106</sup> See S/2016/466, paras. 221 and 230-231.

<sup>107</sup> Contract numbers KS-EW-8100 and KS-EW-8002. Contact details for Sudan Master Technology Engineering Company were listed as Khartoum North, Kafori Area, PO Box 13189 Khartoum, Sudan, fax +249 185 336631, mobile +249 123007824.

## 9. Unmanned aerial vehicle wreckage retrieved from the Republic of Korea

107. In its continued investigation<sup>108</sup> of wreckage of unmanned aerial vehicles from the Democratic People's Republic of Korea that were recovered in 2014, the Panel confirmed that at least one of the vehicles was manufactured abroad and identified some of the intermediaries involved in the procurement. The Baengnyeong-do Island vehicle was part of a set of seven UV10 unmanned aerial vehicles manufactured by the Beijing-based company Microfly Engineering & Technology and acquired by another Beijing-based company RedChina Geosystem Co Ltd. According to the latter company, Mr. Zhao De Wen (赵德文) acquired the vehicles to sell them to Mr. Zhu Zhong Xian (朱忠贤). Mr. Zhao's account of the transaction contradicts the company's version of events. Mr. Zhao stated that Mr. Zhu purchased the seven UV10 vehicles directly from the company and denied any involvement in the transaction. The Panel inquired with China as to how the vehicle was transferred to the Democratic People's Republic of Korea and has yet to receive a reply.

108. This case illustrates the continued reliance on Chinese middlemen and cash transactions to procure commercial items for military purposes. **Member States should rigorously implement the now legally binding "catch-all" provision on arms and related materiel in resolution 2270 (2016).**

## 10. Interdiction of arms-related materiel by the Russian Federation

109. The Panel investigated a reported seizure on 7 December 2016 by Russian Federation customs officers of an eight-coil, 40 kg shipment of Aramid fibre (used for bullet-proof vests) at Vladivostok International Airport, organized by nationals of the Democratic People's Republic of Korea for shipment to that country (see figure 27).<sup>109</sup> According to the customs service of the Russian Federation, criminal proceedings are under way for this illicit transport of dual-use goods. The Panel has written to the Russian Federation to determine whether this material falls under the Committee's prohibited goods criteria.<sup>110</sup>

Figure 27

### Seized Aramid fibre coil

Source: <http://dvtu.customs.ru>.

<sup>108</sup> See S/2016/157, paras. 78-86; and S/2015/131, paras. 61-68.

<sup>109</sup> The seized materiel was non-oriented fibre comprising 10 strands without torsion, made from aromatic polyamides (Aramid or Kevlar) with a specific tensile strength of  $31.9 \times 10^4$  m.

<sup>110</sup> The Panel is yet to determine whether this material falls under the Committee's determination according to S/2009/364, section B.2, and S/2016/308, annex, para. 6 (a).

## C. Technical training, advice, services or assistance

### 1. Mansudae Overseas Projects in Africa

#### *Construction of a munitions factory in Namibia*

110. In its continued investigation of the involvement of KOMID in Mansudae's construction of a munitions factory in Namibia, the Panel confirmed that KOMID had provided key components to the Oamites munitions factory and that Mansudae had used labourers from the Democratic People's Republic of Korea. Satellite imagery also shows that construction at the military base at Oamites continued until at least 2014 (see annex 12-1). Namibia admitted that KOMID and Mansudae were involved in the project, and that it had been started by Mansudae in 2010 with labour from the Democratic People's Republic of Korea, until it was discontinued in April 2015.

111. According to a document issued by KOMID in Namibia, a shipment under contract number "STNK-010305" was destined for the Namibian Defence Force and arrived in Walvis Bay, Namibia (see figure 28 and annex 12-2). Boxes with the stencilled KOMID contract number, together with multiple pressure tanks, were seen at Walvis Bay in October 2012, before reportedly being trucked to Oamites military base. The packing list included various types of pressure tanks and machinery that could be used for military explosives and production of propellants (see annex 12-3).<sup>111</sup>

112. Namibia announced in June 2016 that, further to resolution 2270 (2016), it had decided to terminate the services of KOMID and Mansudae, including the involvement of nationals of the Democratic People's Republic of Korea in current or future projects. The Panel requested confirmation of this termination and information on any repatriation of labourers from the Democratic People's Republic of Korea, but has yet to receive a reply.

Figure 28

#### **Shipment from the Korea Mining Development Trading Corporation at Walvis Bay**

Source: John Grobler.

#### *Other military construction in Namibia and transfer of related profits*

113. Namibia informed the Panel in July 2015 of the involvement of Mansudae in the construction of monuments and government buildings. Additionally, insurance

<sup>111</sup> It includes but is not limited to ethyl acetate storage/pressure tanks, granulators, mixing tanks, ball powder feeding tanks, control agent heating/pressure boxes and tanks, concentration tanks, absorption machines and mixed-acid pressure tanks.

documents show the company's involvement in construction at military bases under Ministry of Defence contracts. The construction included the "UBM" centre at Leopard Valley military base, a new central office at the Tsmeb base, the Lafrenze building and the renovation of a guest house (see annex 12-4). The guest house contract stipulates that work will continue until February 2017.

114. Namibia informed the Panel that Mansudae had withdrawn United States dollars in cash from its account at a local Namibian bank for labourers to transport on their return to the Democratic People's Republic of Korea. In January 2015, Mansudae requested the bank to pay \$280,000 to its 14 employees for "travel expenses", which was divided into \$20,000 increments for each individual to carry (see annex 12-5).

*Exports by Mansudae of statues to Africa*

115. Mansudae exported statues and other monuments to at least 15 African Member States, including liberation memorials, independence statues and statues of leaders (see table 4). Namibia and Angola both confirmed that Mansudae had constructed statues and monuments for them and continued to do business there. Additionally, Angola confirmed that Mansudae had undertaken more than 56 construction projects until February 2015 (see annex 12-6). The Angola business registry shows that Mansudae-Angola is affiliated with Mansudae-Namibia, with 90 per cent of its shares owned by Mansudae-Namibia (see annex 12-7). Other African States have not yet replied to the Panel's enquiries regarding Mansudae and its construction activities.

Table 4

**Selected statues, monuments and other buildings by Mansudae**

<i>Member State</i>	<i>Statues/monuments</i>
Angola	Memorial Tower, Peace Park and Praia Park statues
Benin	Statue of Behanzin
Botswana	Three Dikgosi monument
Congo	Monument of Independence, Statue of the President
Democratic Republic of the Congo	Statue of Patrice Lumumba, monument to Laurent Kabila
Equatorial Guinea	Stadium, Conference Hall
Ethiopia	Tiglachin monument
Mali	Bronze of General Abdoulaye Soumaré
Mozambique	Samora Machel statue
Madagascar	Government buildings
Namibia	Hero's Acre, Independence Hall, statue of Sam Nujoma, State House
Senegal	African Renaissance Monument
Zimbabwe	Hero's Acre, statue of Joshua Nkomo

*Source:* The Panel, Mansudae and media reports.

116. The Panel's mission to Angola in September 2016 confirmed that Mansudae continued to provide management and repair services at the mausoleum complex it had constructed. At the site, the Panel observed Mansudae personnel from the Democratic People's Republic of Korea operating heavy equipment for site renovation and maintenance (see figure 29).

Figure 29  
**Mansudae personnel at mausoleum complex**

Source: The Panel.

117. In paragraph 29 of resolution 2321 (2016), the Security Council prohibited States from procuring statues from the Democratic People's Republic of Korea, directly or indirectly provided by the country or its nationals, whether or not the items originated in the territory of the Democratic People's Republic of Korea (unless there had been prior approval by the Committee). Furthermore, the Panel considers the maintenance by the Democratic People's Republic of Korea of prohibited items to also be prohibited. Therefore, any services or assistance relating to the manufacture and maintenance of statues are also prohibited.

**118. The Panel recommends that the Committee designate Mansudae Overseas Project Group of Companies for having violated the resolutions, assisting in the evasion of sanctions by providing services and assistance related to the manufacture and maintenance of arms and related materiel, working on behalf of KOMID through construction of a munitions factory, and the transfer of bulk cash via its workers.**

**119. The Panel recommends that Member States annul any contracts with the Democratic People's Republic of Korea or its nationals concerning the direct or indirect supply or transfer of statues, or services related to the maintenance of statues.**

## **2. Training of the Presidential Guard of Angola**

120. The Panel travelled to Angola in September 2016 to continue its investigation into the training by the Democratic People's Republic of Korea of the Presidential Guard. Angola informed the Panel that the training had been initiated around 1990 and that, at the time of the Panel's visit, 12 nationals of the Democratic People's Republic of Korea were providing martial arts and parade ground training. The Panel informed Angolan agencies that continuation of the training would constitute a violation of paragraph 9 of resolution 2270 (2016), which clarified the prohibition on the hosting of personnel from the Democratic People's Republic of Korea for security force training, established under resolution 1874 (2009). On 24 October

2016, the Panel enquired with the Government of Angola as to whether they had departed the country. The Panel has yet to receive a reply.

### 3. Military and police cooperation with Uganda

121. The Panel continued its investigation into the training by the Democratic People's Republic of Korea of Ugandan military and police forces. In its national implementation report, Uganda confirmed that the Democratic People's Republic of Korea was training its air force pilots and technicians as part of a contract which would expire in March 2018. Uganda also reported that two police training contracts involving 45 personnel from the Democratic People's Republic of Korea would expire in June 2016 and that, in the light of resolution [2270 \(2016\)](#), it would not be renewed.<sup>112</sup> The Panel has advised Uganda that the ongoing air force training constitutes a violation of paragraph 9 of resolution [2270 \(2016\)](#).

122. The Panel is continuing its investigations into the activities of KOMID officials travelling to Uganda and is awaiting a response from the authorities of that country. The Panel remains concerned over the activities of the military attaché office at the embassy of the Democratic People's Republic of Korea in Kampala and their attempts to generate military cooperation projects in third countries, such as South Sudan, which would violate the provisions of resolution [2270 \(2016\)](#) (see annex 12-8).

### 4. International military technical forum in the Russian Federation

123. According to a September 2016 social media post by the embassy of the Russian Federation in the Democratic People's Republic of Korea, a military delegation led by Colonel-General Yun Tong Hyon, Vice Minister of the People's Armed Forces, was invited by the Ministry of Defence of the Russian Federation to "participate in the activities of the International Military Technical Forum 'Army 2016'".<sup>113</sup> The Panel wrote to the Russian Federation to express concern over the possibility that the military delegation of the Democratic People's Republic of Korea might exploit the event to contact foreign entities or countries for military-related cooperation or to obtain technical information (such as catalogues and datasheets for the purpose of reverse engineering, which are prohibited under paragraphs 8<sup>114</sup> and 9 of resolution [2270 \(2016\)](#), and requested additional information. The Russian Federation replied that the participation of representatives of the Democratic People's Republic of Korea in the forum did not fall under the current sanctions regime (see annex 12-9).

## D. Implementation of the luxury goods ban

### 1. Masikryong ski resort<sup>115</sup>

124. The Panel continued to investigate the supply of ski equipment used at Masikryong ski resort. In January 2016, media reports showed photographs of a cable-car system produced by an Austrian company, Doppelmayr Seilbahnen GmbH (see figure 30), which has yet to reply to inquiries from the Panel. Austria informed the Panel it did not consider ski lifts to be covered by Council Regulation (EC) No. 329/2007 of 27 March 2007, implementing legislation for Security Council resolution [1718 \(2006\)](#). In order to close the gap, Austria stated that "ski-gondolas

<sup>112</sup> Letter dated 3 June 2016 from the Permanent Mission of Uganda to the United Nations to the Panel of Experts.

<sup>113</sup> Facebook page of the embassy of the Russian Federation in Pyongyang.

<sup>114</sup> Exemptions in paragraph 8 include food and medicine.

<sup>115</sup> See [S/2015/131](#), paras. 99-101; and [S/2014/147](#), paras. 118-119.

will be added explicitly to the European Union’s North Korea list of luxury goods”.<sup>116</sup> On 29 April 2016, the Council regulation was updated to include “teleferics, chairlifts, ski-draglines, traction mechanisms for funiculars” and their parts and accessories.<sup>117</sup>

Figure 30  
**Masikryong ski resort cable car system**

Source: NK News.

## 2. Limousine seized by Bangladesh

125. On 8 January 2017, Bangladesh Customs Intelligence seized a falsely declared luxury vehicle (see figure 31) brought into the country for resale by a diplomat from the Democratic People’s Republic of Korea who had been expelled from Bangladesh five months earlier for involvement in another smuggling case. Such transfer by a diplomat could contravene paragraph 17 of resolution 2321 (2016). The Panel continues its investigation.

Figure 31  
**Vehicle seized by Bangladesh**

Source: Bangladesh Customs Intelligence.

<sup>116</sup> Reply of Austria to the Panel, 31 March 2016.

<sup>117</sup> Council Regulation (European Union) No. 2016/682 of 29 April 2016 amending Regulation (EC) No. 329/2007. European Union combined nomenclature codes now provide simplified means for exporters to check whether the export of these products and others to the Democratic People’s Republic of Korea would violate the ban on luxury goods.

### 3. Wonsan air show aircraft

126. The Panel investigated the operation of a P-750 XSTOL aircraft manufactured by Pacific Aerospace Ltd. (New Zealand) and an aircraft manufactured by an Italian company at the “Wonsan Air Festival” (see figure 32), held in September 2016 as violations of paragraph 8 (a) (iii) of resolution 1718 (2006), as implemented by New Zealand and the European Union.

Figure 32

#### Aircraft at the Wonsan air show

Source: NK News (left) and Aleksandr Pak (right).

127. The Panel determined that both aircraft had been indirectly brought to the Democratic People’s Republic of Korea. The P-750 XSTOL aircraft had been sold to a Chinese company<sup>118</sup> and delivered to China in September 2015. Ownership had then been transferred in October 2015 to a company describing itself as “Beijing Freesky Aviation Co., Ltd”.<sup>119</sup> The aircraft had been brought to the Democratic People’s Republic of Korea by December 2015 (see annex 12-10). Both New Zealand and Italy confirmed that aircraft fell into their luxury goods category. China stated that “Member States have [a] different definition [of] luxury goods”, emphasizing that aircraft are not included in the prohibited luxury goods list in the resolutions.

128. This case highlights a trend whereby luxury items in manufacturers’ countries are transferred to third countries with different criteria for luxury goods prior to their end use in the Democratic People’s Republic of Korea.

### 4. Sportswear produced in the Democratic People’s Republic of Korea

129. The Panel investigated reported manufacture of an Australian brand of ski clothing at Taedonggang Clothing Factory in Pyongsong, Democratic People’s Republic of Korea. The company publicly stated it was aware of the issue, which related to its winter 2015 mountain-wear line, but had become aware of it only after the production had been completed and been shipped to retail customers. The company also stated that two styles, totalling 4,000 units of ski wear, did slip through and had been shipped to customers.

130. The ski wear has been produced in the Democratic People’s Republic of Korea since at least 2014. Despite a 2014 web blog that included ski wear production images, the company did not sever its production line for two years. The Panel is investigating the factory in the Democratic People’s Republic of Korea for the reported production of military uniforms for export. The investigation highlights joint ventures by foreign companies that utilize cheap labour to produce luxury sportswear in the Democratic People’s Republic of Korea, thereby generating foreign currency for that country.

<sup>118</sup> The New Zealand and Chinese companies established a joint-venture factory in 2016.

<sup>119</sup> According to the manufacturer.

## E. Implementation of other embargoes

### 1. Specialized teaching and training

131. Paragraph 17 of resolution [2270 \(2016\)](#), complemented by paragraph 10 of resolution [2321 \(2016\)](#), introduced a ban on “specialized teaching or training” of disciplines that could contribute to prohibited programmes of the Democratic People’s Republic of Korea.

132. Regarding the participation of nationals of the Democratic People’s Republic of Korea in courses at the Centre for Space Science and Technology Education in Asia and the Pacific, host country India informed the Panel that it had “taken measures to prevent any future [participation by the Democratic People’s Republic of Korea] in courses offered by [the Centre] which could be used by” programmes of the Democratic People’s Republic of Korea.<sup>120</sup>

133. The Panel also investigated two Italian institutions, the International Centre for Theoretical Physics and the International School for Advanced Studies, with students from the department of physics of Kim Il Sung University. The International Centre in particular has enjoyed the support and partnership of IAEA since the 1960s and the Institute frequently organizes joint IAEA nuclear-related workshops. Students from the Democratic People’s Republic of Korea were enrolled in PhD courses or postgraduate diploma programmes, including on high energy physics, which could fall into the category of disciplines banned by resolution [2270 \(2016\)](#). Upon the Panel’s recommendation, both institutions redirected current and future students from the Democratic People’s Republic of Korea to mathematics.

134. The Panel investigated four students from the Democratic People’s Republic of Korea at the faculties of material science and engineering, and electronic telecommunications technology at the Politehnica University of Bucharest in Romania. Romania indicated that, following the adoption of resolution [2270 \(2016\)](#), all four students had transferred to the faculty of biotechnical systems engineering in the field of specialized machinery for agriculture and food. The Panel is also investigating two students from the Democratic People’s Republic of Korea at Uppsala University in Sweden reportedly studying biology at the PhD level.

135. According to a Member State, Kim Il Sung University, the Kim Chaek University of Technology, the Pyongsong College of Science and the National Defense University are the main institutions feeding the nuclear or ballistic missile programmes of the country. The Panel determined that some of those institutions had bilateral agreements with at least four universities in China and two in the Russian Federation (Far Eastern Federal University and Pacific National University). The Panel enquired as to how paragraph 17 of resolution [2270 \(2016\)](#) had been implemented in practice. Far Eastern Federal University stated that all students from the Democratic People’s Republic of Korea were attending training in humanitarian disciplines.<sup>121</sup> Pacific National University stated that it was acting “according to the resolutions” and there “there are no courses and researches which have become prohibited to the [nationals of DPRK] following the implementation of resolution 2270”. The Panel has yet to receive information from the universities in China. The Panel is investigating whether there are agreements with universities in other countries, including in North America, the Middle East and Europe.

<sup>120</sup> See [S/2016/157](#), paras. 46-51.

<sup>121</sup> Primarily Russian language and literature.

## 2. Aviation fuel

136. Paragraph 31 of resolution [2270 \(2016\)](#) prohibits the sale or supply of certain aviation-related fuels to the Democratic People's Republic of Korea with specific exceptions. The Panel sent baseline surveys on the aviation fuel procurement methods of the Democratic People's Republic of Korea, as well as quantities and agents, to 12 Member States, 8 of which responded. The Russian Federation stated that the types of fuel designated by the Security Council in resolution [2270 \(2016\)](#) had not been supplied to the Democratic People's Republic of Korea since March 2016. Chinese customs data obtained from a subscription database showed exports of fuel to the Democratic People's Republic of Korea labelled as "air transport" valued at only \$90,211 for the period 1 July-2 October 2016.<sup>122</sup> Other Member States that had previously sold aviation fuel to the Democratic People's Republic of Korea indicated they had temporarily suspended the technical landings of Air Koryo flights.

137. The Panel notes that, despite the measures introduced in resolution [2270 \(2016\)](#), the activities of the air force of the Democratic People's Republic of Korea continued with no reduction in air sorties. In addition, the Democratic People's Republic of Korea held its first-ever air show at Wonsan on 24 and 25 September 2016 featuring military and Air Koryo aircraft. These investigations continue.

## VI. Transportation

### A. Maritime

#### 1. OMM vessels

138. Following resolution [2270 \(2016\)](#), Member States prohibited OMM vessels from entering their ports, which led to OMM vessels limiting their voyages to between ports in the Democratic People's Republic of Korea. While some vessels became inactive, others continued sailing, including the *Ji Hye San*, *Kang Gye*, *Song Jin* and *Thae Phyong San*. Notably, 8 of the 31 vessels designated in annex III to resolution [2270 \(2016\)](#) were involved in identity deception (annex 13-1).

139. Since July 2016, this deception has involved renaming and allocating new Maritime Mobile Service identity numbers and call signs (see table 5).

Table 5  
Vessel identity changes

Original name <sup>a</sup>	IMO No.	Deception		
		Name	MMSI	Call-sign
<i>Chol Ryong</i>	8606173	Pukchong 33	445548000	HMZA5
<i>Hui Chon</i>	8405270	Song Phyong 7	445554000	HMZB7
<i>Ji Hye San</i>	8018900	Ri Won 105	445549000	HMZA8
<i>O Rang</i>	8829555	Song Phyong 1		
<i>Ryong Rim</i>	8018912	Sin Pho 99	445546000	HMZB2
<i>Se Pho</i>	8819017	Buryong3		HMEG

<sup>122</sup> This was not a violation of paragraph 31 of resolution [2270 \(2016\)](#).

Original name <sup>a</sup>	IMO No.	Deception		
		Name	MMSI	Call-sign
<i>Song Jin</i>	8133530	Hongwon88	445366000	HMZE
<i>Chong Rim 2</i>	8916293	Saebjol	445143000	HMAA

<sup>a</sup> As listed in resolution 2270 (2016), annex III.

140. One of the above cases involved the *Song Phyong 7*, which omitted its obligatory IMO number when transmitting its Automatic Identification System data from 13 November 2016, violating shipping regulations (see figure 33).<sup>123</sup> This vessel is listed in the database of the Maritime Administration of the Democratic People's Republic of Korea with the exact characteristics of the designated OMM vessel *Hui Chon* (IMO 8405270) (see annex 13-2). The Panel further confirmed that it is the only vessel of those dimensions built at that shipyard in 1984, that it is the only existing ship of its class and that there is no pending IMO number request. The vessel was detained following a Port State Control inspection between 18 and 23 November 2016 owing to a lack of documentation (see annex 13-3). There was no mandatory Continuous Synopsis Record describing the vessel's history, nor were there any IMO numbers on the vessel's certificates or in a visible place on the ship's hull, superstructure or the interior, as required by the IMO.<sup>124</sup> The Panel concludes that the maritime administration of the Democratic People's Republic of Korea falsified the identity of the *Hui Chon* by providing fake certificates and allocating a new Maritime Mobile Service identity number, in evasion of paragraphs 12, 22 and 23 of resolution 2270 (2016), which would have required a Member State to seize the vessel or deny it entry into port.

Figure 33

***Song Phyong 7* Automatic Identification System transmission**

Source: Marinetraffic.com.

<sup>123</sup> These regulations include International Convention for the Safety of Life at Sea regulation XI/3, which came into force on 1 January 1996, according to which the IMO number must remain unchanged upon flag transfer and be included in a ship's certificates.

<sup>124</sup> Safety of Life at Sea Convention, regulations XI/3 and XI-1/3.

141. The Panel monitored the 31 vessels listed in annex III of resolution 2270 (2016), 9 of which were subsequently delisted.<sup>125</sup> All were foreign-flagged except for the *South Hill 5*, which was reregistered under the flag of the Democratic People's Republic of Korea and renamed the *Nam Dae Chon*.<sup>126</sup> The *South Hill 2* and *Hu Chang* were reported scrapped as of March 2016. The Democratic People's Republic of Korea-flagged *Mu Du Bong* was seized in 2015 as an asset of OMM by Mexico and scrapped in July 2016.

#### *Reflagging*

142. Following resolution 2270 (2016), flag States deregistered a number of vessels that were linked to the Democratic People's Republic of Korea. These included 15 vessels deregistered by Mongolia. Six of those vessels moved to the United Republic of Tanzania (Zanzibar) flag registry, only to be delisted on 29 June by that country, along with five other vessels. Three of the fifteen (*E.Morning*, *Jinming 1* and *Northern Luck*) were then reregistered under the flag of the Democratic People's Republic of Korea, three under Fiji and three under the Republic of Moldova. Panama deregistered five vessels; one moved to the registry of the Democratic People's Republic of Korea and, of the two that moved to the United Republic of Tanzania, one later moved to Fiji. Despite official deregistration, many of the vessels continue to sail under the flag of the United Republic of Tanzania. Overall, there is a trend towards vessels associated with the Democratic People's Republic of Korea being reflagged with the United Republic of Tanzania, and of holding companies that are associated with the Democratic People's Republic of Korea registering in the Marshall Islands. The Panel has yet to receive responses from the United Republic of Tanzania and the Marshall Islands. Paragraph 24 of resolution 2321 (2016) strengthened paragraph 19 of resolution 2270 (2016) by requiring Member States to deregister any vessel that is owned, controlled or operated by the Democratic People's Republic of Korea, and prohibiting re-registration of any vessel that had been deregistered pursuant to that paragraph.

#### *Democratic People's Republic of Korea-flagged vessels*

143. The Panel found that 30 Democratic People's Republic of Korea-flagged vessels were owned or operated by 37 foreign companies (in seven countries), in violation of paragraph 20 of resolution 2270 (2016). Nine of these vessels have changed their flag and six have been sold. The remaining vessels and companies are listed in annex 13-4. These vessels are also now in violation of paragraph 9 of resolution 2321 (2016).

## **2. Maritime insurance: DGS Marine**

144. The Panel obtained evidence that two Democratic People's Republic of Korea-flagged vessels, the *Min Hae* (IMO 8672897) and the *Dong Nam 1* (IMO 8503735), were insured by what became a defunct and unlicensed offshore entity, DGS Marine (a.k.a British European and Overseas P&I), controlled by a national of the United Kingdom, David Skinner. In addition to the possible violation of paragraph 19 of resolution 2270 (2016), reports have suggested that DGS Marine previously insured vessels subject to the European Union sanctions regime against the Syrian Arab Republic (see annex 13-5).

<sup>125</sup> *Ever Bright 88*, *Firstgleam* (former *Dawnlight*), *Gold Star 3*, *Grand Karo*, *JH 86*, *Jin Tai*, *Jin Teng*, *Orion Star*, and *South Hill 5*.

<sup>126</sup> Reregistered by the Maritime Administration of the Democratic People's Republic of Korea in July 2016. Susam Shipping Co. is the owner/operator.

145. The Panel notes previous widespread use by Democratic People’s Republic of Korea-flagged vessels of other foreign insurance entities subsequently liquidated by court order for being unable to perform their obligations to the insured, including the South of England Protection and Indemnity Association.<sup>127</sup> This is enabled by some flag and port States not verifying the insurance credentials of vessels. **The Panel recommends that flag and port States verify the origin and legal validity of insurance of Democratic People’s Republic of Korea-flagged vessels or vessels suspected of being crewed by the Democratic People’s Republic of Korea.**

146. **The Panel recommends that the Committee establish a list of designated vessels (subject to seizure as economic resources pursuant to paragraphs 12 and 23 of resolution 2270 (2016)), which includes vessel-identifying characteristics, and maintain the list as for designated individuals. In addition, the aliases of OMM vessels contained in table 5 should be added to the list.**

147. **The Panel recommends to the Security Council that “chartering” should be added to paragraph 9 of resolution 2321 (2016).**

## **B. Air**

### **Air Koryo**

148. The Panel has continued to collect information on the Democratic People’s Republic of Korea military command of Air Koryo and the airline’s military nature; the absence of boundaries between Air Koryo and the Korean People’s Army Air Force and the role of Air Koryo in incidents of non-compliance. Military command over Air Koryo was further demonstrated in 2016 when KCNA released images of Mr. Kang Ki Sop, the Chief of the Civil Aviation Bureau, which controls Air Koryo, wearing a military uniform and visiting Korean People’s Army Air Force bases together with Kim Jong Un. Mr. Kang Ki Sop was also filmed in civilian clothing with Kim Jong Un during visits to the new terminal at Pyongyang Sunan International Airport (see figure 34).

---

<sup>127</sup> “US Treasury fines American Company for insuring N. Korean vessels”, NK News, 7 August 2015.

Figure 34  
Civil Aviation Bureau Chief Kang Ki Sop<sup>128</sup>

Source: KCNA and the Panel.

149. The Panel previously indicated that Air Koryo and all airports and airfields in the Democratic People’s Republic of Korea are controlled by the Korean People’s Army Air Force.<sup>129</sup> The Panel documented the use of these aircraft for transporting Korean People’s Army paratroopers during military exercises<sup>130</sup> and at military parades, one of which featured three aircraft painted in camouflage.<sup>131</sup> The above information confirms that Air Koryo is integrated into the military of the Democratic People’s Republic of Korea and that the airline’s assets are actively utilized for military purposes.

150. Air Koryo has also been involved in two shipments of prohibited goods that were interdicted by Member States. In 2013, it transported a cargo of Scud missile spare parts from Pyongyang.<sup>132</sup> In 2009, an Air Koryo airway bill was used as the official transportation document to falsely label as “mechanical parts” 35 tons of conventional arms and munitions, including 240-mm rockets, rocket-propelled grenades and man-portable air defence systems valued at over \$16 million.<sup>133</sup>

151. Given the preponderance of evidence showing the absence of boundaries between the Korean People’s Army Air Force and Air Koryo, the Panel considers that the “catch-all” provision of paragraph 8 of resolution 2270 (2016) should apply to items<sup>134</sup> destined for Air Koryo aircraft.

<sup>128</sup> According to state media, Mr. Kang has passed away.

<sup>129</sup> See S/2014/147, para. 141.

<sup>130</sup> See S/2015/131, para. 118.

<sup>131</sup> See S/2014/147, para. 141.

<sup>132</sup> See S/2016/157, paras. 71-76.

<sup>133</sup> See S/2013/337, annex XIII, sect. L.

<sup>134</sup> Including aviation-related technology, software, and test, inspection and production equipment listed in S/2016/1069.

## VII. Activities of designated entities and individuals

152. The Panel investigated the activities of key designated entities and individuals, with a focus on those which had recently been added. The Panel's findings are that designated entities have intensified their business dealings via commercial online sources through complex networks of front companies, gradually disappearing in public business registries, which shows their adaptability and survivability in the sanctioned environment. Key trusted individuals continue to operate multiple companies at different addresses, allocating each company to trade in a specific type of business.

153. The Panel's investigations have found widespread evidence that designated entities and/or entities involved in prohibited activities have also traded in minerals listed in the resolutions, a lucrative business which also draws in more clients to facilitate their business dealings. Despite their affiliation with different state organizations, the procurement networks of certain designated entities are interconnected, with the most appropriate networks chosen for specific business dealings. Foreign embassies and trade offices are frequently exploited for their activities, and diplomatic status and embassy compounds utilized for the sale of prohibited items. The networks still boil down to a limited number of individuals and intermediaries; and those at an embassy or at trading companies are likely to be appointed as representatives of the designated entities.

154. Designated entities continue to exploit time lags between Security Council designations and Member State implementation by changing names, directors and addresses, and compartmentalizing their businesses to minimize the impact of sanctions. The Panel considers it essential that Member States monitor key individuals in designated entities, including directors, keeping records of their business activities and strengthening international cooperation to that end. **The Panel also recommends that Member States communicate to the Committee available information on designated entities or entities owned or controlled by individuals acting on behalf of or at the direction of designated entities or individuals, or those which have assisted in the evasion of sanctions or violation of the resolutions.**

### A. Activities of designated entities

#### 1. Namchongang Trading Corporation

155. Resolution 2270 (2016) designated Namchung Trading Corporation as an alias of Namchongang Trading Corporation<sup>135</sup> and Mr. Kang Mun Kil (a.k.a. Jiang Wen-ji)<sup>136</sup> for his nuclear procurement activities as a representative of Namchongang and/or Namchung.

156. According to the Chinese business registry,<sup>137</sup> an entity named "Beijing Representative Office of Korea Namchung Trading Corporation (朝鲜南兴贸易会社北京代表处)" was established in October 2005 (see annex 14-1). Although its business license was revoked on 12 October 2012, some Chinese commercial websites still show branches of this company as active in Beijing and Dandong with Mr. Kang Mun Kil as its representative. Another company director is Mr. Hyon

<sup>135</sup> Namchongang was designated on 16 July 2009 for its role and involvement in the procurement of nuclear-related items from the late 1990s.

<sup>136</sup> In Korean: 강문길, in Chinese: 姜文吉.

<sup>137</sup> Its official name is the national enterprise credit information publicity system.

Byong Chol.<sup>138</sup> China stated that the Dandong representative office licence was revoked on 10 April 2015.

*Taeryonggang Trading Corporation*

157. Mr. Kang Mun Kil has also been registered as a legal representative of a Dalian-based entity named “Taeryonggang Trading Corporation” (朝鲜大玲江贸易会社),<sup>139</sup> a fact that was published in Chinese newspapers in August 2013 (see annex 14-2). A Member State identified Taeryonggang as an alias of Namchongang and designated it on 2 December 2016.<sup>140</sup> The Panel confirmed through a comparison of both letterheads that Taeryonggang shares telephone and fax numbers with Namchongang (see annex 14-3).<sup>141</sup>

*Namchongang’s connection with other entities*

158. Namhung’s address on several commercial websites is identical to that of Korea Sobaeksu United Corporation (朝鲜小白水联合会社) in the Chinese business registry. Both companies’ registrations were revoked on 12 October 2012 but Namhung appears to have taken over Sobaeksu’s office and business network and is using Sobaeksu’s address to promote its business activities (see annex 14-4). Sobaeksu was designated by the European Union for its involvement in the research and acquisition of sensitive products and equipment in December 2010.<sup>142</sup> Branch offices of this company are listed in several commercial online sources as still active in Beijing, Yingkou and Dandong (see annex 14-5).

159. The Panel’s investigation revealed possible links between the networks of Sobaeksu, Namchongang and KOMID. Sobaeksu’s director before its licence was revoked, Mr. Yun Ho-Jin<sup>143</sup> (see figure 35 and annex 14-6), has the same name as the individual designated by the Committee in July 2009 as director of Namchongang. An individual named Mr. Kim Chol Nam<sup>144</sup> who, according to a commercial business registry, is director of Sobaeksu’s Dandong branch (see annex 14-7), had been listed in the official business registry as a representative of the Beijing branch of “Korea Changgwang Trading Corporation (朝鲜昌光贸易总会社)”, which the Panel previously identified as an alias of KOMID.<sup>145</sup>

<sup>138</sup> In Korean: 현병철, in Chinese: 玄炳哲.

<sup>139</sup> A.k.a Daeryonggang Trading Corporation.

<sup>140</sup> Republic of Korea designations of 2 December 2016.

<sup>141</sup> According to the bank’s ledger, funds were transferred to Tanchon Commercial Bank for the account of Taeryonggang for the purchase of control pads.

<sup>142</sup> The Republic of Korea has designated Sobaeksu.

<sup>143</sup> In Korean: 윤호진, in Chinese: 尹浩真.

<sup>144</sup> In Korean: 김철남, in Chinese: 金哲南.

<sup>145</sup> See S/2010/571, para. 56.

Figure 35  
**Entities and individuals related to Namchongang**

160. The Panel recommends that the Committee update its sanctions list by adding the following information on Namchongang Trading Corporation as an a.k.a. to KPe.004:

A.k.a: Korea Tearyonggang/or Daeryonggang Trading Corporation  
 (조선대령강무역회사, 朝鮮大玲江貿易會社)

Address: Sengujadong 11-2/(or Kwangbok-dong), Mangyongdae District,  
 Pyongyang, Democratic People's Republic of Korea  
 Telephone number: +850-2-18111, 18222 (ext. 8573)  
 Facsimile number: +850-2-381-4687.

## 2. Tanchon Commercial Bank

161. Tanchon Commercial Bank was designated on 24 April 2009, and two of its representatives in Viet Nam, Mr. Choe Song Il and Mr. Kim Jung Jong were designated on 2 March 2016.

162. In its national implementation report under resolution 2270 (2016), Viet Nam stated that those individuals were the third secretary and staff member of the embassy of the Democratic People's Republic of Korea in Hanoi, but that they and their families had departed Viet Nam: in one instance before, and in one instance after the adoption of resolution 2270 (2016). Viet Nam stated it had never authorized Tanchon Commercial Bank to open a branch or subsidiary and that it had found no information on that entity. The Panel has previously noted the practice of the Democratic People's Republic of Korea of assigning diplomats to serve as representatives of designated entities without notifying the State in which they are accredited.

## 3. Korea Mining Development Trading Corporation

*Beijing New Technology Trading Company*

163. KOMID has reportedly utilized an entity named Beijing New Technology Trading Company as a key vehicle for circumventing sanctions measures. Information provided by a Member State confirms that Beijing New Technology is a front company of KOMID.

164. The Hong Kong, China, company registry shows that the director of Beijing New Technology, Mr. Pei Minhao, is also the owner of Beijing Chengxing (see figure 36 and annex 14-8), which was involved in a prohibited arms-related transfer to Eritrea in 2016 (see para. 75-76). Another director of Beijing New Technology, Mr. Park Young Han,<sup>146</sup> also serves as legal representative of the company Guangcaiweixing,<sup>147</sup> which was involved in another intercepted shipment to Eritrea reported to the Committee in 2012 (see annex 14-9).

165. According to several sources in the Chinese commercial coal and iron market, Beijing Chengxing has been listed as a supplier of Democratic People's Republic of Korea anthracite, iron ore and other minerals, and Guangcaiweixing is also listed as a supplier of Democratic People's Republic of Korea anthracite and minerals after the adoption of resolution 2270 (2016) (annex 14-10).

Figure 36

**Entities and individuals related to Beijing New Technology**

#### 4. Green Pine Associated Corporation

##### *Natural Resources Development and Investment Corporation*

166. The Committee designated Green Pine Associated Corporation in May 2012 and listed its aliases as “Natural Resources Development and Investment Corporation” (NDIC) and “Chosun Chawo’n Kaebal Túja Hoesa”.

167. The Chinese official business registry has listed a Beijing-based entity with the name “Beijing Representative Office of Korea NDIC” (朝鲜资源开发投资会社北京代表处). The Chinese script 朝鲜资源开发投资会社 phonetically translates into Korean as “Chosun Chawo’n Kaebal Túja Hoesa”.<sup>148</sup>

168. According to the business registry, this alias of Green Pine is still active (with its licence expiring in May 2031). “Korea NDIC” also has a branch office in

<sup>146</sup> In Korean: 박영한, in Chinese: 朴永汉.

<sup>147</sup> The name of the company as it appears in the official Chinese business registry.

<sup>148</sup> In Korean: 조선자원개발투자회사.

Shenyang and its registration was renewed in June 2014, according to several commercial online sources (see annex 14-11).<sup>149</sup>

*NDIC joint ventures with foreign companies*

169. The Panel investigated an attempt by NDIC to use a joint venture to obtain offshore investment for mining in the Democratic People's Republic of Korea.<sup>150</sup> On 8 August 2012, NDIC established a joint venture with an entity registered in the British Virgin Islands, TTS Resources Limited. An Australian company announced on the Australian Securities Exchange its intention to acquire a joint venture sublicense in March 2013 for the Kumwha Deposit, but actions taken by the Exchange led to it being annulled by the company in September 2014 without any mining having taken place.<sup>151</sup>

170. A separate, similarly named Democratic People's Republic of Korea entity, National Resources Development and Investment Corporation (NRDIC, as opposed to NDIC) also attempted to establish a similar type of joint venture for the same purpose, using companies based in the same countries and territories. Furthermore a Member State confirmed to the Panel that NRDIC is an alias for Green Pine.

171. The Panel also found NDIC letterhead from 2010 that shows a different address from that of Green Pine contained in the Committee's sanctions list and previously mentioned in the 2016 final report (see annex 14-12). **The Panel therefore recommends that the Committee update its sanctions list on Green Pine as follows:**

Add the alias of "National Resources Development and Investment Corporation" (NRDIC) as an a.k.a. to KPe.010;

Add addresses to KPe.010:

Rakrang No. 1 Rakrang District, Pyongyang, Democratic People's Republic of Korea

Chilgol-1 dong, Mangyongdae District, Pyongyang, Democratic People's Republic of Korea;

Telephone number: +850-2-18111 (ext. 8327)

Facsimile number: +850-2-3814685 and +850-2-3813372

E-mail: [pac@silibank.com](mailto:pac@silibank.com) and [knidic@co.chesin.com](mailto:knidic@co.chesin.com)

*Greenpine International Corporation Ltd.*

172. Greenpine International Corporation Ltd. ("Greenpine International") is listed in the Hong Kong, China, company registry as active, with Mr. Kim Song Il as director.<sup>152</sup> He is also registered in China as director of two other Beijing-based trading companies (see annex 14-13).<sup>153</sup> According to the Chinese business registry, Greenpine International is a major shareholder of the two trading companies. The reply of China to the Panel stated the companies "have moved away from their registry address".<sup>154</sup> Mr. Kim Song Il's residential address in the Hong Kong, China,

<sup>149</sup> China investigated and stated that the relationship between this entity and Green Pine was unknown.

<sup>150</sup> The joint venture was for the mining and sale of minerals from the Kumwha Mine, North Hwanghae province of the Democratic People's Republic of Korea.

<sup>151</sup> EHG Corporation Limited, "EHG Corporation to acquire mineral licences", 8 March 2013; and "Cancellation of Kumwha deposit transaction", 19 September 2014.

<sup>152</sup> In Korean: 김성일, in Chinese: 金成日.

<sup>153</sup> Beijing Dingyuan Dasong Trading Co., Ltd. (北京鼎元大松贸易有限公司) and Dingyuan Zhencheng (Beijing) Trading Co., Ltd. (鼎元贞盛(北京)贸易有限公司).

<sup>154</sup> China also stated that "Mr. Kim is not a shareholder of any other enterprise and does not hold a position in any representative agency or office in China mainland".

registry is the same as the registered address of these two Chinese companies (see annex 14-14).

173. These two Beijing-registered companies and the Beijing branch office of Greenpine International have taken over the former addresses of entities of the Democratic People's Republic of Korea that had their licenses revoked.<sup>155</sup> Several employees and representatives of these companies overlap and are connected through various roles in each company (see figure 37). These links with Democratic People's Republic of Korea-associated entities and co-located office space clearly demonstrate a relationship with the Democratic People's Republic of Korea (see annex 14-15). The Panel has obtained information underlining its connection with Korea Kwangson Banking Corporation and its procurement role for the country (see para. 237).

Figure 37

**Entities and individuals related to Kim Song Il and Greenpine**

174. Mr. Kim Song Il was arrested and indicted in a United States court for attempting to purchase United States-manufactured and controlled military goods, including night-vision goggles, and illicitly transfer them to his residential address in China, followed by possible transfer to the Democratic People's Republic of Korea. His signature in the plea bargain is identical to those in his Hong Kong, China, company registration documents (see annex 14-16).

175. In 2015, Angola reported to the Committee that Green Pine had delivered military patrol boats to the country until 2012.<sup>156</sup> Chinese customs records from a subscription database<sup>157</sup> show that one of Kim Song Il's Beijing-based companies exported maritime-related dual-use products to Angola, including boat engines and motors, and radar systems (see annex 14-17). The Panel is of the view that Mr. Kim Song Il has worked at the direction of Green Pine and that his companies, including Greenpine International, are front companies of Green Pine.

<sup>155</sup> "Beijing representative office of DPRK Folk Art United Corporation" (朝鲜民艺联合商社北京代表处) and "Korea Folk Art (Beijing) Food Service Co., Ltd." (高丽民艺(北京)餐饮有限公司) (annex 14-15).

<sup>156</sup> See S/2016/157, para. 108 and annex 1.

<sup>157</sup> Panjiva is a commercial, subscription-based database providing authoritative customs data for a limited number of countries.

### King Helong Company Limited

176. The Panel continued its investigation of two individuals registered as former legal representatives of Green Pine: Mr. Choe Kwang Hyok<sup>158</sup> and Mr. Pak Won Il.<sup>159</sup> Mr. Choe is listed as chief executive of Beijing King Helong International Trading Ltd.<sup>160</sup> (“Beijing King Helong”) in the Chinese business registry, and also registered as a director of Hong Kong King Helong Int’l Trading Ltd.<sup>161</sup> in the Hong Kong, China, company registry (see figure 38 and annex 14-18).<sup>162</sup> The Chinese characters of King Helong “金海龙” phonetically translate into “Ku’mhaeryong” in Korean, and Ku’mhaeryong Company Ltd.<sup>163</sup> is listed as an alias of Green Pine in the Committee’s sanctions list.

177. Several Chinese commercial online sources advertise Hong Kong King Helong and Dandong King Helong International Trading Co., Ltd as subsidiaries of Beijing King Helong (see annex 14-19). Beijing King Helong has at least three front companies based in Hong Kong, China,<sup>164</sup> and shareholders of Beijing King Helong, Yang Jianmin (杨坚民) and Yang Ning (杨宁), are registered as directors of the companies (see annex 14-20).

178. According to the Chinese business registry, Mr. Choe has operated another entity of the Democratic People’s Republic of Korea named “Beijing representative office of Korea Unhasu Trading Company”.<sup>165</sup> The Panel noted that the offices of King Helong, Korea Unhasu and Green Pine in Beijing were all located in the same building and, in the case of the latter two, on the same floor before Green Pine was dissolved (see fig. 38) (see annex 14-21).<sup>166</sup>

Figure 38

### Entities and individuals related to Mr. Choe and King Helong

<sup>158</sup> In Korean: 최광혁, in Chinese: 崔光赫.

<sup>159</sup> In Korean: 박원일, in Chinese: 朴元日, S/2015/131, paras 183-184.

<sup>160</sup> In Chinese: 北京金光海龙国际贸易有限公司.

<sup>161</sup> In Chinese: 香港金海龙国际贸易有限公司.

<sup>162</sup> Mr. Choe was previously listed as a director of a revoked entity named the Beijing branch of Hong Kong King Helong Int’l Trading Limited (“香港金海龙国际贸易有限公司北京代表处”).

<sup>163</sup> In Korean: 금해룡 and 금해룡회사.

<sup>164</sup> King Helong Group (Hong Kong) International Trading Co., Limited; H&Y Global Industry Ltd.; and Austen International Trading Co., Limited.

<sup>165</sup> In Chinese: 朝鲜银河水贸易会社北京代表处.

<sup>166</sup> China investigated and stated that the relationship between these entities and Green Pine was unknown.

*Korea Unsong Trading Corporation*

179. Another former legal representative of Green Pine, Mr. Pak Won Il,<sup>167</sup> is listed as chief representative of the “Beijing Branch of Korea Unsong Trading Corporation Limited”<sup>168</sup> (see annex 14-22). The Chinese business registry shows that Korea Unsong, established on 10 January 2014, is still active, with an address next to the embassy of the Democratic People’s Republic of Korea in Beijing.<sup>169</sup>

180. Korea Unsong established an office in Shenyang on 19 October 2016. Mr. Lim Young Hwan<sup>170</sup> and Mr. Kim Young Hwan<sup>171</sup> are directors of the Beijing and Shenyang offices (see annex 14-23). According to commercial online sources, Korea Unsong exports prohibited minerals, including ferrous and non-ferrous metals.

*Saeng Pil Trading Corporation*

181. Saeingpi’l company was identified as an alias of Green Pine by the Committee in May 2012. The Panel confirms that Saeng Pil Trading Corporation is also an alias of Saeingpi’l company and Green Pine. A Saeng Pil Trading Corporation brochure lists the same address, telephone and fax number as those given in a letter issued by the President of Green Pine (see annex 14-24). The company specializes in the construction of naval vessels and the design, fabrication and installation of electronic communication and marine navigation equipment, which is consistent with the description of Green Pine in the Committee’s sanctions list.

182. A diplomatic note indicates that Saeng Pil Trading Corporation has been active in Cairo (see annex 14-25). Mr. An Jong Hyuk (Hyok) was authorized on 18 December 2013 to conduct all types of business on behalf of the Corporation. His activities include signing and implementing contracts and banking business. When he was appointed as the representative of the Corporation, Mr. An was serving as a diplomat of the Democratic People’s Republic of Korea in Egypt.

**183. The Panel recommends the Committee update its sanctions list by adding the following information as an a.k.a. to KPe.010 (Green Pine):**

A.k.a.: Saeng Pil Trading Corporation

**5. Korea Daesong General Trading Corporation**

184. The Security Council designated Korea Daesong General Trading Corporation on 30 November 2016 for its affiliation with Office 39. While the Qingdao branch of the Corporation remains active as a registered company, with Mr. Kim Yong Sok as a representative, the Panel notes that the designation was only two months prior to the time of writing.<sup>172</sup> The Corporation also has branches in Shenyang, Yanji and Dandong, according to several commercial online sources (see annex 14-26). The Committee’s sanctions list indicates that the Corporation exports minerals and metals, including gold.

**6. Korea United Development Bank**

185. The Security Council designated Korea United Development Bank on 30 November 2016. Information shows that Mr. Choe Un Hyuk, as a representative,

<sup>167</sup> In Korean: 박원일, in Chinese: 朴元日.

<sup>168</sup> In Chinese: 朝鲜银星贸易会社北京代表处.

<sup>169</sup> China investigated and stated that the relationship with Green Pine was unknown.

<sup>170</sup> In Korean: 림영환, in Chinese: (林永焕).

<sup>171</sup> In Korean: 김영환, in Chinese: (金永焕).

<sup>172</sup> In Chinese: 朝鲜大圣贸易总商社青岛代表处.

appears to operate the Bank in Moscow through the embassy of the Democratic People's Republic of Korea (see annex 14-27). The Panel continues to investigate Mr. Choe's status and his relationship with the Bank.

## 7. Korea Heungjin Trading Company

186. On 2 May 2012, the Committee designated Korea Heungjin Trading Company.<sup>173</sup> The sanctions list noted that the Company had been associated with KOMID<sup>174</sup> and, specifically, the procurement office of KOMID.

187. The Panel has noted that an office of Korea Heungjin<sup>175</sup> was registered in Dandong,<sup>176</sup> according to commercial online sources, with its director listed as Mr. Choe Chan Il<sup>177</sup> (see annex 14-28).

188. Commercial websites show that an individual with the same name was listed as a director of "Dalian Office of Korea Mining Development General Corporation" (朝鲜矿业开发总公司大连代表处), which a Chinese local newspaper publicly announced in June 2005 (see annex 14-29). The Panel has noted that this name is very similar to that of KOMID (朝鲜矿业开发贸易公司), with a slight difference through the inclusion of "trading (贸易)". The Panel previously reported that designated entities exploited alternative ways to transliterate Korean names.<sup>178</sup> The connection of the Korea Heungjin Trading Company with KOMID through its director, Mr. Choe, is also consistent with the description on the Korea Heungjin Trading Company and KOMID in the Committee's sanctions list.

189. The Panel also noted that the same name, Mr. Choe Chan Il (崔灿日), was listed as a first secretary of the embassy of the Democratic People's Republic of Korea in Beijing on 25 September 2012 (see annex 14-30), and further noted the country's widespread exploitation of diplomatic status as a cover for designated entity representatives. The uncommon name and exact match of Chinese characters show that the directors of both entities and a listed diplomat could be the same person. The Panel continues to investigate the diplomat's involvement in prohibited activities.

## 8. Korea Kwangson Banking Corporation

*Dandong Hongxiang Industrial Development Co. Ltd.*

190. On 2 March 2016, the Security Council designated an entity named Korea Kwangson Banking Corporation for providing financial services in support of other designated entities.

191. The Korea Kwangson Banking Corporation has been listed as one of two major shareholders of a Chinese company named Dandong Hongxiang Industrial Logistics Co., Ltd.,<sup>179</sup> the registration of which was recently revoked (see annex 14-31). Its affiliated company, Dandong Hongxiang Industrial Development Co. Ltd. (Dandong Hongxiang) was designated by multiple Member States for acting for or on behalf of the Korea Kwangson Banking Corporation (KKBC).<sup>180</sup> According to the Department of the Treasury of the United States, "Dandong Hongxiang used an

<sup>173</sup> In Chinese: 朝鲜兴进贸易公司/会社.

<sup>174</sup> In Chinese: 朝鲜矿业发展贸易公司 or 朝鲜矿业开发贸易公司.

<sup>175</sup> In Chinese: 朝鲜兴进贸易会社丹东代表处.

<sup>176</sup> China investigated and stated that the Korea Heungjin licence was revoked in 2006, and the Dandong licence revoked on 10 April 2015.

<sup>177</sup> In Korean: 최찬일, in Chinese: 崔灿日.

<sup>178</sup> See S/2016/157, para. 181.

<sup>179</sup> In Chinese: 丹东鸿祥实业物流有限公司.

<sup>180</sup> The United States of America, Japan and the Republic of Korea.

illicit network of front companies, financial facilitators, and trade representatives to facilitate transactions on behalf of KKBC”.<sup>181</sup> The United States District Court for the District of New Jersey document also shows that the Corporation guaranteed or financed Dandong Hongxiang sales transactions through its ledger arrangement from December 2009 until at least September 2015 (see annex 14-32).

192. According to commercial online sources, the Korea Kwangson Banking Corporation had a branch office in Dandong, with Lee Gwangju<sup>182</sup> as a representative, and remained active until July 2016 (see annex 14-33). Address listings for the Corporation in Dandong on commercial websites are consistent with the address of the Corporation provided in the United States court document.

#### *Joint Venture with Dandong Hongxiang*

193. The Chinese business registry shows that several entities of the Democratic People’s Republic of Korea established joint venture companies with Dandong Hongxiang. These include Korea Kwangson Banking Corporation and Korea National Insurance Corporation, which have been designated by multiple Member States. Korea Taeyang (or Daeyang) Corporation<sup>183</sup> had also been listed as a partner of Dandong Hongxiang for several joint ventures until it was replaced in 2015 by Korea Pyongyang Economic Exchange Company. The document shows that Korea Taeyang is controlled by the “Directors Committee” of the Korea Worker’s Party.<sup>184</sup> According to its official website, it owns several mines and conducts joint ventures to extract minerals, including molybdenum. It exports metallic and non-metallic minerals through its subsidiary, Korea Taeyang Trading Company.

### **9. Korea Ryonha Machinery Joint Venture Corporation**

194. On 10 August 2016, State media reported Kim Jong Un’s field guidance at the January 18 General Machinery Factory, where many computer numerically controlled (CNC) machines of Ryonha Machinery have been displayed.<sup>185</sup> This was his second visit to the factory following the 2013 visit when he ordered the remodel and upgrade of the factory with computer numerically controlled machine tools and robots. The factory is known for manufacture of military products, including missiles, and images show the production of engines with a computer numerically controlled machine (see figure 39).

<sup>181</sup> United States Department of the Treasury, “Treasury imposes sanctions on supporters of North Korea’s weapons of mass destruction proliferation”, 26 September 2016.

<sup>182</sup> In Korean: 이광주, in Chinese: 李光主.

<sup>183</sup> In Korean: 조선대양회사.

<sup>184</sup> “Route to the Democratic People’s Republic of Korea for European Companies”, Asia-Invest EuropeAid Cooperation Office (2006).

<sup>185</sup> See S/2016/157, para. 165.

Figure 39  
**Engine production with a computer numerically controlled machine at the  
 January 18 General Machinery Factory**

Source: KCNA.

195. Certain computer numerically controlled technology or machine tools are included in the nuclear and ballistic-missile prohibited items list.<sup>186</sup> Other computer numerically controlled machines and technology for the production of conventional arms dual-use items are also on the list of prohibited items under resolution [2321 \(2016\)](#).

196. The Panel noted that a Chinese company<sup>187</sup> had exported several computer numerically controlled machine tools to the country, and investigated the possible involvement of Ryonha Machinery Corporation. According to the company's website, a Democratic People's Republic of Korea company ordered computer numerically controlled machines and visited its workshop to inspect computer numerically controlled machine tools before purchasing them (see annex 14-34). The Panel also noted that company's computer numerically controlled machine tools for sale bore similarities to those of Ryonha Machinery in design (see annex 14-35). The Panel has not received a reply from the company.

## **B. Participation of designated entities in the Pyongyang International Trade Fair**

197. The Korea International Exhibition Corporation has facilitated trade and marketing for designated entities, through its hosting of the Pyongyang International Trade Fair since 2000.<sup>188</sup> The main purpose of the Corporation is to facilitate business opportunities for participants through networking and the exchange of participants' contact profiles and products for future projects of the Democratic People's Republic of Korea (see annex 14-36).

198. Designated entities have repeatedly participated in the trade fair, both before and after designation (see table 6 and annex 14-37). In addition, companies identified as aliases of designated entities, as well as entities unilaterally designated by Member States, have also participated (see annex 14-38).

<sup>186</sup> See [S/2013/337](#), paras. 59-65.

<sup>187</sup> In Chinese: 滕州市科永达数控机床有限公司.

<sup>188</sup> Held biannually since at least 2012.

Table 6  
**Participation of designated entities**

<i>Designated entities</i>	<i>Designation date</i>	<i>Pyongyang International Trade Fair date<sup>a</sup></i>
Ryonha (Ryonhwa) Machinery Corp.	22 Jan. 2013	15th, 16th, 17th Spring, and 8th, 9th Autumn
Hyoksin Trading Corp.	16 Jul. 2009	15th Spring and 9th Autumn
Natural Resources Development & Investment Co.	2 May 2012	18th Spring and 11th Autumn
Pugang Trading Corp.	30 Nov. 2016	15th Spring and 9th Autumn

Source: The Panel.

<sup>a</sup> The 15th, 16th, 17th, 18th Spring Fairs were held in 2012, 2013, 2014 and 2015, respectively, and the 8th, 9th, and 11th Autumn Fairs in 2012, 2013 and 2015.

### 1. Foreign recruitment and display of dual-use and prohibited items at the Pyongyang International Trade Fair

199. Foreign participants were previously recruited through embassy trade representatives, but since at least 2014 this role has been played by regional foreign partners. These partners are responsible for identifying, inviting and organizing the participation of foreign companies (see annex 14-39). The Panel notes that the foreign partner of the Korea International Exhibition Corporation in Taiwan Province of China, Royal Team Corporation, was previously investigated by the Panel.<sup>189</sup>

200. The brochure and images from the Pyongyang International Trade Fair show that both products and various types of technology have been exhibited, along with images of proliferation-sensitive technologies. During the 2013 spring fair, Ryonha Machinery Corporation displayed computer numerically controlled machinery at centrally located booths (see figure 40). Booth posters at the 2016 spring fair also featured such machines. According to state media and other open sources, there was high foreign customer demand for computer numerically controlled machine and related technologies (see annex 14-40).

Figure 40

#### Computer numerically controlled machinery at the 2013 spring Pyongyang International Trade Fair

Source: KCTV and KCNA.

201. At the 2016 spring trade fair, a Romanian company displayed and demonstrated “high vacuum furnaces” and an “electron beam welding system”. According to the company’s website, these high-end technologies, combined with other exhibited equipment, possess nuclear engineering and air and space

<sup>189</sup> See S/2016/157, paras. 182-186.

technology applications (see annex 14-41). The Panel notes that more sophisticated vacuum furnaces and power welding equipment are on the list of prohibited nuclear-related items (see annex 14-42).

202. A former trade fair participant informed the Panel that entities of the Democratic People's Republic of Korea had approached its display booth, offering a joint venture, including in jewellery processing and an alluvial gold project, requesting the supply of gemstones for processing (see annex 14-43). Under resolution 2094 (2013), jewellery is a luxury good. This case shows that the trade fair is a platform for marketing and acquisition of prohibited items and technologies to both designated entities and participating foreign trading companies.

## 2. Participation of local trading companies handling prohibited minerals

203. Trade fair brochures have also shown local trading companies that export prohibited minerals, including gold, silver, vanadium, titanium, zinc, anthracite and iron ore (see table 7). The brochure indicates that these minerals are marketed and traded at the fair, demonstrating that the fair has also been used as a venue for trade in minerals listed in the resolutions (annex 14-44).

Table 7

### Mineral-trading companies of the Democratic People's Republic of Korea that have participated in the Pyongyang International Trade Fair

<i>Trading companies</i>	<i>Minerals</i>	<i>Fair date</i>
Kwangmyong Joint Venture Co.	Non-metallic minerals	16th and 17th spring fairs, and 9th and 11th autumn fairs
Suhaeng J.V. Co.	Gold, molybdenum and anthracite	16th spring fair
Yonghung Trading Co.	Gold concentrate	15th, 16th and 18th spring fairs, and 8th and 11th autumn fairs
Kumsan Trading Co.	Vanadium and molybdenum ore	16th spring fair
Korea Ferrous Metals Export & Import Co. <sup>a</sup>	Iron ore and steel	16th spring fair, and 8th and 9th autumn fairs

*Source:* Korea International Exhibition Corporation brochure and Naenara.

<sup>a</sup> Manufacturer of nuclear-related items. See S/2016/157, para. 60.

204. **The Panel recommends that the Committee designate Korea International Exhibition Corporation for having assisted designated entities in the evasion of sanctions through the Pyongyang International Trade Fair and providing a platform to transfer, sell or supply prohibited items to or from the country.**

205. **The Panel recommends that Member States exercise enhanced vigilance over their companies participating in the Pyongyang International Trade Fair and alert them that any form of engagement with designated entities or those undertaking prohibited activities is a violation of the resolutions.**

### C. Travel of individuals reportedly linked to designated entities

206. The Panel continues to investigate the travel activities of designated individuals and individuals designated by Member States, as depicted in table 8 for 2012-2016. The Panel notes that certain individuals are required to be expelled under paragraphs 14 and 15 of resolution [2270 \(2016\)](#) and paragraph 33 of resolution [2321 \(2016\)](#).<sup>190</sup>

Table 8  
Travel of reported KOMID officials

<i>Name</i>	<i>Date of birth</i>	<i>Passport number</i>	<i>Country of residence/title</i>	<i>Countries visited</i>	<i>Countries transited</i>	<i>Countries where tickets purchased</i>
Mr. Jo Yong Chol	30 Sept. 1973	745110086	Syrian Arab Republic		China, Lebanon, Singapore and United Arab Emirates	
Mr. Kang Ryong	21 Aug. 1968	472410192	Syrian Arab Republic	Egypt, <sup>a</sup> Namibia and Uganda	China, Lebanon, Singapore and United Arab Emirates	
Mr. Kim Song Chol	26 Mar. 1968	381420565	Egypt <sup>b</sup>	Syrian Arab Republic	China and United Arab Emirates	Syrian Arab Republic
Mr. Ri Jong Chol	12 Apr. 1970	654220197	Democratic People's Republic of Korea/Chief of KOMID 1st office <sup>c</sup>	Islamic Republic of Iran, Namibia and Uganda	China, Malaysia and United Arab Emirates	China and Namibia
Mr. Ri Won Ho	17 Jul. 1964	381310014	Syrian Arab Republic	Egypt and Oman	Lebanon	Egypt
Mr. Ryu Jin	7 Aug. 1965	563410081	Syrian Arab Republic	Uganda	China, Lebanon and United Arab Emirates	China and United Arab Emirates
Mr. Kang Myong Chol	18 Nov. 1954	563210074	Democratic People's Republic of Korea, Chairman of KOMID <sup>d</sup>	Islamic Republic of Iran, Uganda and Vietnam	China, Malaysia and United Arab Emirates	China and Malaysia

<sup>190</sup> The Panel investigated the travel of these individuals for the period 2012-2016. A number of these individuals were subsequently designated under resolutions [2270 \(2016\)](#) and [2321 \(2016\)](#).

<i>Name</i>	<i>Date of birth</i>	<i>Passport number</i>	<i>Country of residence/title</i>	<i>Countries visited</i>	<i>Countries transited</i>	<i>Countries where tickets purchased</i>
Mr. Jang Yong Son	20 Feb. 1957	563110024	Islamic Republic of Iran <sup>e</sup>	United Arab Emirates	China and United Arab Emirates	China, Islamic Republic of Iran and United Arab Emirates
Mr. Kim Yong Chol	18 Feb. 1962	472310168	Islamic Republic of Iran <sup>f</sup>	Myanmar and United Arab Emirates	China, Singapore and United Arab Emirates	China and Islamic Republic of Iran
Mr. Hwang Su Man	6 Apr. 1955	472220033	Egypt		China and United Arab Emirates	Egypt

<sup>a</sup> Egypt informed the Panel that it had undertaken several measures, including accurately monitoring all activities by citizens of the Democratic People's Republic in Egypt (visitors and residents), which recently had led to the departure of many citizens of the Democratic People's Republic of Korea.

<sup>b</sup> The United States stated that Mr. Kim Song Chol was a KOMID official "located in Egypt" who has "conducted business in Sudan on behalf of KOMID's interests" (Department of the Treasury, 3 March 2016). Resolution 2321 (2016) designating Mr. Kim Song Chol does not name Egypt, stating that "Mr. Kim Song Chol is a KOMID official that has conducted business in Sudan on behalf of KOMID's interests".

<sup>c</sup> According to United States designation.

<sup>d</sup> According to Republic of Korea designation.

<sup>e</sup> Following the adoption of resolution 2270 (2016), the Panel was informed that Mr. Jang had departed the Islamic Republic of Iran.

<sup>f</sup> Following the adoption of resolution 2270 (2016), the Panel was informed Mr. Kim had departed the Islamic Republic of Iran.

<i>Name</i>	<i>Date of birth</i>	<i>Passport number</i>	<i>Country of residence/title</i>	<i>Countries visited</i>	<i>Countries transited</i>	<i>Countries where tickets purchased</i>
Ms. Kim Su Gyong <sup>a</sup>	16 Jan. 1973	745120374			Russian Federation <sup>b</sup> and United Arab Emirates	United Arab Emirates

<sup>a</sup> Ms. Kim was identified by a Member State as working for the RGB.

<sup>b</sup> The Russian Federation informed the Panel that unilateral sanctions were “not an argument for suspicion of unlawful activities on Russian territory”.

### **Representatives of Green Pine Associated Corporation in Angola**

207. The Panel travelled to Angola in September 2016 to investigate diplomats of the Democratic People’s Republic of Korea working as representatives of Green Pine. Angola had previously provided evidence that Mr. Kim Hyok Chan, a diplomat and representative of Green Pine (see figure 41), had negotiated contracts, sourced spare parts and overseen the refurbishment of Angolan navy patrol boats.

208. The Panel discussed with the Angolan authorities Mr. Kim’s travel to third countries for prohibited activities, further recommending in writing that he be expelled pursuant to paragraph 13 of resolution [2270 \(2016\)](#). The Panel raised with Angola the case of a second diplomat, Mr. Jon Chol Young (passport number 563410192), another Green Pine representative who had travelled abroad with Mr. Kim for related business (see para. 103). The President of Green Pine, Mr. Ri Hak Chol, also travelled to Angola between 22 and 27 January 2014. The Panel has yet to receive replies to its enquiries regarding these individuals.

Figure 41

**Mr. Kim Hyok Chan's signature on Green Pine contracts for patrol boat refurbishment**

**209. The Panel recommends that the Committee designate Mr. Kim Hyok Chan as a Green Pine representative.**

Name: Mr. Kim Hyok Chan  
 Title: Secretary, Democratic People's Republic of Korea embassy, Luanda  
 Nationality: Democratic People's Republic of Korea  
 Passport No.: 563410191  
 Date of birth: 9 June 1970

## VIII. Finance

210. Despite expanded financial sanctions adopted by the Security Council in resolutions [2270 \(2016\)](#) and [2321 \(2016\)](#), the Democratic People's Republic of Korea has continued to access the international financial system to support its activities.<sup>191</sup> Financial networks of the Democratic People's Republic of Korea have adapted to these sanctions, using evasive methods to maintain access to formal banking channels and bulk cash transfers to facilitate prohibited activities. At the time of writing, Democratic People's Republic of Korea circumvention techniques and inadequate compliance by Member States are combining to significantly negate the impact of the resolutions.

211. The Panel has identified multiple ways in which the financial institutions and networks of the Democratic People's Republic of Korea access the international banking system to engage in activities in violation and/or evasion of the provisions of the resolutions:

- Banks of the Democratic People's Republic of Korea, including designated banks, hold correspondent or payable-through accounts with foreign banks
- Banks of the Democratic People's Republic of Korea form joint ventures with foreign companies
- Foreign companies establish banks inside the Democratic People's Republic of Korea
- Banks of the Democratic People's Republic of Korea, including designated banks, maintain representative offices abroad

<sup>191</sup> During the period under review, no Member State(s) reported to the Committee actions taken in accordance with the asset freeze. Belarus reported on a bank that "had a client whose accounts fell under the scope of the resolution". While it stated that, pursuant to paragraph 32 of resolution [2270 \(2016\)](#), "this bank has prohibited outgoing transactions", it did not report on compliance with paragraph 8 (d) of resolution [1718 \(2006\)](#), requiring it to freeze assets that could be used for prohibited activities.

- Trading companies linked to the Democratic People's Republic of Korea, including designated entities, open bank accounts that perform the same financial services as banks (including by using banks where the companies maintain funds on deposit, to provide indirect correspondent bank account services)
- Diplomatic missions of the Democratic People's Republic of Korea provide financial support to that country's networks.<sup>192</sup>

212. In addition, the Democratic People's Republic of Korea also uses bulk cash and gold to entirely circumvent the formal financial sector.

213. The networks behind this activity consist of a core of agents who are highly experienced and well trained in mobilizing money, people and goods, including arms and related materiel, across borders. These agents use non-nationals of the Democratic People's Republic of Korea as facilitators with varying degrees of complicity, and rely on numerous front companies bearing no paper trail that leads to the Democratic People's Republic of Korea. The business conducted by some of these networks generates significant revenue for the Democratic People's Republic of Korea. Most of the financial activity investigated by the Panel was denominated in United States dollars, euros and renminbi.

214. Owing to the transnational nature of financial transactions, a single transaction may impose obligations on multiple Member States. Thus, one State may have to enforce the resolutions with respect to the activities of its nationals operating abroad, a second State may be obligated to enforce sanctions measures with regard to banks domiciled or operating within its jurisdiction and a third State may be obligated to enforce the expulsion or exclusion of agents of financial institutions of the Democratic People's Republic of Korea from its territory. Another State, such as the issuer of a convertible currency, may be required to use its regulatory jurisdiction to designate persons, or to block or prohibit financial transactions that are cleared by correspondent banks within its jurisdiction. Another State may be obligated to prohibit other financial services that facilitate transactions by designated persons. A key challenge to these obligations is that Member States need to have mechanisms for effective information exchange and coordination with strategic trade and export control, law enforcement and intelligence agencies. Although financial institutions can detect illicit financial flows through due diligence and investigations, intelligence shared by Governments remains a critical enabler of compliance with financial sector sanctions.

#### **A. Banks of the Democratic People's Republic of Korea holding correspondent or payable-through accounts with foreign banks**

215. The Panel found evidence that financial institutions in several Member States continue to provide both direct and indirect correspondent banking services to banks of the Democratic People's Republic of Korea, in violation of paragraph 33 of resolution 2270 (2016) and paragraph 31 of resolution 2321 (2016). The Panel notes that the Committee has received only two exemption requests pursuant to these provisions, from the Russian Federation. One request was for its account at the Foreign Trade Bank of the Democratic People's Republic of Korea for its

<sup>192</sup> The Panel views such arrangements as an evasion of the ban on correspondent accounts contained in paragraph 32 of resolution 2270 (2016). To the extent that designated persons, or persons associated with activities contrary to the resolutions, have an interest in these accounts, ownership or controlling interests in the persons or entities holding those accounts on deposit, the Panel also views them as evasion of resolution 1718 (2006), paragraph 8 (d); resolution 2094 (2013), paragraph 11; and resolution 2270 (2016), paragraph 32.

Pyongyang embassy and Chongjin consulate general, while the other was for an account for arrears on loans from the former Union of Soviet Socialist Republics.<sup>193</sup> Since 26 other countries also maintain diplomatic missions or offices in the Democratic People's Republic of Korea, those which still have bank accounts in the country are encouraged to request an exemption from the Committee.

216. The Panel obtained information showing that the International Bank of Martial Arts in Pyongyang (국제무도은행/国际武道银行, see annex 15-1) has served foreign clients with renminbi savings, loan, and transfer services; has undertaken transactions in China; and has issued guidelines in Chinese and English to foreign clients on how to transfer renminbi from China (see annex 15-2). Pursuant to resolution 2270 (2016), Member States were to have closed existing representative offices, subsidiaries or banking accounts in the Democratic People's Republic of Korea by 2 June 2016, and to report such actions in their national implementation reports.

## **B. Foreign companies or joint ventures establish banks in the Democratic People's Republic of Korea or provide financial services to that country**

217. The Panel investigated banks in the Democratic People's Republic of Korea established as subsidiaries or joint ventures of foreign companies to support bilateral trade and investment as possible violations of paragraph 13 of resolution 2094 (2013), paragraph 33 of resolution 2270 (2016) and paragraph 31 of resolution 2321 (2016).<sup>194</sup>

218. The International Consortium Bank in Pyongyang is a subsidiary of a Malaysia-Democratic People's Republic of Korea joint venture, the Malaysia-Korea Partners Group of Companies.<sup>195</sup> This Bank is situated within the Group's "Service Division". Licensed by the Central Bank of the Democratic People's Republic of Korea and registered with the Pyongyang Municipal People's Committee, the bank provides financial services, including deposit, loan, trade finance, contracting, remittances and financing of small and medium enterprises, for which it states: "Preference will be given to existing bank's customers who have been awarded contracts by government bodies" (see annex 15-3). The bank claims to "help(s) over 52 million people worldwide". The Panel has inquired with Malaysia and the Malaysia-Korea Partners Group of Companies and has yet to receive a reply.

<sup>193</sup> In May 2016, the central bank of the Russian Federation issued guidance on obtaining approval from the Committee regarding paragraphs 33 and 35 of resolution 2270 (2016) and, in December 2016, regarding paragraph 31 of resolution 2321 (2016).

<sup>194</sup> Financial institutions in the Democratic People's Republic of Korea with foreign partners benefit from correspondent banking relationships with financial institutions in the country of their joint-venture partner. Past cases have shown that foreign companies are used by networks and banks in the Democratic People's Republic of Korea to collect fees, hold money, strip information and forge documents. They also facilitate evasion through the layering and co-mingling funds involved in prohibited conduct with funds derived from licit activities.

<sup>195</sup> Established in 1964, Malaysia-Korea Partners Group of Companies lists as one of its main activities overseas construction, including of statues, in Africa. The company's promotional video states that its "formula for success is a powerful mix of Malaysian products and Korean labour and technology". One of the company's construction projects is the renovation of the embassy of the Democratic People's Republic of Korea in Nigeria. The company's Service Division includes a financial leasing company based in Zambia, Commercial Capital Corporation Ltd., which provides lease finance and manages a remittance business, which the Panel is investigating for possible connections with the Democratic People's Republic of Korea.

219. A bank of the Democratic People's Republic of Korea named Chinese Commercial Bank (中华商业银行) in Rason was established on 18 January 2013 by China Gold Trade Exchange (Dalian) Co., Ltd. (金贸易货交易(大连)有限公司, annex 15-4). A Chinese official gave a speech at the ribbon-cutting ceremony, in which he emphasized the financial support to trade with the Democratic People's Republic of Korea to be provided by the bank (annex 15-5). If ongoing, such support would violate paragraph 36 of resolution 2270 (2016) and paragraph 32 of resolution 2321 (2016).<sup>196</sup> The Director of China Gold Trade Exchange (also director of its Dandong branch) simultaneously served as Chair of the bank's board, demonstrating joint management by the bank in the Democratic People's Republic of Korea and a foreign company.<sup>197</sup> On 23 August 2013, when Junling Holdings (君领控股) acquired a 60 per cent stake in Chinese Commercial Bank, the company praised the agreement as a milestone for Chinese private capital entering the overseas financial industry which would play an active role in promoting bilateral economic and trade cooperation (see annex 15-6).

220. Kumgyo International Commercial Bank is a bank in the Democratic People's Republic of Korea run jointly with the China Inner Mongolia Horizon (Hong Yuan) International Trade Corporation, Ltd. (中国内蒙古泓元国际贸易有限责任公司) and affiliated with Korea Chongsong Mining Company (see annex 15-7). Kumgyo Bank states that it "conducts brisk business transactions with foreign investors and companies", including "counterparts at home as well as in the Russian Federation, China and other countries". The China Inner Mongolia Horizon International Trade Corporation is registered with the Ministry of Commerce of China as a joint venture which is 49 per cent owned by a company of the Russian Federation, 俄罗斯联邦图瓦共和国《蒙戈列克》有限责任公司<sup>198</sup> (phonetic translation: "Menggelyk" LLC, Tuva Republic, Russian Federation, see annex 15-8). The venture engages in the import of various items from the Democratic People's Republic of Korea, including pearls and magnesium, showing possible links between trade and finance as addressed by paragraph 32 of resolution 2321 (2016) (see annex 15-9). It recently participated in a 2016 e-banking conference in Hohhot (see annex 15-10). The Panel sent letters to China and the Russian Federation, the latter when it could not locate the registration of the company in the Russian Federation.<sup>199</sup> The Russian Federation replied that: "The letter fails to mention a single designated entity. Consequently, we do not see grounds to carry out investigation on the matter." The Panel's investigation continues.

221. A Hong Kong, China, company, Unaforte (香港旺福特有限公司), with a Yanbian branch (延边旺福特) established the First Eastern Bank (东大银行) in Rason in 2014 as a subordinate enterprise to provide financial support and loans to Chinese investors in mining and real estate projects in Rason (see annex 15-11). The bank is licensed by the Central Bank of the Democratic People's Republic of Korea (see annex 15-12) and provides loans to Chinese individuals and companies in the Rason area. In its promotional materials, Unaforte claims: "The [First Eastern] Bank is fully independent and does not require proof of identity. It is not subject to the jurisdiction of China or [the] Democratic People's Republic of Korea and is not required to report to the Chinese government or the Democratic People's Republic

<sup>196</sup> These provisions require Member States to prohibit public and private financial support from within their territories or by persons or entities subject to their jurisdiction for trade with the Democratic People's Republic of Korea, except as approved in advance by the Committee.

<sup>197</sup> The company's Hunchun branch is registered with the Yanbian Trade and Industry Bureau.

<sup>198</sup> The Panel has obtained the name of the Russian Federation company only in Chinese because it was registered in the Chinese business registry and the Russian Federation declined to investigate the company for the reason stated above.

<sup>199</sup> Unified State Register of Legal Entities of the Russian Federation.

of Korea government!” (see annex 15-13). The Panel notes that foreign nationals holding accounts in banks of the Democratic People’s Republic of Korea would be a violation under resolution 2321 (2016).

222. The Panel wrote to China on all the above cases and continues its investigation.

### C. Designated banks maintain representative offices and agents abroad

223. Several banks of the Democratic People’s Republic of Korea continued to operate abroad subsequent to designation by setting up representative offices as corporate entities rather than as financial institutions. The Panel emphasizes that the expulsion and asset-freeze provisions of the resolutions also apply to persons and entities acting “on behalf of or at the direction of” designated entities.<sup>200</sup> The Panel further notes that, under paragraph 33 of resolution 2321 (2016), Member States are required to expel any individual determined to be working on behalf of or at the direction of a bank of the Democratic People’s Republic of Korea.<sup>201</sup>

224. Korea Kwangson Banking Corporation (KKBC) has operated a branch from Dandong and used the company Dandong Hongxiang to undertake financial transactions in United States dollars on its behalf through multiple front companies established in the British Virgin Islands, Seychelles and Hong Kong, China (see para. 191).<sup>202</sup> This case, along with Chinpo Shipping Singapore<sup>203</sup> and others below, illustrates the pattern of entities of the Democratic People’s Republic of Korea using foreign companies to undertake financial services while evading regulations governing financial institutions. The Panel believes that companies that perform financial services commensurate with those provided by banks should be considered to be financial institutions for the purposes of the resolutions.

225. The Panel has obtained information showing that two designated banks, Daedong Credit Bank (DCB) and Korea Daesong Bank (KDB), are both operating on Chinese territory, through representative offices in Dalian, Dandong and Shenyang. The Dalian-based representative since 2006 has been Mr. Kim Chol-sam, designated in resolution 2321 (2016).<sup>204</sup> To secure a work permit and residence status, he established a company, Dalian Daxin Electronics (大连大信 电子有限公司), as a “foreign natural person” on 8 August 2006, using a Chinese name, 金铁三 (see annex 15-14).

226. Mr. Kim also served as a director of a designated company, DCB Finance Ltd., registered in the British Virgin Islands on 27 June 2006 (see annex 15-15). DCB Finance shared several officers with DCB and the same address as four of the front companies used by Dandong Hongxiang to process transactions on behalf of KKBC.<sup>205</sup> When the DCB correspondent accounts were closed in 2005, DCB

<sup>200</sup> See resolution 2321 (2016), para. 33.

<sup>201</sup> Unless the presence of the individual is required for the fulfilment of a judicial process or exclusively for medical, safety or other humanitarian purposes, or the Committee has determined otherwise.

<sup>202</sup> Case number 16-mj-06602, District of New Jersey, filed 3 August 2016.

<sup>203</sup> See S/2016/157, paras. 190-192.

<sup>204</sup> Before moving to China, Mr. Kim had worked as Treasurer of DCB, assigned by KDB, which is the DCB joint venture partner and 30 per cent owner. A Member State confirmed that Mr. Kim had served as Treasurer.

<sup>205</sup> Success Target Group, Ltd., Best Famous Ltd., Fully Max Trading Ltd. and Sheen Fair Trading Ltd. See paragraphs 13 to 18 of the verified complaint for forfeiture in rem, *United States of America v. All Funds in the Accounts of Blue Sea Business Co., Ltd., et al.*, 16-vo-1954 (District of New Jersey, filed 26 September 2016).

Finance was set up to undertake wire transfers and business transactions on its behalf.<sup>206</sup>

227. As the representative in Dalian of DCB and DCB Finance, Mr. Kim undertook transactions worth millions of United States dollars, including several of \$1 million or more. He also facilitated payments and loans between companies linked to DCB and exchanged large quantities of bulk cash transferred to China from the Democratic People's Republic of Korea into newer and larger denomination United States dollar notes.<sup>207</sup> He also regularly undertook foreign exchange between United States dollars and euros and transferred balances between DCB and its shareholder, Korea Daesong Bank. When DCB established representative offices in Shenyang in late 2012, and Dandong in 2014, the three offices cooperated in managing the activities of foreign exchange, transfer, bulk cash exchange and loans. The Panel also obtained information indicating that Ryugyong Commercial Bank (柳商银行, 柳京商业银行) has been operating as another representative of DCB from Beijing.<sup>208</sup> DCB has processed transactions for designated entities and for a company of the Democratic People's Republic of Korea selling arms and related materials (see paras. 232-241).

228. Mr. Kim established other companies, including Hongdae International Ltd. (see annex 15-16), a company that he registered in Hong Kong, China, using fraudulent personal information to pose as a citizen of the Republic of Korea.<sup>209</sup> He also paid the Beijing office of a company from Hong Kong, China, to help to set up several other companies in Hong Kong, China, including Pan Ocean Investments Ltd. and Win Talent International Ltd. Lastly, the last-known sale of the 60 per cent foreign share of DCB was to a Chinese company on 14 July 2011, meaning that it is possible that a designated bank of the Democratic People's Republic of Korea remains majority Chinese-owned.

229. DCB thus effectively accesses the international financial system through a network of offshore accounts and representative offices in China. This case shows how representatives of banks of the Democratic People's Republic of Korea manage to operate abroad through the establishment of front companies that are not registered as financial institutions but function as such.

230. In compliance with the financial provisions of the resolutions, Member States are obligated to expel Mr. Kim Chol-sam, and to freeze all property, assets and other economic resources owned or controlled by him, DCB, DCB Finance, Korea Daesong Bank, Hongdae International Ltd., and any other of his companies in its territory acting on their behalf or at their direction.

*Alias of designated bank*

231. Acting under paragraph 18 of resolution [2270 \(2016\)](#), a Member State inspected a misrouted package in transit from the designated Bank of East Land in Pyongyang destined for a company in a third country. Along with a holiday gift traditionally sent by banks to business partners, the package contained a greeting

<sup>206</sup> Mr. Kim has held at least eight accounts in Chinese banks in United States dollars, euros, yen and Hong Kong dollars in his name and the name of front companies.

<sup>207</sup> The Democratic People's Republic of Korea has an abundance of low denomination and highly worn or damaged United States dollar notes.

<sup>208</sup> Ryugyong Commercial Bank maintained several accounts in Chinese banks and undertook numerous cash transfers to accounts in China controlled by DCB representative offices.

<sup>209</sup> Mr. Kim listed a false residential address in Seoul, recording his country of residence as "Korea", which he re-entered next to his Democratic People's Republic of Korea passport number.

card from the President of “Haedong Bank”, Mr. Pak Yong Hwa (see figure 42). The Panel is investigating whether Haedong Bank is an alias for the Bank of East Land.

Figure 42

**Bank of East Land airway bill (left) and Haedong Bank card (right)**

Source: Member State.

#### **D. Financial operations of Glocom/Pan Systems Pyongyang**

232. Following an interdiction of arms and related materiel pertaining to the Democratic People’s Republic of Korea (see paras. 72-87), the Panel investigated the network’s financial operations.

233. In its banking operations, Pan Systems Pyongyang and its front companies used an extensive network of individuals, companies and offshore bank accounts to procure and market arms and related materiel. The global network consisted of individuals, companies and bank accounts in China, Indonesia, Malaysia, Singapore and the Middle East.<sup>210</sup> Pan Systems Pyongyang used the name of its foreign investment partner (Pan Systems Singapore) not only to obscure its activities, but also to gain access to foreign currency accounts in the Democratic People’s Republic of Korea, which otherwise would not be available to local companies under domestic banking rules. Specifically, the director of Pan Systems Pyongyang, Ms. Ryang Su Nyo, established accounts at DCB in the names of both Pan Systems and its front company, International Global Systems, both of which she used to move money in and out of the country.

234. Since 1998, Pan Systems Pyongyang and International Global Systems have used accounts in United States dollars and euros at DCB to gain access to the international financial system, including through bank accounts in China, as described above. These accounts were used to transfer funds to a supply chain of more than 20 companies located primarily on the Chinese mainland; in Hong Kong, China; and in Singapore. In recent years, procurement shifted almost entirely to companies in China and Hong Kong, China.<sup>211</sup> Most of these companies supplied electronic products, radio components and casings consistent with Glocom’s advertised military communications equipment, while others were transport companies. The network also made regular transfers to various facilitators with Chinese, Korean, foreign and code names working in China, Indonesia, Malaysia and the Middle East.

<sup>210</sup> In particular, €36,939 was transferred to International Global Systems in 2008 from an account at the Damascus branch of a Middle Eastern bank.

<sup>211</sup> According to information obtained by the Panel, procurement shifted to companies on the Chinese mainland and in Hong Kong, China, owing to lower prices, stringent Singaporean regulations and more direct logistics.

235. Bank records show that payments to suppliers were made by International Golden Services and multiple other front companies to accounts at banks in Singapore, on the Chinese mainland and in Hong Kong, China. The Panel obtained evidence of a series of transactions by Glocom initiated by companies registered in Hong Kong, China, and cleared through several United States correspondent banks in New York.

236. In terms of incoming transfers, Pan Systems Pyongyang received large remittances from an account at a major bank in Malaysia, as well as from numerous companies of the Democratic People's Republic of Korea, including Hungbal Trading Co., Kumbong Trading Co. and Mubong Trading Co., the activities of which are being investigated by the Panel. Transfers were also made from the Shenyang consulate of the Democratic People's Republic of Korea, which the Panel continues to investigate. Pan Systems Pyongyang also regularly used bulk cash transfers.

237. In addition, Pan Systems Pyongyang received funds from two designated entities, KOMID and Hyoksin Trading Corporation. Between 2011 and 2013, Hyoksin made multiple euro-denominated transfers to Pan Systems Pyongyang, as did KOMID between 2011 and 2015. Given the links of Pan Systems Pyongyang to RGB, this further demonstrates how designated entities' networks are interconnected.<sup>212</sup>

238. Ms. Ryang Su Nyo made frequent cash deposits into the accounts of both Pan Systems Pyongyang and International Global Systems in both United States dollars and euros.<sup>213</sup> Pan Systems Pyongyang also used Malaysia as a platform for the purpose of repatriating cash. The Panel previously reported on the arrest, on 17 February 2014, of three nationals of the Democratic People's Republic of Korea by the Malaysian police on suspicion of attempting to smuggle \$450,000 in cash out of Malaysia. The three nationals identified themselves as representatives of Pan Systems Pyongyang, including Ms. Ryang, who claimed that the funds belonged to the embassy of the Democratic People's Republic of Korea in Kuala Lumpur.<sup>214</sup>

239. Stronger sanctions have led networks of the Democratic People's Republic of Korea to employ greater ingenuity in using formal banking channels and bulk cash transfers to facilitate their illicit endeavours. At the same time, Member States that host nationals of the Democratic People's Republic of Korea, that control the movement of persons across their borders, that regulate banks and that regulate correspondent banks have not made a commensurate investment in their own capacity to enforce the strengthened sanctions. Consequently, agents of the Democratic People's Republic of Korea have been able to mask both their illicit activities and their links to the country.

240. There is a trend towards the use of agents who are not from the Democratic People's Republic of Korea and companies registered by facilitators, again not from the Democratic People's Republic of Korea, in various countries. The Panel's financial investigations have shown that, while this occurs in many parts of Asia, there is a trend towards greater use of front companies in Hong Kong, China, and other cities on the Chinese mainland that show no trace of the Democratic People's Republic of Korea in registration documents.

---

<sup>212</sup> In 2010 and 2013, Pan Systems Pyongyang made transfers in Hong Kong, China, to Greenpine International, a front company of Green Pine (see paras. 172-175).

<sup>213</sup> In 2015, the International Global Systems account was changed to International Golden Services.

<sup>214</sup> The Panel obtained information showing that, two days earlier, the three individuals had entered Singapore through Malaysia by car, implying that the cash may have been collected in Singapore.

241. This case also shows that companies and diplomatic missions of the Democratic People's Republic of Korea open accounts that, in effect, perform the services that a financial institution would. The Shenyang consulate was providing a supporting financial role, contrary to the prohibition in the Vienna Convention on Diplomatic Relations against commercial activities by consular facilities (see para. 17 of resolution [2321 \(2016\)](#)).<sup>215</sup>

## E. Bulk cash and gold

242. Bulk cash and gold are used by the Democratic People's Republic of Korea to transfer value by circumventing the formal financial sector entirely. The Panel investigated such smuggling in the evasion of sanctions, as proscribed in paragraph 11 of resolution [2094 \(2013\)](#), paragraph 37 of resolution [2270 \(2016\)](#) and paragraph 35 of resolution [2321 \(2016\)](#). In addition to the transit of bulk cash through DCB for processing and the use of bulk cash by Pan Systems Pyongyang, the Panel investigated three other cases.

243. On 6 March 2015, Bangladesh seized 26.7 kg of gold bars and jewellery (worth \$1.4 million) from the hand luggage of the First Secretary of the embassy of the Democratic People's Republic of Korea in Dhaka, Mr. Son Young-nam. The invoice had been issued by AMM Middle East General Trading in Dubai, United Arab Emirates, and the goods collected from Singapore. Mr. Son had flown into and out of Singapore from Dhaka on the same day, leaving the airport for three hours. He had undertaken on average one such trip a month to Singapore over the previous 15 months from both Dhaka and Beijing (ranging from a few hours to two days on the ground), suggesting that he was serving as a regular diplomatic courier smuggling gold and other items in evasion of sanctions. He was accompanied by other diplomats of the Democratic People's Republic of Korea on some of the trips. This was the only case investigated by the Panel involving the smuggling of bulk cash or gold in which the Member State seized the contraband, as required under the resolutions.

244. On 17 March 2016 in Sri Lanka, an overseas worker of the Democratic People's Republic of Korea, Mr. Kim Song Chol, was arrested at the airport in Colombo carrying \$167,000 in cash, gold jewellery and watches. He was en route from Oman to Beijing and made no customs declaration. He was accompanied by five other individuals from the Democratic People's Republic of Korea who were working in Oman for a construction company of the Democratic People's Republic of Korea based in Dubai with a post office box address. He produced a list with 311 names of workers of the Democratic People's Republic of Korea whose families in Pyongyang he was to pay (with amounts varying from \$200 to \$1,500, with an average of around \$300 per family). In addition to reiterating its concern that bulk cash could be used to evade sanctions, in paragraph 34 of resolution [2321 \(2016\)](#) the Security Council expressed concern about the proceeds of overseas labour of the Democratic People's Republic of Korea being used in prohibited programmes.

245. The Panel investigated another case of bulk cash transported by workers of the Democratic People's Republic of Korea returning from Namibia after working there for Mansudae, which the Panel has recommended for designation (see para. 114).<sup>216</sup>

---

<sup>215</sup> The Panel found evidence that agents of the Democratic People's Republic of Korea have engaged in multiple deceptive financial practices, including creating accounts under family members' names, creating multiple accounts to compartmentalize transactions and frustrate the tracing of business activities and opening accounts in various countries to exploit international gaps in transaction reporting requirements.

<sup>216</sup> See [S/2016/157](#), paras. 101-106.

## F. Payments by designated banks for financial messaging services

246. The Panel investigated the provision of financial messaging services to designated banks of the Democratic People's Republic of Korea. The Society for Worldwide Interbank Financial Telecommunication (SWIFT) provides financial messaging services to seven such banks, three of which are designated: Bank of East Land, KKBC and Korea Daesong Bank. SWIFT stopped providing services to four designated banks when those banks themselves requested SWIFT to do so: Amroggang Development Banking Corporation, DCB, Tanchon Commercial Bank and Korea United Development Bank.

247. To become a SWIFT user, a bank must sign an "undertaking" outlining the terms and conditions governing the provision of financial messaging services. Several banks of the Democratic People's Republic of Korea have signed such agreements (see table 12).

Table 12

### Designated banks and SWIFT undertakings

<i>Designated bank</i>	<i>SWIFT code</i>	<i>Date of signature of "undertaking"</i>	<i>Date SWIFT access granted</i>	<i>Date of designation</i>	<i>Date of termination (resignation)</i>
Amroggang Development Bank	ADBKKPPYXXX	11 September 2006	28 October 2006	2 May 2012	1 September 2012
Bank of East Land <sup>a</sup>	BOELKPPY	27 May 2004	4 December 2004	22 January 2013	–
Korea Daesong Bank <sup>a</sup>	KDBKKPPY	9 April 2001	1 September 2001	30 November 2016	–
Korea Kwangson Banking Corp. <sup>a</sup>	KKBCKPPY	18 October 2001	2 March 2002	2 March 2016	–
Korea United Development Bank	KUDBKPPY	9 April 2001	1 September 2001	30 November 2016	3 December 2016

<sup>a</sup> Bank still in the SWIFT network.

248. In response to inquiries by the Panel, SWIFT confirmed to the Belgian authorities that it provided financial messaging services to designated banks of the Democratic People's Republic of Korea. As part of its procedure for doing so, SWIFT requests authorization from the Government to receive the moneys owed for the services. Upon receipt of such authorization, SWIFT receives payment for its services from the designated banks.<sup>217</sup> The payments are then entered in its books and recorded as revenue. The Belgian authorities have authorized SWIFT to receive the amounts set out in tables 13 and 14 from designated banks in exchange for the provision of financial messaging services, the provision of the SWIFT handbook, training in the use of the SWIFT network and maintenance costs.

<sup>217</sup> The payments are made into the SWIFT accounts in Belgium.

Table 13  
**Fees from designated banks invoiced and received by SWIFT since 22 January 2013**

<i>Designated bank</i>	<i>Year</i>	<i>Fees invoiced and received (euros)</i>	<i>Estimated amounts to be invoiced (euros)</i>
Bank of East Land (designated on 22 January 2013)	2013	6 456.68	5 685.94
	2014	5 517.18	5 587.96
	2015	5 603.76	6 497.08
	2016	5 447.88	– To be invoiced until December 2016: 8,616 (not yet approved)
Korea Kwangson Banking Corp. (designated on 2 March 2016)	2016	1 954.00	– To be invoiced until December 2016: 7,212 (not yet approved)

Table 14  
**Fees invoiced for SWIFT services for banks designated under resolution 2321 (2016)**

<i>Designated bank</i>	<i>Dates of service</i>	<i>Fees invoiced (euros)</i>
Korea Daesong Bank	30 November-31 December 2016	432.00
Korea United Development Bank	30 November-3 December 2016 <sup>a</sup>	219.30

Source: Belgium.

<sup>a</sup> Korea United Development Bank resigned from SWIFT on 3 December 2016.

249. Belgium informed the Panel that, “under national and European law, the receipt of fees from a designated bank can be authorized provided the provisions of Council Regulation (EC) 329/2007 are complied with” and that the authorizations related to amounts of less than €15,000. The Panel notes that, in the absence of a determination by the Committee that these payments fall under the exemptions in paragraphs 9 (a) and/or (b) of resolution 1718 (2006), the receipt of funds from a designated entity is a violation of the asset freeze pursuant to paragraph 8 (d) of resolution 1718 (2006) and paragraphs 8 and 11 of resolution 2094 (2013). The Panel also notes that, in addition to SWIFT fees, banks of the Democratic People’s Republic of Korea pay separate fees to a third-party “service bureau” located outside of European Union jurisdiction in order to connect to the SWIFT network, which would also be a violation of the asset freeze.<sup>218</sup>

#### *Financial Action Task Force*

250. The Panel continued to work closely with the Financial Action Task Force and engage in outreach with the corresponding regional bodies to promote and support the implementation of targeted financial sanctions. Mutual evaluations to date show many countries failing to implement the targeted financial sanctions on the Democratic People’s Republic of Korea. The Panel attended sessions discussing and adopting mutual evaluations on proliferation financing issues and reviewed draft legislation on proliferation finance for conformity with the resolutions.

**251. Given the continuing activities by designated banks and their representatives, the Panel recalls Member States’ obligation to freeze all assets controlled by them and those acting on their behalf, and to report such actions to the Committee and to share relevant information with the Panel.**

<sup>218</sup> Belgium further informed the Panel that, after the Service Bureau, the related messages were then routed either to a European Union or United States operation centre, depending on the zone to which the other sender or receiver was connected.

252. **In the light of the use by the Democratic People’s Republic of Korea of foreign companies to perform financial services, the Panel recommends that the Committee clarify that companies performing financial services commensurate with those provided by banks are considered to be financial institutions for the purposes of the resolutions.**

253. **The Panel recommends that, when Member States freeze bulk cash or gold smuggled by nationals of the Democratic People’s Republic of Korea, they immediately inform the Committee and ensure that they cannot be used for prohibited activities or evasion of sanctions before releasing them.**

254. **The Panel recommends that the Security Council extend the prohibition on establishing joint ventures with banks of the Democratic People’s Republic of Korea to include companies as well as financial institutions.**

255. **The Panel recommends that Member States strengthen information-sharing on transnational network evasion cases and typologies to assist banks and financial institutions in determining whether certain transactions involve activities prohibited under the resolutions.**

## IX. Sectoral sanctions

256. To monitor exports by the Democratic People’s Republic of Korea of minerals falling under paragraph 29 of resolution [2270 \(2016\)](#) and paragraphs 26 and 28 of resolution [2321 \(2016\)](#), the Panel utilized Member State customs data as reported to the United Nations (United Nations Commodity Trade Statistics Database/ International Trade Centre (ITC)) or obtained from a subscription database. The Panel had to rely entirely on statistics from importing States (mirror statistics) because the Democratic People’s Republic of Korea does not provide export or customs data.

257. In its resolutions, the Security Council did not specify the categories and subcategories corresponding to the listed minerals, meaning that they are left to the interpretation of each Member State. To develop a global frame of reference to monitor the relevant listed mineral imports from the Democratic People’s Republic of Korea, the Panel decided to utilize the classifications in the Harmonized Commodity Description and Coding System elaborated by the World Customs Organization (WCO)<sup>219</sup> (see annex 16-1).

258. Some countries issued their own harmonized code lists for the prohibited minerals for the purpose of the implementation of resolution [2270 \(2016\)](#). These countries include the Russian Federation,<sup>220</sup> the States members of the European Union and China.<sup>221</sup> The Panel compared these codes with the WCO recommendations and noticed discrepancies (see table 15).

<sup>219</sup> WCO is an intergovernmental institution representing 180 customs administrations responsible for processing 98 per cent of all international trade.

<sup>220</sup> Classification of goods according to the foreign economic activity commodity nomenclature of the Eurasian Economic Union. The Union is an economic union of Armenia, Belarus, Kazakhstan, Kyrgyzstan and the Russian Federation.

<sup>221</sup> Council Regulation (EU) 2016/682 of 29 April 2016; Ministry of Commerce of China, “MOFCOM Announcement No. 11 of 2016 Announcement on List of Mineral Products Embargo against the DPRK”, 5 April 2016; Ministry of Commerce of China Announcement No. 81 of 23 December 2016 (see annex 16-2).

Table 15  
**Harmonized System codes assigned by WCO and Member States for minerals listed in resolutions 2270 (2016) and 2321 (2016)**

<i>Mineral</i>	<i>WCO</i>	<i>Member State and regional organization interpretations</i>
Coal	Coal; briquettes, ovoids and similar solid fuels manufactured from coal (2701)	<p><b>European Union:</b> Coal; briquettes, ovoids and similar solid fuels manufactured from coal (2701), lignite (2702), peat (2703), coke and semi-coke of coal, lignite or peat (2704)</p> <p><b>China:</b> For resolution 2270 (2016): anthracite coal (2701110010, 2701110090, 2701121000, 2701129000, 2701190000); for resolution 2321 (2016): coal; briquettes, ovoids and similar solid fuels (2701) and lignite (2702)</p> <p><b>Russian Federation:</b> Coal; briquettes, ovoids and similar solid fuels manufactured from coal (2701); lignite, or brown coal, whether or not agglomerated, except jet coal (2702)</p>
Iron	Iron and steel (codes of chapter 72 (7201-7229))	<p><b>European Union:</b> Iron in the following forms: pig iron, ferro-alloys, ferrous products, granules, powders, ingots, waste and scrap of cast iron, tinned iron or steel, other waste and scrap, semi-finished and flat-rolled products of iron and non-alloy steel, other bars and rods of iron and non-alloy steel, angles shapes and sections of iron or non-alloy steel, wire of iron or non-alloy steel (7201-7212, 7214-7217)</p> <p><b>China:</b> Pig iron (7201100010, 7201100090, 7201200000, 7201500010, 7201500090)</p> <p><b>Russian Federation:</b> Iron and steel (72); articles of iron or steel (73)</p>
Iron ore	Iron ores and concentrates, including roasted iron pyrites (2601)	<p><b>European Union:</b> Iron ores and concentrates, including roasted iron pyrites (2601)</p> <p><b>China:</b> Iron ores and concentrates, including roasted iron pyrites (2601111000, 2601112000, 2601119000, 2601120000, 2601200000)</p> <p><b>Russian Federation:</b> Iron ores and concentrates, including roasted iron pyrites (2601)</p>
Gold	Gold ores and concentrates (2616.90)  Gold (including gold plated with platinum), unwrought or in semi-manufactured forms, or in powder form (7108, 7108.11, 7108.12, 7108.13, 7108.20)	<p><b>European Union:</b> Gold (26169000)</p> <p><b>China:</b> Gold ores and concentrates (2616900009; 261690001)</p> <p><b>Russian Federation:</b> Gold (including gold plated with platinum) unwrought or in semi-manufactured forms, or in powder form (7108); waste and scrap of gold, including metal clad with gold but excluding sweepings containing other precious metals (7112910000)</p>

<i>Mineral</i>	<i>WCO</i>	<i>Member State and regional organization interpretations</i>
Titanium	Titanium ores and concentrates (2614)	<p><b>European Union:</b> Titanium ores (26140000)</p> <p><b>China:</b> Titanium ores and concentrates (2614000000)</p> <p><b>Russian Federation:</b> Titanium ores and concentrates (2614000000)</p>
Vanadium	Vanadium ores and concentrates (2615)	<p><b>European Union:</b> Vanadium ores (26159000)</p> <p><b>China:</b> Vanadium ores and concentrates (2615909090)</p> <p><b>Russian Federation:</b> Vanadium ores and concentrates (2615900009)</p>
Rare earth	Rare earth minerals covered by codes 2617 (ores and concentrates not elsewhere specified or indicated), 2805 (alkali metals etc., rare-earth metals, etc., mercury) and 2844 (radioactive chemical elements and radioactive isotopes and their compounds, etc.)	<p><b>European Union:</b> Ores of the rare earth metals (25309000), monazites and other ores used solely or principally for the extraction of uranium or thorium (2612)</p> <p><b>China:</b> Other rare earth metal (2530902000)</p> <p><b>Russian Federation:</b> Mixtures or alloys (2805301000); radioactive chemical elements and radioactive isotopes and their compounds etc.) (2844); compounds, inorganic or organic, of rare-earth metals; of yttrium or of scandium or of mixtures of these metals (2846); ferro-cerium and other pyrophoric alloys in all forms; articles of combustible materials (3606)</p>
Copper	Harmonized codes of chapter 74 (7401-7419)	China: Harmonized codes of chapter 74
	Copper ores and concentrates (2603)	Copper ores and concentrates (26030000)
Zinc	Harmonized codes of chapter 79 (7901-7907)	China: Harmonized codes of chapter 79
	Zinc ores and concentrates (2608)	Zinc ores and concentrates (26080000)
Nickel	Harmonized codes of chapter 75 (7501-7508)	China: Harmonized codes of chapter 75
	Zinc ores and concentrates (2604)	Zinc ores and concentrates (2604)

<i>Mineral</i>	<i>WCO</i>	<i>Member State and regional organization interpretations</i>
Silver	Silver ores and concentrates (7106)  Base metals clad with silver, not further worked than semi-manufactured (7107); articles of goldsmiths' or silversmiths' wares or parts thereof, of silver, whether plated or clad with other precious metal (7114)	China: Silver ores and concentrates (7106)  Base metals clad with silver; not further worked than semi-manufactured (71070000)  26161000 (precious metal ores and concentrates)

259. An analysis of the above codes shows variances, some of which were due to a narrower interpretation of the resolutions with regard to the form of the mineral and identification of the minerals, some of which were broader than the WCO recommendations. For example, China and the Russian Federation included lignite as part of the coal ban. In other cases, Member States considered the relevant minerals only in the form of bars or concentrated form and not in other forms such as powdered or unwrought.<sup>222</sup> There were also differing views with regard to which metals and minerals fell into the category of rare earth minerals.

260. The above inconsistencies with regard to the codes assigned to the minerals in the resolutions allow the Democratic People's Republic of Korea to exploit this in its exports. In this regard, the Panel notes that a study by a university in the country recommended that, to evade the mineral bans, the country should focus its efforts on decreasing exports of raw materials and increasing exports of processed products. The Panel considers that items made from the listed minerals, as well as listed minerals in non-concentrated forms (including semi-manufactured, alloys, unwrought, powdered and pulverized), should be considered prohibited.<sup>223</sup>

**261. To ensure consistency as to which actual items are considered prohibited, the Panel recommends that the Committee issue an implementation assistance notice containing the Harmonized System codes that correspond to the minerals listed in resolutions 2270 (2016) and 2321 (2016).**

#### **Exports of resources with exemptions (coal, iron and iron ore)**

262. During the reporting period, the Democratic People's Republic of Korea continued to export coal, iron and iron ore to generate substantial revenue.

#### *Iron*

263. Table 16 shows the countries that imported iron and steel products from the Democratic People's Republic of Korea in 2016.

<sup>222</sup> The Chinese code classification for gold includes only ores and concentrated form, excluding certain types that the Democratic People's Republic of Korea exports.

<sup>223</sup> For example, the Russian Federation considers that the ban on iron and steel also includes articles of iron or steel (code 73).

Table 16  
**Importing countries for product 72 (iron and steel) from the Democratic People's Republic of Korea, April-September 2016**

(Thousands of United States dollars)

	<i>April</i>	<i>May</i>	<i>June</i>	<i>July</i>	<i>August</i>	<i>September</i>	<i>Total</i>

Others <sup>b</sup>							43
<b>Total</b>							<b>28 350</b>

Source: ITC Trade Map, United Nations Commodity Trade Statistics Database.

<sup>a</sup> Germany indicated to the Panel that the ferro-silicon (Harmonized System code 720221) had originated in the Democratic People's Republic of Korea, but had been imported to Germany from China. The Panel notes that, in paragraph 29 of resolution 2270 (2016), the Security Council decided that the Democratic People's Republic of Korea was not to supply, sell or transfer iron, directly or indirectly, from its territory.

<sup>b</sup> Member States reporting relatively insignificant amounts of iron and steel imports have been aggregated.

264. The Panel sent inquiries to the above-mentioned countries requesting information on the number of shipments containing iron inspected under paragraph 18 of resolution 2270 (2016) and whether the shipments were considered under the "livelihood" exemption in paragraph 29 (b) of resolution 2270 (2016), and, if they were, what procedures were required by the companies to import the items and which verification measures were employed by the authorities in order to confirm that the revenue generated was exclusively for livelihood purposes and unrelated to the prohibited programmes or other activities of the Democratic People's Republic of Korea prohibited under the resolutions.

#### *Coal and iron ore*

265. Data obtained from ITC show that the Democratic People's Republic of Korea exported all recorded coal and iron ore only to Chinese companies in 2016. With regard to iron ore, the data show that the country exported \$60,124,401 from April to November.

266. With regard to coal, the data show that the country exported \$761,079,233 of coal from April to November 2016. Most of the entities that imported it are based in the north-east region (Jilin, Liaoning and Shandong).

267. Given that exports of minerals by the Democratic People's Republic of Korea had been going on for years when resolution 2270 (2016) was adopted, an impartial method to measure the implementation of the mineral bans is to use data from the same period in 2015 as a baseline against which statistics for 2016 can be compared.

268. Tables 17 and 18 compare exports of coal and iron ore from the Democratic People's Republic of Korea to China from April to November 2015 and 2016, respectively, and were devised using data obtained from subscription databases.

Table 17

**Coal exports (Harmonized System code 2701) to China in 2015 and 2016**

(United States dollars)

Year	April	May	June	July	August	September	October	November	Total
2015	117 202 530	104 336 183	107 114 890	101 040 810	88 193 311	82 288 972	59 783 135	66 001 609	725 961 440
2016	72 271 400	74 749 688	88 181 071	89 467 790	112 458 258	83 107 015	101 467 754	139 376 257	761 079 233

Source: Panjiva.

Table 18

**Iron ore exports (Harmonized System code 2601) to China in 2015 and 2016**

(United States dollars)

Year	April	May	June	July	August	September	October	November	Total
2015	3 814 787	6 888 618	4 335 533	6 204 680	6 813 684	8 213 835	7 120 048	4 266 165	47 657 350
2016	4 554 115	10 076 723	11 758 651	10 389 470	8 546 083	6 668 698	2 249 885	5 880 776	60 124 401

Source: Panjiva.

269. As shown, the total value of the export of coal and iron and iron ore for April to November 2016, after the adoption of the resolution, was higher than for the same period in 2015, before the adoption of the resolution. It is therefore clear that the resolution had no impact on the revenue acquired from coal and iron ore exports since 2015.

**Exports of resources without exemptions: gold**

270. According to the United Nations Commodity Trade Statistics Database, in 2016 the Democratic People's Republic of Korea exported \$1,565,000 of gold (Harmonized System code 261690), in violation of paragraph 30 of resolution [2270 \(2016\)](#).

**Member States' implementation of the exemption clauses**

271. The Panel monitored Member States' implementation of the exemptions to the ban on coal, provided for in paragraphs 29 (a) and 29 (b) of resolution [2270 \(2016\)](#) and paragraphs 26 (a) and (b) of resolution [2321 \(2016\)](#).

**Trans-shipment exemption**

272. The Russian Federation made 11 notifications to the Committee, China 25 and Switzerland 1 under paragraph 29 (a) of resolution [2270 \(2016\)](#). The Panel notes that, in resolution [2321 \(2016\)](#), the identical paragraph 26 (a) replaces paragraph 29 (a) of resolution [2270 \(2016\)](#) and offers in annex V a standard form for notification of import of coal.

**Livelihood exemption**

273. While the implementation of the trans-shipment exemption in resolution [2270 \(2016\)](#) was relatively straightforward, Member States had differing views on the interpretation of the livelihood exemption in paragraph 29 (b) of the resolution,

which the Panel considers to be the reason for the inconsistent implementation evidenced in the data above. The Panel noted that only one Member State had issued instructions to its companies on how to implement paragraph 29 (b). China issued announcement No. 11 of 5 April 2016, which stated that imports of coal, iron and iron ores from the Democratic People's Republic of Korea were forbidden, with two exceptions. With regard to the exception in paragraph 29 (b), it clarified that importers who wished to use the exemption were required to submit a letter of commitment (see annex 16-3), "if it is confirmed by solid information that the imports are not for the people's livelihood, or are related to the nuclear program or the ballistic missile program of the DPRK the customs authority will not clear such imports". The Panel requested information, including the number of applications for exemption and whether due diligence was required. In its reply to the Panel, China reconfirmed the foregoing.

274. The Panel investigated the activities of entities of the Democratic People's Republic of Korea in violation of paragraph 29 (b) of resolution 2270 (2016), superseded by paragraph 26 (b) of resolution 2321 (2016). The Panel found widespread evidence that designated entities and/or entities involved in prohibited activities had also traded in minerals listed in resolutions (see paras. 20-21, 153, 165, 180, 184 and 193). The Panel also received information from Member States on shipments of coal from companies of the Democratic People's Republic of Korea linked to a designated entity or the military, including Wonbong Trading Corporation (affiliated with a designated entity, the Reconnaissance General Bureau, according to that Member State) and Korea Kangbong Trading Corporation (affiliated with the Ministry of the People's Armed Forces). China replied to the Panel that those two companies were "not in the list of designated DPRK entities". Another key case of illegal export by the Democratic People's Republic of Korea of banned minerals included the shipment of limonite aboard the *Jie Shun* (discussed in paras. 61-65). The Panel continues its investigations.

275. Paragraph 26 of resolution 2321 (2016) replaced paragraph 29 of resolution 2270 (2016), with the Security Council applying a more deliberate and rigorous approach. In addition to a new cap on coal exports of \$53,495,894 or 1,000,866 tons, the Council provided additional criteria for the livelihood exemption, requiring that all procurements under the cap:

(a) Do not involve individuals or entities associated with the country's prohibited programmes or other activities prohibited under the resolutions, including designated individuals or entities, or individuals or entities acting on their behalf or at their direction, or entities owned or controlled by them, directly or indirectly, or individuals or entities assisting in the evasion of sanctions;

(b) Are exclusively for the livelihood purposes of nationals of the Democratic People's Republic of Korea and are unrelated to generating revenue for the prohibited programmes or other activities of the Democratic People's Republic of Korea prohibited under the resolutions.<sup>224</sup>

276. In its implementation of resolution 2321 (2016), China announced, on 10 December 2016, a suspension of coal imports from the Democratic People's Republic of Korea for that month. On 23 December, it issued announcement No. 81, by which it took into account the above additional criteria, with the system requiring companies to submit letters of commitment as in announcement No. 11 (see annex 16-3).

<sup>224</sup> The livelihood exemption with regard to iron and iron ore remains and is contained in paragraph 26 (c).

277. The Panel draws attention to the continued export by the Democratic People's Republic of Korea of prohibited minerals and calls upon Member States to effectively implement paragraphs 26 and 28 of resolution 2321 (2016) and paragraph 30 of resolution 2270 (2016) by ceasing the import of all banned minerals, adhering to the caps established for coal and ensuring that all the listed conditions are met for coal shipments falling under the cap.

#### **Unintended impact of the sanctions**

278. United Nations agencies operating in the country report that the population continues to suffer from food insecurity and limited access to sanitation and hygiene, resulting in chronic malnutrition and poor health. An estimated 18 million people are in need of some form of assistance. Malnutrition is particularly affecting women and children under 5 years of age and is a major cause of maternal and child mortality and morbidity. Extreme flooding in the north in August and September 2016 has further exacerbated vulnerabilities, in particular in North Hamgyong Province.

279. This humanitarian situation is largely the result of priority being accorded to the military and defence industry, which has significantly distorted economic resource allocation. Member States' strengthening of unilateral and United Nations sanctions following the nuclear tests may also have had an unintended impact on the country's trade and distribution system. Nevertheless, the Panel has been unable to obtain evidence of a direct link between the humanitarian situation in the country and United Nations resolutions. Member States' and private sector measures have also been reported as seriously affecting the ability of humanitarian agencies to procure some goods for their operations.

280. Strengthened financial sanctions in 2016 also challenged the ability of United Nations agencies to transfer funds into the country for their activities. Most agencies use the Foreign Trade Bank of the Democratic People's Republic of Korea for this purpose, but corresponding banking relationships became prohibited under paragraph 33 of resolution 2270 (2016). The Committee's approval is now necessary to maintain corresponding banking relationships with banks of the Democratic People's Republic of Korea. In August 2016, the Committee approved a Russian banking channel, allowing United Nations agencies to resume the transfer of funds for their work in the country.

## **X. Recommendations**

281. The Panel reiterates that the recommendations made in its previous reports remain valid and should be reconsidered in the light of the additional information that it has gathered.

### **A. Recommendations of the Panel to the Committee**

#### **Recommendation 1**

In accordance with paragraph 27 of resolution 2094 (2013) and paragraph 43 of resolution 2270 (2016), the Panel recommends that the Committee designate the entities and individuals listed in annex 17 to the present report.

## Recommendation 2

The Panel recommends that the Committee update the existing list of designated individuals and entities as follows:

- (a) Namchongang Trading Corporation as an a.k.a. to KPe.004:  
 A.k.a: Korea Tearyonggang/or Daeryonggang Trading Corporation  
 (조선대령강무역회사, 朝鮮大玲江貿易會社)  
 Address: Sengujadong 11-2/(or Kwangbok-dong), Mangyongdae District, Pyongyang, Democratic People's Republic of Korea  
 Other information:  
 Tel.: +850-2-18111, 18222 (ext. 8573); fax: +850-2-381-4687
- (b) Green Pine Associated Corporation as an a.k.a. to KPe.010:  
 A.k.a. "National Resources Development and Investment Corporation"  
 and "Saeng Pil Trading Corporation"  
 Address: Rakrang No. 1 Rakrang District Pyongyang Korea, Chilgol-1 dong, Mangyongdae District, Pyongyang, Democratic People's Republic of Korea;  
 Other information:  
 Tel.: +850-2-18111 (ext. 8327); fax: +850-2-3814685; +850-2-3813372;  
 e-mail: pac@silibank.com; kndic@co.chesin.com.

## Recommendation 3

The Panel recommends that the Committee establish a list of designated vessels (subject to seizure as economic resources pursuant to paragraphs 12 and 23 of resolution [2270 \(2016\)](#)), which includes vessel-identifying characteristics, and maintain the list as for designated individuals. In addition, the aliases of OMM vessels contained in table 5 should be added to the list.

## Recommendation 4

The Panel recalls paragraph 23 of resolution [2321 \(2016\)](#), by which the Security Council decided to prohibit the procurement of crewing services from the Democratic People's Republic of Korea, and recommends that the Council prohibit all flag registries from registering vessels commanded by officers from the Democratic People's Republic of Korea or operated by crews from that country.

## Recommendation 5

The Panel recommends that the Committee propose to the Security Council that "chartering" be added to paragraph 9 of resolution [2321 \(2016\)](#).

## Recommendation 6

In the light of the use by the Democratic People's Republic of Korea of foreign companies to perform financial services, the Panel recommends that the Committee clarify that companies performing financial services commensurate with those provided by banks are considered to be financial institutions for the purposes of the resolutions.

## Recommendation 7

The Panel recommends that the Committee propose that the Security Council extend the prohibition on establishing joint ventures with banks of the Democratic People's Republic of Korea to include companies as well as financial institutions.

**Recommendation 8**

To ensure consistency as to which actual items are considered prohibited, the Panel recommends that the Committee issue an implementation assistance notice containing the Harmonized System codes that correspond to the minerals listed in resolutions 2270 (2016) and 2321 (2016).

**B. Recommendations of the Panel to Member States****Recommendation 1**

Member States should exercise heightened vigilance over diplomatic agents of the Democratic People's Republic of Korea who are engaging in professional or commercial activities, particularly in prohibited items.

**Recommendation 2**

Member States should annul any contracts with the Democratic People's Republic of Korea or its nationals concerning the direct or indirect supply or transfer of statues, or services related to the maintenance of statues.

**Recommendation 3**

Flag and port States should verify the origin and legal validity of insurance of Democratic People's Republic of Korea-flagged vessels or vessels suspected of being crewed by the Democratic People's Republic of Korea.

**Recommendation 4**

Member States should communicate to the Committee available information on designated entities or entities owned or controlled by individuals acting on behalf of or at the direction of designated entities or individuals, or those which have assisted in the evasion of sanctions or violation of the resolutions.

**Recommendation 5**

Member States should exercise enhanced vigilance over their companies participating in the Pyongyang International Trade Fair and alert them that any form of engagement with designated entities or those undertaking prohibited activities is a violation of the resolutions.

**Recommendation 6**

Given the continuing activities by designated banks and their representatives, the Panel recalls Member States' obligation to freeze all assets controlled by them and those acting on their behalf, and to report such actions to the Committee and to share relevant information with the Panel.

**Recommendation 7**

When Member States freeze bulk cash or gold smuggled by nationals of the Democratic People's Republic of Korea, they should immediately inform the Committee and ensure that they cannot be used for prohibited activities or evasion of sanctions before releasing them.

**Recommendation 8**

Member States should strengthen information-sharing on transnational network evasion cases and typologies to assist banks and financial institutions in determining whether certain transactions involve activities prohibited under the resolutions.

**Recommendation 9**

The Panel draws attention to the continued export by the Democratic People's Republic of Korea of prohibited minerals and calls upon Member States to effectively implement paragraphs 26 and 28 of resolution [2321 \(2016\)](#) and paragraph 30 of resolution [2270 \(2016\)](#) by ceasing the import of all banned minerals, adhering to the caps established for coal and ensuring that all the listed conditions are met for coal shipments falling under the cap.

**Annexes**

- 1-1: The Panel of Experts and its methodology
- 2-1: Member States yet to submit NIR under resolution 2270 (2016)
- 3-1: Yongbyon Nuclear Complex Overview
- 3-2: Yongbyon Light Water Reactor
- 3-3: Yongbyon Steam Plant
- 3-4: Punggye-ri Nuclear Test Site Overview
- 3-5: Punggye-ri North and West Portal Area
- 4-1: Comparison of identifier information between Kumsan and GBAE/MAEI
- 4-2: Commercial advertisement of Korea Kumsan Trading Co. in Moscow
- 4-3: Kumsan's address connected to the DPRK Embassy in Moscow
- 4-4: Lithium-6 in prohibited nuclear-related items list in resolutions (INFCIRC/254/Rev.9/Part2)
- 4-5: GPM advertisement showing sales relationship with Dandong and Beijing
- 4-6: DPRK Diplomatic List registered in China's Foreign Ministry showing Chol Yun registered as Third Secretary in the DPRK's Embassy in China
- 5-1: Extract of DPRK notifications to international organizations
- 5-2: Kwangmyongsong flight path
- 5-3: Extract of DPRK note verbale to UNOOSA registering the satellite
- 5-4: 2016 Kwangmyongsong rocket debris photographs
- 5-5: 2016 Kwangmyongsong fairing
- 5-6: 22 June 2016 Musudan Trajectory
- 5-7: Wonsan firing position
- 5-8: Image of the KN-11 being loaded into its launch tube showing the stages
- 5-9: Hwasong-13 engine and re-entry vehicle
- 5-10: Chamjin complex and ballistic missile test site
- 5-11: Hamhung ballistic missile engine test site
- 5-12: Sinpo shipyard overview
- 5-13: Sinpo submarine fabrication halls

- 6-1: DPRK state media article showing NADA's key role in the launch
- 6-2: Photos showing Ri Pyong Chol's role in the DPRK's nuclear and ballistic missile programs
- 6-3: Images showing MID key officials' role in the DPRK's nuclear and ballistic missile programs including Hong Sung Mu and Hong Yong Chil
- 6-4: Pictures showing SFC's role in ballistic-missile launches with nuclear warhead simulation
- 7-1: Certificate of origin and bills of lading of 22 June 2016 for the limonite cargo onboard the *Jie Shun* used to conceal the arms shipment
- 7-2: Document issued by the Cambodia Flag Register of 23 March 2016 showing K Brothers Marine Co. Ltd as the operator of the *Jie Shun*
- 7-3: Emergency contact persons of the *Jie Shun*'s operator K Brothers Marine Co. Ltd.
- 7-4: Emails showing Mr. Zhang Qiao (Jack) arranging insurance for the *Jie Shun*
- 7-5: Individuals and companies associated with K-Brothers Marine and Bene Star Shipping
- 7-6: Records from specialized maritime databases showing the shared contact information for K Brothers Marine Co. Ltd., T Sisters Co Ltd and Sinotug Shipping Ltd.
- 7-7: Open-source extracts showing Mr. Zhang Qiao's coal and iron ore export activities and links to the DPRK
- 7-8: Bills of lading for the vessel Bright Star under the letterhead of Ever Ocean Shipping Agency Co. Ltd., owner of the MV Light
- 8-1: Airway bills associated with the shipment
- 8-2: Items in the shipment compared to products advertised by Glocom
- 8-3: Beijing Chengxing Trading Co. Ltd. in Chinese business registry
- 8-4: *Kota Karim*'s 'cargo manifesto' showing Guangcaiweixing Trading listed as shipper
- 8-5: Documents showing International Golden Services and International Global Systems acted on behalf of Glocom
- 8-6: Invoice showing Glocom's address in Pyongyang
- 8-7: Stamp of Glocom and extract of its catalogue
- 8-8: Personal information of Pan Systems Pyongyang staff
- 8-9: Photograph of an electronic card of Glocom's radio and associated price
- 9-1: Airway bill associated with the shipment interdicted by a Member State

- 
- 9-2: Rungrado's affiliation to the Korean Worker's Party
  - 9-3: Rungrado activities
  - 9-4: Rungrado dispatch of workers to Poland and agreement with a local company
  - 9-5: Fax number and address of Arab International Optronics
  - 9-6: AIO use of the name "MODA Authority Arab International Optronics" on a shipping document
  - 9-7: Egypt letter to the Panel of 2 September 2016
  - 10-1: KN-06 transporter with their own commercial markings of "Taebaeksan 96"
  - 10-2: Taebaeksan 96's commercial catalogue mentioning Korea Ryongwang Trading Corporation
  - 11-1: DPRK – Mozambique military cooperation contract
  - 12-1: Satellite Imagery of Oamites military base
  - 12-2: Communication document of KOMID in Namibia relating the shipment with the contract number "STNK-010305"
  - 12-3: The part of Packing Lists of the shipment at Walvis Bay in October 2012
  - 12-4: Other military-related construction by Mansudae
  - 12-5: Mansudae's cash withdraw request for bulk cash courier to the DPRK
  - 12-6: Mansudae's construction works in Angola till February 2015
  - 12-7: Mansudae-Angola in Angola business registry
  - 12-8: Uganda DPRK embassy offering South Sudan military cooperation
  - 12-9: International Military Technical Forum in Russia- Russia's Correspondence to the Panel of 21 December 2016
  - 12-10: Wonsan air show aircraft – chain of three emails
  - 13-1: Extracts of maritime databases showing identity deception
  - 13-2: Extracts from the DPRK Maritime Administration database showing the same characteristics as the *Hui Chon*
  - 13-3: Extracts from the IMO database for the port state control inspection of the *Song Phyoung 7*
  - 13-4: DPRK-flagged vessels owned, operated or certified by foreign companies
  - 13-5: DGS Marine/British European & Overseas Protection and Indemnity insurance (P&I)

- 14-1: Namhung Trading Corporation registered in Chinese business registry
- 14-2: Korea Taeryonggang (or Tae Ryong Gang) Trading Corporation (朝鲜大岭江贸易会社) in local Chinese newspaper and commercial websites with a designated individual as representative
- 14-3: Official letterhead of Taeryonggang (or Tae Ryong Gang) and Namchongang
- 14-4: The same address used by Namhung and Sobaeksu
- 14-5: Sobaeksu's branches in Beijing, Yingkou and Dandong
- 14-6: Yun Ho-jin as Beijing Sobaeksu's director and Namchongang's director
- 14-7: Kim Chol Nam as Beijing Korea Changgwang's director and Dandong Sobaeksu's director
- 14-8: Beijing New Technology in Hong Kong Company registry
- 14-9: Mr. Park Young Han and his relationship with Beijing New Technology Company
- 14-10: Beijing Chengxing and Guangcaiweixing's mineral trade with the DPRK
- 14-11: NDIC in Chinese business registry
- 14-12: Letters of NDIC and Green Pine showing identifiers
- 14-13: Mr. Kim Song Il's Beijing-registered trading companies and Greenpine International
- 14-14: The same address used by Mr. Kim Song Il's Beijing and Hong Kong-based company
- 14-15: Mr. Kim's Beijing-registered trading companies links to the former addresses of DPRK entities
- 14-16: US court indictment document on KIM Song IL and comparison of Mr. Kim's signatures
- 14-17: Examples of Chinese customs records of Greenpine International's export to Angola
- 14-18: Mr. Choe Kwang Hyok's Companies in Chinese business registry and Hong Kong company registry.
- 14-19: Beijing King Helong's relationship with Hong Kong King Helong and Dandong King Helong International Trading Co., Ltd.
- 14-20: Hong Kong front companies of Beijing King Helong's directors
- 14-21: Mr. Choe's companies links with Green Pine in address
- 14-22: Korea Unsong Trading Corporation in Chinese Business registry
- 14-23: Official business registry information on Shenyang Branch of Korea Unsong

- 
- 14-24: Saeng Pil Trading Corporation's brochure
- 14-25: DPRK's Diplomatic note of appointing Saeng Pil representative in Cairo
- 14-26: Korea Daesong General Trading Corporation in Chinese Company registry and a business card of its representative

- 15-16: Hongdae International Limited Registration
- 16-1 - HS Codes recommended by World Customs Organization for resolutions 2270 (2016) and 2321(2016)
- 16-2: HS Codes issued by Member States
- 16-3: Chinese Ministry of Commerce Templates of Corporate Commitment from Announcements No.11 and 81
- 17-1: Entities and individuals recommended for designation

**Annex 1-1: The Panel of Experts and its methodology**

The Panel adheres to its mandate to gather, examine and analyze information from States, relevant United Nations bodies and other interested parties regarding the implementation of the measures imposed in the resolutions, in particular incidents of non-compliance, and to make recommendations on actions that the Security Council, the 1718 Committee or Member States may consider to improve the implementation of the measures imposed by the resolutions

The Panel conducts its work in line with the methodological standards of the Informal Working Group of the Security Council on General Issues of Sanctions (S/2006/997). It maintains high evidentiary standards by consistently seeking corroboration and keeping in mind the identity and role of sources. It relies on verified documentation, correspondence and photographic evidence wherever possible and ensures that information provided on a confidential or restricted basis is handled consistently with the responsibilities of the Panel.

During the reporting period from 6 February 2016 to 5 February 2017, the Panel submitted two incident reports to the Committee. The Panel held consultations with six Member States, one United Nations bodies and three other interested parties. It has also continued to cooperate with other United Nations Sanctions Panels of Experts and Groups. The Panel sent a total of 1,070 letters, including 732 requests for information relating to investigations.

## Information Circular

---

2.C.8. Hafnium metal, alloys containing more than 60% hafnium by weight, hafnium compounds containing more than 60% hafnium by weight, manufactures thereof, and waste or scrap of any of the foregoing.

2.C.9. Lithium enriched in the lithium-6 (<sup>6</sup>Li) isotope to greater than its natural isotopic abundance and products or devices containing enriched lithium, as follows: elemental lithium, alloys, compounds, mixtures containing lithium, manufactures thereof, waste or scrap of any of the foregoing.

Note: Item 2.C.9. does not control thermoluminescent dosimeters.

Technical Note: *The natural isotopic abundance of lithium-6 is approximately 6.5 weight percent (7.5 atom percent).*

2.C.10. Magnesium having both of the following characteristics:

- a. Containing less than 200 parts per million by weight of metallic impurities other than calcium; and
- b. Containing less than 10 parts per million by weight of boron.

Source: [https://www.un.org/sc/suborg/sites/www.un.org.sc.suborg/files/infcirc\\_254\\_rev.9\\_part2.pdf](https://www.un.org/sc/suborg/sites/www.un.org.sc.suborg/files/infcirc_254_rev.9_part2.pdf)

(The Nuclear Suppliers Group (NSG)'s control list showing lithium-6 in UK FCO website)

### Nuclear Suppliers Group

The NSG was established in 1975 when the international community became concerned that conditions of nuclear supply needed strengthening to better meet nuclear non-proliferation objectives.

To see the countries that are currently signed up to the NSG you can download list of non-proliferation regime members (<https://www.gov.uk/government/publications/list-of-international-non-proliferation-regime-members>).

The NSG agreed a set of guidelines, published in 1978, for handling nuclear exports to reduce the possibility that such transfers could be diverted to nuclear explosive or unsafeguarded nuclear fuel cycle activities. The guidelines have been updated at intervals to include goods especially designed or prepared for nuclear purposes (similar to those items listed by the Zangger Committee). These high-risk goods are referred to as 'trigger list' items. The NSG has also produced separate guidelines to cover nuclear-related dual-use goods.

The NSG Control List encompass a wider array of nuclear dual-use equipment, materials and technology. Find out more about the export of nuclear equipment, material and technology: 'Trigger List' requirements (<https://www.gov.uk/guidance/export-of-nuclear-equipment-material-and-technology-trigger-list-requirements>).

The following list indicates the kinds of dual-use items controlled by NSG:

- capacitors (high energy)
- machine tools
- cold cathodes, triggered spark gaps and similar devices
- isostatic presses
- lithium enriched in the lithium-6 isotope

**Annex 4-5: GPM advertisement showing sales relationship with Dandong and Beijing**

**Company Description**  
**General Precious Metal Complex (GPM)** General Precious Metal Complex (GPM) based in Beijing, China. We are member of TradeKey.com since July, 2013. Our business is related to Minerals & Metallurgy industry and we specifically deal in Metal Lithium. Please find our product details below: Metal Cesium 99.5% Metal Cesium; Purity 99.50%-----  
----- Metal Rubidium 99.5% -----  
-----  
----- Sell Lithium Metal 99.99% We can offer 10 kilograms of the lithium metal(Li6) per a month, with the FOB Dandong, China. Our Lithium metal(Li6) has the purity of 99.99% with the isotope contents of 10.8±3%. Thank you for taking time to go through our business profile. If there are any questions, inquiries or comments, please feel free to contact us.

Extract of the DPRK notification to the International Telecommunications Union (ITU):

Annex

**Data for the space object to be launched  
by the Democratic People's Republic of Korea**

1. Name of satellite : "Kwangmyongsong"
2. Launch State : Democratic People's Republic of Korea
3. General function of satellite : Earth observation
4. Duration of function : 4 years
5. Remote data transmission band : UHF(1), (2), S  
Video transmission band : X
6. Service country : Democratic People's Republic of Korea

Source: The Panel

Annex 5-2: Kwangmyongsong flight path

Source: The Panel

Annex 5-3: Extract of DPRK note verbale to UNOOSA registering the satellite

**Annex**

**Registration data on space object launched by  
the Democratic People's Republic of Korea**

Name of launching State: Democratic People's Republic of Korea

National designator: **"KWANGMYONGSONG – 4"**

Date and territory or  
location of launch

Launch date: 7 February 2016

Launch site: Sohae satellite launch site of the  
Democratic People's Republic of Korea

Launch vehicle: **"KWANGMYONGSONG"**

Basic orbital parameters

Nodal period: 94 minutes 24 seconds

Inclination: 97.4 degrees

Apogee: 500 kilometres

Perigee: 494.6 kilometres

General function of the space object: Earth observation

Source: The Panel

**Annex 5-5: 2016 Kwangmyongsong fairing**

Half of the fairing was retrieved by the ROK navy while the second half of which was retrieved from Japan's coast in June 2016 (figure 1). The fairing was found to have a length of 1.95m, a diameter of 1.25m and a weight of 149kg. It was composed of an aluminium exterior with a foam core that utilized insulation materials made of micro scale hollow glass spheres.

Figure 1: Part of the fairing retrieved by the ROK Navy (left) and part of the fairing recovered in Japan (right)

### Annex 5-13: Sinpo submarine fabrication halls

Submarines constructed or maintained in the Sinpo fabrication halls are launched by moving the submarines on cradles from the halls onto a submersible drydock. To align the drydock with the cradle rails, there are notches cut into the side of the dock walls. Satellite imagery shows that the alignment notches used prior to the upgrading (2013) were narrower than the notches in the docks constructed for the upgraded and new halls. Since the docks for new halls have been built for a wider, larger dock, and not the current submersible drydock, it suggests that newly constructed submarines will be larger. The appearance of a larger floating dock at Sinpo will thus likely indicate the impending launch of a new, larger SLBM submarine.

**Ship Manager:** The company designated by the ship owner or charterer to be responsible for the day to day commercial running of the ship and the best contact for the ship regarding commercial matters. Including post fixture responsibilities, such as laytime, demurrage, insurance and charter clauses. This company may be an owner related company, or a third-party manager, whose purpose is primarily the management of ships for their ship-owning clients.

**Technical Manager:** The company designated by the ship owner or operator or ship manager to be specifically responsible for the technical operation and technical superintendancy of a ship. This company may also be responsible for purchases regarding the fleet, such as repairs, spares, re-engining, surveys, dry-docking, etc.

Re JIE SHUN PIN insurance

As per request from previous channel, we found PNI premium is USD 31000 every year, which is very very high with some unnecessary cost.

We suggest we apply the cheaper one, if owners required insurance for crew, we can arrange insurance 500USD/PERSON.

Waiting your comments.

Brgds/Jack

张总：

你好，请看附件关于JIE SHUN的PNI保单和兰卡及付款通知书，现在保险人要求支付第二期保费，请贵司帮助落实，万分感谢！

[REDACTED]  
2015-11-19

Boss Zhang  
Hello, look at the annex on the JIE SHUN the PNI policy and the payment and Lanka notice, and now the insurer asked to pay the second period of premium, please help implement your company, very grateful!

**Annex 7-5: Individuals and companies associated with K-Brothers Marine and Bene Star Shipping**

Bene Star also registered the *Bright Star* (formerly DPRK-flagged *Kwang Song* and *Kun Ja Ri*) and its owner/operator T-Sisters Co. Ltd., using the same email address on 8 December 2015. T-Sisters is the operator of the *Galaxy 1* and “care of” address for Sinotug Shipping Ltd., Sinotug Shipping is the registered owner of the *Firstgleam* which was de-listed by Mongolia (26 August 2015) and Tanzania (29 June 2016) respectively, and was purchased from OMM associated Senat Shipping by Bene Star. Sinotug shares a fax number with both K-Brothers and T-Sisters, and is also registered in the Marshall Islands (Annex 7-5).

Documents of K-Brothers Marine Ltd. confirm the same fax number as Bene Star. Mr. Zhang, the director and sole shareholder of Bene Star, is also the director of Haofeng Shipping & Trading Ltd., which sold the DPRK-flagged *Chong Bong* (listed on Annex III of resolution 2270 (2016)) to Mr. Li Anshan’s Petrel Shipping Ltd. K-Brothers also engaged in business dealings with Mr. Hiroshi Kasatsugu, an individual known for acting on behalf of the designated company OMM, in the acquisition of two OMM vessels: the *Ocean Galaxy* and *Ocean Dawning* (see S/2016/157).

## Annex 9-3: Rungrado activities

## Korea Rungrado General Trading Corporation

This corporation inaugurated in Juche 62 (1973) deals with production of various kinds of heavy machines, vehicles, light industry and electronic goods and seafood, as well as trade cargo service, passenger and freight transport and other transactions and conducts economic and technical cooperation with foreign partners.

It has under its control dozens of companies such as Ryongak Trading Company, Hwanggumbol Trading Company, Sosan JV Company and Rungrado IT Company.

Other affiliates are Choe Jong Rak Aeguk Clothes Factory, Onchon Rungrado Sindok Mineral Water Factory, Rangnang Rungrado Filling Station, external technical personnel and service workers training institutes, etc.

The Ryongak Trading Company engages mainly in production and marketing of vehicles including bikes and trimotorcycles and electronic goods and foodstuffs, commercial service and repair of vehicles.

The Rungrado IT Company staffed with able program developers has several branches at home and abroad, all of which specialize in the development and marketing of programs as well as service related to computer and its accessories and consultation for technological exchange and investment.

The Sindok-brand mineral water from the Onchon Rungrado Sindok Mineral Water Factory has been registered as a natural living monument as it is rich in various kinds of minerals and nutritive oil necessary for the growth of children. It is highly efficacious for the treatment of hypertension, cerebral hemorrhage and apoplexy, colitis and other diseases.

The corporation sets it as its management strategy to intensify technical force, introduce cutting-edge scientific and technological achievements, improve the quality of products and develop new products.

It also has branches, economic and technical cooperation agencies and missions in several countries around the world to promote contact and exchanges with its counterparts.

**UMOWA**

Na usługi kooperacyjne w zakresie demontażu, montażu i spawania konstrukcji stalowych z dnia 2012-07-01 zawarta pomiędzy:

Armex Sp. z o. o.  
z siedzibą: 80-955 Gdańsk, ul. Marynarki Polskiej 96  
NIP: 584-025-17-29

reprezentowanym przez:

1. [REDACTED]
2. [REDACTED]

Zwanym dalej Zamawiającym

a

**KOREA RUNGRADO GENERAL TRADING CORPORATION**

reprezentowanym przez: [REDACTED]

Zwanym dalej WYKONAWCĄ

**§ 1 Definicje**

O ile w dalszej części Umowy będzie występować określenie ZLECAJĄCY należy przez to rozumieć firmę kontraktującą sekcje/bloki statków.

**§ 2 Przedmiot Umowy**

1. Zamawiający zleca, a Wykonawca przyjmuje do wykonania spawanie prefabrykowanych i montowanych sekcji oraz bloków statków na jedn. NB142/2, B68/1-4, NB38/1-2 wg załączonego harmonogramu.
2. Wykonywanie prac będzie odbywało się na jednostkach w oparciu o dostarczoną dokumentację i zgodnie ze standardami i normami obowiązującymi.
3. Nadzór nad wykonywanymi pracami będą pełnili przedstawiciele Zamawiającego, lub wyznaczeni przez niego ludzie, wspólnie z przedstawicielem Wykonawcy.
4. Wykonawca zobowiązuje się do wykonania zleczonej pracy zgodnie z obowiązującą technologią, zgodnie z wymogami i przepisami BHP oraz ppoż.

[REDACTED]

[REDACTED]

1

### § 3 Cena umowna

1. Za wykonane prace Zamawiający zapłaci Wykonawcy jedynie kwotę wynikającą ze stawki umownej, pod warunkiem, iż Zamawiający i Zlecający przyjmą bez zastrzeżeń wykonany przez Wykonawcę zakres prac, a powyższe znajdzie potwierdzenie w protokole zdawczo-odbiorczym podpisanym pomiędzy Wykonawcą i Zamawiającym, na warunkach określonych poniżej.
2. W przypadku prac w systemie godzinowym stawka będzie wynosić [REDACTED] PLN (dwadzieścia 00/100) za roboczogodzinę.

### § 4 Nadzór i Koordynacja prac

1. Prace należy wykonywać w oparciu o dostarczone przez Zamawiającego:
  - a. dokumentację techniczną i technologiczną
  - b. ramowy wykaz odbiorów kadłuba
  - c. ramową technologię remontu i budowy kadłuba poszczególnych jednostek
  - d. plan kontroli spoin
  - e. plan prób szczelności
  - f. książkę odbiorów prac
  - g. poleceń nadzoru Zamawiającego

### § 5 Obowiązki Wykonawcy

1. W celu realizacji Umowy Wykonawca zgodnie z procedurą prawną obowiązującą przy zatrudnianiu obcokrajowców, oddeleguje do siedziby Zamawiającego wykwalifikowanych pracowników w zawodzie spawaczy, posiadających:
  - a. stosowne kwalifikacje i uprawnienia
  - b. praktykę stoczniową
  - c. dodatkowo Wykonawca oddeleguje minimum 1 pracownika do nadzoru nad pracami prowadzonymi przez Wykonawcę na terenie Zamawiającego
2. Wykonawca gwarantuje:
  - a. dobrą jakość prac wykonywanych przez swoich pracowników
  - b. odpowiednią wydajność pracy
  - c. podporządkowanie się pracownikom Wykonawcy wszelkim przepisom, normom i zasadom obowiązującym na terytorium Rzeczypospolitej Polskiej

W przypadku niespełnienia któregokolwiek z ww. punktów przez pracowników Wykonawcy Zamawiający ma prawo do:

- a. żądania zadośćuczynienia
  - b. żądania przysłania innego pracownika na koszt Wykonawcy
  - c. odstąpienia od Umowy, bez zachowania okresu wypowiedzenia.
3. Nieuzasadnione przekroczenia zużycia ilościowego i asortymentowego materiałów obciąża finansowo Wykonawcę.
  4. Wykonawca od momentu przekazania materiałów, jak również udostępnienia mienia Zamawiającego, Zlecającego lub osób trzecich, do czasu odbioru prac lub zdania mienia ponosi pełną odpowiedzialność materialną za ich uszkodzenie, zagubienie lub zniszczenie wynikłe tylko z winy Wykonawcy.
  5. W przypadku niespełnienia wymogów jakościowych i terminowych przez pracowników Wykonawcy, wynikłych z winy Wykonawcy, Zamawiający zastrzega sobie prawo do odstąpienia od Umowy bez zachowania okresu wypowiedzenia.
  6. Kierownicy remontu, kierownicy wydziałowi, mistrzowie, inspektorzy Bhp i ppoż. i inni uprawnieni przez Zamawiającego lub Zlecającego mają prawo do kontroli pracowników Wykonawcy pod względem przestrzegania przepisów, norm i zasad:
    - a. prawnych obowiązujących w Polsce
    - b. przepisów Bhp i ppoż.
    - c. współżycia społecznego

Przedstawiciele wyznaczeni do ww. kontroli są uprawnieni do wydawania wskazówek dotyczących respektowania ww. przepisów. W przypadku nie podporządkowania się pracowników Wykonawcy ww. zaleceniom Zamawiający ma prawo do odesłania pracownika łamiącego przepisy do Wykonawcy a nawet ma prawo do odstąpienia od niniejszej Umowy bez zachowania okresu wypowiedzenia. Prawo do odesłania pracownika do Wykonawcy przysługuje również w przypadku niespełnienia przez Wykonawcę gwarancji omówionych w punkcie 2 niniejszego paragrafu.

7. Zamawiający nie ponosi winy za zdarzenia (w tym wypadki) zaistniałe przy pracy pracowników Wykonawcy, wynikłe z nieprzestrzegania stosownych przepisów.
8. Wykonawca pokryje wszelkie szkody osobowe i majątkowe spowodowane przez swoich pracowników osobom trzecim i Zamawiającemu.

#### § 6 Czas trwania Umowy

1. Umowa zostaje zawarta na czas określony od [REDACTED]
2. Zamawiającemu przysługuje prawo do wcześniejszego rozwiązania niniejszej Umowy z 3-miesięcznym okresem wypowiedzenia.
3. W przypadku naruszenia postanowień Umowy Zamawiającemu, tak jak i Wykonawcy przysługuje prawo do odstąpienia od Umowy ze skutkiem natychmiastowym.
4. Przy rozwiązaniu Umowy wymaga się pisemnego powiadomienia drugiej strony z miesięcznym wyprzedzeniem.

#### § 7 Warunki płatności

1. Wykonanie prac zapisuje się w protokole prac wykonywanych, co miesiąc zgodnie z postępowaniem wykonywanych prac. Obliczenia wykonuje się co miesiąc.
2. Wartość prac ujętych w kontrakcie uwzględnia wynagrodzenie Wykonawcy i wszystkie jego koszty związane z wykonaniem tej Umowy: utrzymywanie pracowników, koszt prac itd., jak również wszystkie podatki i opłaty obowiązkowe do zapłacenia przez Wykonawcę.

#### § 8 Postanowienia końcowe

1. Do wykonania Umowy i rozstrzygania sporów z nią związanych oraz w sprawach nieuregulowanych niniejszą Umową mają zastosowanie przepisy prawa polskiego.
2. Wszelkie spory wynikłe w trakcie realizacji Umowy rozstrzygać będzie Sąd Powszechny w Gdańsku
3. Wszelkie zmiany do niniejszej Umowy mogą być wprowadzone w formie aneksu pod rygorem nieważności.
4. Strony nie ponoszą odpowiedzialności za częściowe lub całkowite niewykonanie zobowiązań Umowy, jeżeli to niewykonanie nastąpiło na skutek okoliczności siły wyższej.

Za okoliczności siły wyższej poczytuje się okoliczności, które powstały po zawarciu Umowy, na skutek nieprzewidzianych przez Stronę zdarzeń o charakterze nadzwyczajnym, jak: wojnę, klęski żywiołowe, strajki oraz działania rządowe i administracyjne uniemożliwiające wykonanie zobowiązań Umowy.

Strona dotknięta siłą wyższą niezwłocznie powiadomi na piśmie drugą Stronę o zaistniałym przypadku siły wyższej. Świadczeniem wystąpienia okoliczności siły wyższej i okresu jej trwania będzie dokument Izby Handlowej Kraju Strony powołującej się na te okoliczności.

Jeżeli na skutek wystąpienia siły wyższej lub innej nieprzewidzianej przez strony sytuacji wykonanie Umowy byłoby prawnie lub faktycznie niemożliwe, to każda ze Stron będzie uprawniona do zawieszenia wykonania niniejszej Umowy.

W takim wypadku Strony w terminie dwóch tygodni podejmą decyzję co do dalszego obowiązywania Umowy lub odstąpienia od Umowy.

W przypadku gdyby okoliczność siły wyższej trwała dłużej niż 30 dni, każda ze Stron będzie miała prawo do rozwiązania niniejszej Umowy z 2-tygodniowym wyprzedzeniem.

2. The work shall be carried out at the units on the basis of the documentation submitted and in accordance with mandatory standards and regulations.
3. The work shall be supervised by representatives of the Employer or by persons appointed by the Employer, together with a representative of the Contractor.
4. The Contractor undertakes to carry out the work commissioned in accordance with the necessary technology and in compliance with the health and safety and fire safety requirements and regulations.

#### Article 3 Agreed price

1. The Employer shall pay the Contractor for the work carried out solely in accordance with an agreed rate, provided that the Employer and the Commissioning Party accept the scope of the work carried out by the Contractor without restrictions, and that this is also confirmed in the acceptance report signed by the Contractor and the Employer, according to the conditions described below.
2. In the case of work to be paid by the hour, the rate shall be **[redacted]** Polish zloty per working hour.

#### Article 4 Supervision and coordination of work

1. The work shall be carried out on the basis of provision by the Employer of:
  - (a) Technical and technological documentation;
  - (b) An indicative list of hulls received;
  - (c) An indicative list of technology for the repair and construction of the hulls of specific units;
  - (d) A welding inspection schedule;
  - (e) A tightness test schedule;
  - (f) A work acceptance log;
  - (g) Instructions for the supervision of the Employer.

#### 5. Article 5 Obligations of the Contractor

1. To comply with the Agreement in accordance with the mandatory legal procedure for the employment of foreign nationals, the Contractor shall send to the Employer's headquarters qualified welding workers who have:
  - (a) Relevant qualifications and skills;

- 
- (b) Shipbuilding experience;
  - (c) In addition, the Contractor shall assign at least one worker to supervise the work carried out by the Contractor at the site of the Employer.
2. The Contractor shall guarantee:
- (a) The good quality of the work carried out by its workers;
  - (b) Reasonable labour productivity;
  - (c) The compliance of the Contractor's workers with all rules, regulations, and standards mandatory in Poland.

Should any of the above-mentioned points not be observed by the Contractor's workers, the Employer shall have the right to:

- (a) Demand compensation;
  - (b) Demand that another worker be assigned, at the Contractor's own expense;
  - (c) Withdraw from the Agreement without prior notice.
3. The Contractor shall be financially liable for unjustifiable excesses in the variety and quantity of materials used.
4. From the moment that materials are delivered and the property of the Employer, the Commissioning Party or any third parties is made available, until the moment when the work is accepted or the property is returned, the Contractor shall bear full material liability for any damage, loss or destruction arising solely from a fault of the Contractor.
5. If the quality and deadline requirements are not met by the Contractor's workers, and the Contractor is at fault, the Employer reserves the right to withdraw from the Agreement without prior notice.
6. Repair foremen, heads of departments, experts, as well as health and safety and fire safety inspectors and other persons authorized by the Employer or the Commissioning Party shall have the right to monitor compliance by the Contractor's workers with the following rules, regulations and standards:
- (a) Legal obligations in Poland;
  - (b) Health and safety and fire regulations;

(c) Harmonious relations between workers.

6. Persons designated to conduct the inspections mentioned above are authorized to issue advice regarding compliance with the above-mentioned regulations. If the Contractor's workers fail to comply with this guidance, the Employer shall have the right to send any worker who violates the regulations back to the Contractor and even to withdraw from the present Agreement without prior notice. The right to send the worker back to the Contractor shall also apply if the guarantees set out in paragraph 2 of this article are not honoured.

7. The Employer shall not be liable for events (including accidents) which occur as a result of a failure to observe the relevant regulations while the Contractor's workers are working.

8. The Contractor shall cover the cost to third parties or to the Employer for all damage to persons and property caused by the Contractor's workers.

#### 7. Article 6 Duration of the Agreement

1. The Agreement has been concluded for a fixed period from **[redacted]**.
2. The Employer has the right to terminate the present Agreement subject to three months' notice.
3. If the provisions of the Agreement are violated, both the Employer and the Contractor shall have the right to withdraw from the Agreement with immediate effect.
4. Termination of the Agreement shall require one month's written notice to be served on the other Party.

#### 8. Article 7 Terms of payment

1. The execution of works shall be noted in the work log every month as the work progresses. The calculations shall be made every month.
2. The value of the work included in the contract shall take into account the remuneration of the Contractor and all of the Contractor's costs relating to the execution of this Agreement: the maintenance of the workers, the cost of the work, etc. and also all mandatory taxes and charges to be paid by the Contractor.

#### 9. Article 8 Final provisions

1. For the execution of this Agreement and the settlement of disputes relating thereto and of any matters not regulated by the present Agreement, the provisions of Polish law shall apply.
2. All disputes arising during the execution of this Agreement shall be settled by the Court of General Jurisdiction in Gdańsk.

3. Any amendments to the present Agreement must be made in the form of an annex in order to be deemed valid.
4. The Parties shall bear no responsibility for a partial or total failure to execute the obligations of the Agreement if such non-execution is attributable to force majeure events.

Force majeure events are deemed to be those arising after the conclusion of the Agreement as a result of events of an extraordinary nature which are unforeseeable for either Party, such as: war, natural disasters, strikes or governmental or administrative actions which make it impossible to perform the obligations of the Agreement.

A Party affected by force majeure events shall immediately inform the other Party in writing of the occurrence of the force majeure event. A document from the Chamber of Commerce of the country of the Party invoking force majeure circumstances shall attest to the occurrence of the force majeure incident and its duration.

If, as a result of the occurrence of force majeure events or some other situation which is not foreseen by the Parties, the execution of the Agreement should prove legally or effectively impossible, both Parties shall be entitled to suspend the execution of the present Agreement.

In such case, the Parties shall take a decision within two weeks as to whether they shall continue to be bound by the Agreement or to withdraw from it.

Should the situation of force majeure last for more than 30 days, both Parties shall have the right to terminate the present Agreement with two weeks' notice.

## Annex 9-7: Egypt letter to the Panel of 2 September 2016

نص الرد

- ١- الشركة العربية العالمية للبصريات لا علاقة لها بتلك الصفقة، وليس لها أي علاقة بالشركتين الكوريتين الشمالييتين المذكورتين بخطاب فريق الخبراء .
- ٢- تشابه اسم الشركتين الوارد بخطاب فريق الخبراء لا يعني تطابقهما (similar but not identical)، فضلاً عن أن البيانات (العنوان / رقم الهاتف / رقم الفاكس) ذات الصلة بـ "الشركة العربية العالمية للبصريات" متوافرة على شبكة المعلومات الدولية، أي إنها متاحة للجميع.

*Translated from Arabic*

**Reply**

1. The company Arab International Optronics has no connection with that transaction, and has no connection with the two North Korean companies mentioned in the memorandum from the Panel of Experts.
2. The fact that the names of the companies mentioned in the memorandum from the Panel of Experts are similar does not mean that they are identical. Moreover, the information regarding the company Arab International Optronics (address, telephone number and fax number) can be found on the Internet, and is therefore available to anyone.

**RE : TRAVELING ALLOWANCE EXCHANGE**

Dear Sir/Madam,

We, Mansudae Overseas Project Group of Companies registered and trading as M.O.P Arch & Tech Services Ltd in the Law of the Republic of Namibia, are undertaking the construction of New Ministry of Defence Headquarter in Swakopmund according to the agreement between August 26 Holding Company (pty) Ltd on behalf of Ministry of Defence and our company on December 14, 2011. The said construction shall be completed by December 14, 2018. Some members of our company shall leave on Jan 26th, 2015 due to the expiry of their work. Hereby, I kindly request you to facilitate us to exchange 20,000.00US\$ per person for their traveling allowance. The copies of the passports of the 14 passengers shall be attached herewith for your reference.

Your kind support & cooperation shall be highly appreciated.

Sincerely,

Mr. Kim Jong Chol  
Managing Director  
M.O.P Arch & Tech Services Ltd

Registered Bank Reg. No. 2002/0160

APPLICATION

Branch: Commercial / 281972

Reference: T.N.A

20/2015

The Manager, Exchange Control Division  
Bank of Namibia, Windhoek

27 January 2015

Applicant and domicile: M.O.P Architectural & Technical Services Pty Ltd  
(Reg. No 2001/044) - Namibia

Amount: Foreign/Namibia: USD 280,000.00 (Approx. NAD 3,305,792.00)

Beneficiary and domicile: Applicant

Purpose: Permission to avail of omnibus facilities.

Previous correspondence: 239/2012 & 59/2013 - Related

Reference is made to the above captioned ECA's and the Control's reply thereto.

The applicant approached our branch seeking the Control's urgent approval to avail of omnibus travel facilities amounting to USD 280,000.00 to their foreign expatriates returning home to the Democratic People's Republic of Korea.

The applicant advised they require USD 20,000.00 cash notes to be paid to each of the fourteen travelling expatriates.

We await the Control's favourable reply.

**Subject:** Re: RE: RE: Customer Support - Engineer Training for Reassembly Team - PAL Factory

Hello S [REDACTED]

now the aircraft in North Korea the lasted news from BGAC market people: the flap motor could not work now.

1) Chinese engineer could not to maintain that aircraft without qualified maintenance engineer followed.(before, the engineer from Shandong followed our work. but they could not go to North Korea)

2) the montor did not deliver to us now.

3) please prepare the materials and special tools for this work, BPAT's purchase procedure is longer now, it is difficult to promise the aircraft requirement now.

4) others doubts from customer about engineer oil and hydraulic fluid check and maintenance, we have check the MM and deliver to them. could you check the maintenance engineer training for this new customer. I think they should been trained ASAP for this aircaft operating.

for you as reference.

thank you very much.

Hello [REDACTED]

We have extensively researched the problem, the flap issue is definitely [REDACTED] related and have checked the material used in the [REDACTED] and find that [REDACTED]

Initially we need to coat [REDACTED] with [REDACTED] and suggest the engineers at BPAT remove the [REDACTED] one at a time soak for few minutes [REDACTED] or similar then reinstall. Longer term we will have our design department review and change to an improved [REDACTED]

**Subject:** RE: RE: RE: Customer Support - Engineer Training for Reassembly Team - PAL Factory

Hello All

Thanks for your email below and my apologies for the slow response.

Possibly a slight misunderstanding here, as ██████████ is not able to travel to North Korea to undertake the replacement of the flap motor on XL199.

We are planning for ██████████ to deliver training on how to replace the flap motor and he will provide the necessary tools for one of the BGAC reassembly team to be able to replace the flap motor in North Korea.

In order for this work to be certified and signed-off, Mr ██████████ from SDGA will need to accompany the BGAC engineer to North Korea and sign the log book entries.

██████████ departs for China tomorrow and will co-ordinate with the you to deliver the training in how to replace the flap motor.

**Annex 13-5: DGS Marine/British European & Overseas Protection and Indemnity insurance (P&I)**

Until July 2012 DGS Marine was a Liechtenstein-registered offshore business company located at a fiduciary's office in Vaduz. Following June 2012 media reports that DGS's director, David Skinner had issued insurance certificates for Iranian-owned oil tankers transporting oil from Syria allegedly in contravention of European Union sanctions,<sup>2</sup> the Liechtenstein Financial Authority issued a July 2012 warning notice stating that DGS Marine was not licensed to issue insurance in Liechtenstein.<sup>3</sup> Following the Liechtenstein warning notice, Mr. Skinner registered DGS Marine as a BVI business company in August 2012. The Panel was able to confirm that DGS Marine was not licensed or authorized to issue insurance in the BVI either.<sup>4</sup>

In addition, the 2009 DGS Marine annual report contained false information regarding the identity of an individual described as DGS Marine's "independent auditor" calling into question the certification of DGS Marine's annual financial statements. DGS Marine did not respond to the Panel's enquiries and during the course of the Panel's investigation the death of Mr. Skinner was announced and shortly afterwards the DGS website was shut down. Media reporting subsequently indicated that DGS Marine was an elaborate insurance scam that while maintaining offices in the United Kingdom, Cyprus, Denmark, Vietnam, India, China and the United Arab Emirates did not possess the millions of pounds in securities alleged in its annual reports.<sup>5</sup>

**LETTER OF INVITATION**

Date: 19<sup>th</sup> March 2010

To: Government Garage Center  
Att: Col. Woldu G/Yesus

Dear Sir: 

We are delighted to issue an official invitation to your delegation headed by Mr. Tzahaye Mokonen Zerom.

We are planning to receive your delegation for 1-week period during April 2010. We hope that your visit would be of great importance in starting substantial co-operation between two sides.

All of your visa will be prepared at Pyongyang Airport.

We will send necessary information for arranging your flight schedule.

Sincerely Yours.

Ri Hak Chol 

President/GPA

## Annex 14-16: US court indictment document on KIM Song IL and comparison of Mr. Kim's signatures

IN THE UNITED STATES DISTRICT COURT DISTRICT OF UTAH, CENTRAL DIVISION	
UNITED STATES OF AMERICA,  Plaintiff,  vs.  KIM SONG IL,  Defendant.	Case No. 2 :15 CR 417 DB  STATEMENT BY DEFENDANT IN ADVANCE OF PLEA OF GUILTY AND PLEA AGREEMENT PURSUANT TO FED. R. CRIM. P. 11(e)(1)(C)  Judge Dee Benson
<p>I hereby acknowledge and certify that I have been advised of and that I understand the following facts and rights, and that I have had the assistance of counsel in reviewing, explaining, and entering into this agreement:</p> <p>1. As part of this agreement with the United States, I intend to plead guilty to Count 1 of the Indictment. My attorney has explained the nature of the charge against me, and I have had an opportunity to discuss the nature of the charge with my attorney. I understand the charge and what the government is required to prove in order to convict me. The elements of Count 1, a violation of the Arms Export Control Act at 22 U.S.C. 2778(c) are:</p> <div style="border: 1px solid red; padding: 5px;"> <p>1) That the defendant did willfully attempt to export from the United States;</p> <p>2) Defense articles listed on the United States Munitions list;</p> <p>3) Without having first obtained a license or written consent from the Department</p> </div> <p>7. My decision to enter this plea was made after full and careful thought; with the advice of counsel; and with a full understanding of my rights, the facts and circumstances of the case and the consequences of the plea. I was not under the influence of any drugs, medication, or intoxicants when I made the decision to enter the plea, and I am not now under the influence of any drugs, medication, or intoxicants.</p> <p>8. I have no mental reservations concerning the plea.</p> <p>9. I understand and agree to all of the above. I know that I am free to change or delete anything contained in this statement. I do not wish to make changes to this agreement because I agree with the terms and all of the statements are correct.</p> <p>DATED this <u>9<sup>th</sup></u> day of <u>December</u>, <u>2015</u>.</p> <div style="border: 1px solid red; padding: 5px; text-align: center;">             KIM SONG IL            Defendant         </div>	
<p><b>身份證明 Identification</b></p> <p>a 香港身份證號碼 Hong Kong Identity Card Number <span style="border: 1px solid black; padding: 2px 20px;">N/A</span></p> <p>b 護照 Passport <span style="border: 1px solid black; padding: 2px 20px;">Kingdom Of Cambodia</span> <span style="border: 1px solid black; padding: 2px 20px;">N0630354</span></p> <p style="text-align: center;"><small>簽發國家 Issuing Country      號碼 Number</small></p> <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p style="text-align: center;"><b>提示 Advisory Note</b></p> <p>所有公司董事均應閱讀公司註冊處編製的《有關董事責任的非法定指引》的最新版本，並熟悉該指引所概述的董事一般責任。  <b>All directors of the company are advised to read the latest version of the 'Non-Statutory Guidelines on Directors' Duties' published by the Companies Registry and acquaint themselves with the general duties of directors outlined in the Guidelines.</b></p> </div> <p><b>出任董事職位同意書 Consent to Act as Director</b></p> <p>本人同意在公司成立為法團時出任其董事，並確認本人已年滿 18 歲。  <b>I consent to act as a director of the company on its incorporation and confirm that I have attained the age of 18 years.</b></p> <p>簽署 Signed: <span style="border: 1px solid red; padding: 2px 20px;">  </span></p>

## Annex 14-24: Saeng Pil Trading Corporation's brochure

**COMPANY PROFILE**

**SAENG PIL TRADING Co.**

**SPTC**

**COMPANY'S INTRODUCTION**

Saeng Pil Trading Co. SPTC is the leading and well organized company with 100% equity held by the Government, established in 1965 to engage mostly in building the vessels of advancing technology applications. Being a full fledged builder and fabricator of steel, aluminum and composite material crafts and vessels, our scope of work includes not only shipbuilding & construction but also consultancy, design, fabrication and installation of machinery, electrical, electronics, communication and marine navigation equipment.

In the beginning, SPTC undertook contracting of naval crafts as well as sea going vessels both of classic design and performance, from which it gained invaluable experience. All works were completed on time, meeting the specifications and satisfaction of clients.

SPTC rapidly established its reputation as a capable and reliable quality builder of naval crafts and sea going vessels. Its proven record in designing, building and delivery has enabled SPTC to expand into more challenging projects.

SPTC incorporates 5 shipyards on the west and east coasts, 2 R&D institutes and 2 factories of naval equipment, enjoying a great deal of orders from the foreign clients mainly in SE Asia and Middle East, Africa, Latin America.

Total employment reaches to some 1,500 personnel, more than 1/6 of its manpower account for scientists and technicians.

Another important aspect of SPTC's expertise covers the production of highly skilled and state-of-art electronic warfare systems, including navigation equipment and communication system.

**Annex 14-36: KIEC brochure with PITF's purposes and its role in the Fair**

KIEC has been registered as an official member of Bureau des International Expositions(BIE) on Nov 19, 2007.

Today PITF is ensuring the wide-ranging and many-sided commodity & technical exchanges, marketing and investment attraction through the advertisement of companies & commodities, trading consultations, symposium on the investment and joint venture policy of DPRK and tours etc.

Especially, before and after the fair, KIEC publishes exhibitors' profile, contact details, and items of interest in local network so as to promote continuous business between enterprises.

PITF holding amid worldwide concern will be further expanded and developed into an assemblage of international trade to strengthen friendship, cooperation and unity between countries and develop economic relations between them, and will creditably perform its mission as a centre of contributing to the development of science & technology and foreign trade of the country.

**Annex 14-40: State media and academic articles with the highlighting the high demand for CNC machinery at the Fair**

생산된 공작기계들은 국내뿐아니라 대외에도 널리 수출되고있다.

Source: Naenara at [http://naenara.com.kp/ko/book/new\\_window.php?10+10141+28](http://naenara.com.kp/ko/book/new_window.php?10+10141+28)

(Articles of Kim Il Sung University posted on June 2011)

오늘 우리 나라에서 CNC기술은 신비한 기술이 아니며 그를 대대적으로 보급할수 있는 자체의 과학기술력량도 이미 준비되어 있다. 현대과학기술에 기초한 우리 공업의 위력의 산물인 련하기계설비들은 지금 발전되었다고 하는 나라들의 기계제품들과 나란히 국제시장에도 당당히 진출하고있다. 2009년 평양에서 진행된 제5차 가을철국제상품전람회에 참가한 수많은 외국인들은 련하기계공장에서 만든 CNC설비들인 수직가공중심반 RV-35와 선반RT-125를 보고 저저마다 그 제품을 경쟁적으로 요구하였다. 유럽의 한 회사사장은 《조선에서 이런 기계설비를 생산한다니 도무지 믿어지지 않는다, 성능이 대단히 좋다, 련하기계설비납입을 자기가 직접 나서서 실현시키겠다.》고 하였으며 네델란드의 한 회사성원은 조선의 과학기술력량이 막강하다, 조선은 국제시장진출능력이 매우 크다, 이런 수준이면 국제시장에 나가서도 능히 다른 나라 제품들을 압도할수 있다, 우리 회사와 협력하여 국제컴퓨터프로그래밍장을 장악하면 좋겠다고 련속 감탄과 찬사를 아끼지 않았다.

지금 우리 조국땅 그 어디에서나 《돌파하라 최첨단을》의 노래가 시대의 전군가마냥 높이 울려 퍼지고있으며 CNC화의 불길은 군수분야에서뿐아니라 민수분야에서도, 기계공업부문뿐아니라 금속공업과 화학공업, 경공업과 농업을 비롯한 인민경제 모든 부문에서 세차게 타고르고있다.

앞으로도 우리 공업의 CNC화는 더욱 본격적으로 추진될것이다.

Annex 14-41: Romanian company’s homepage with its “High Vacuum Furnaces”, “Electron Beam Welding System” showing its application for nuclear engineering and air/space technology

## Electron Beam Welding System

**EBW 25/60 - 4D equipments are a universal machines for electron beam technology. The mechanical and electrical components are made up of a system of modules and can, therefore, be easily adapted to the various processing requirements. A high operating convenience and the great selection of additional facilities make chamber machines flexible machine tools for complex welding operations.**

**Fields of application for EBW-machines**

- air and space technology
- jet and auto engine manufacturing
- nuclear engineering
- automobile industry and mechanical parts
- chemical apparatus engineering
- application laboratories (welding tech.)

**Basic components of EBW equipments**

- EB-generator and vacuum turbopump,
- vacuum chamber and vacuum station; roughing and turbopump system,
- XY-table, Rotary / Tilt / Z Motion Systems,
- hardware and software solution for control; Automatic or Manual Operation or a Combination

**Advantages of EBW Technologies**

- deep penetration welding effect,
- least heat/energy input into the parts and minimum part distortion,
- welding of different materials,
- high welding speed,
- high process assurance,

- viewing systems: light-optical, electronoptical and video-viewing system
- high-voltage power supplies; Fast Response, Closed Loop Beam Current Control
- Data Acquisition System (option)

**ADVTECH** not only advises you regarding a suitable electron beam machine type, but can suggest entire system concepts, and develop solutions for integrating the system in the production chain. The design of an electron beam system is based on the manufacturing requirements. Smart solutions for securing and moving the work pieces contribute decisively to optimizing cycle time.

### HIGH VACUUM FURNACES

**C 500 Series**

The **C 500** is a series of furnaces specially designed and developed for high vacuum degassing of mechanical components or materials that require this procedure and which are compatible with vacuum processing and without critical cooling requirements.

**C 500 Series variants and sizes;**  
**C 500/1** - single vacuum chamber modul  
 - useful volume:  $\Phi = 400 \dots 1200$  mm, L = 1000 ... 3000 mm, or on request,  
**C 500/2** - double vacuum chamber with one or two vacuum units,  
 - useful volume:  $\Phi = 400 \dots 1200$  mm, L = 3000 ... 7000 mm, or on request,  
 Both variants, depending on the type of charge, we can design and produce a special car-bottom loaders.  
*If decouples the two modules of a C 500/2 furnace and install an additional mechanized front door, which includes specialized support, two ovens C 500/1 are obtained, which can operate independently.*

**Main technical parameters:**

- vacuum level\*  $\leq 5 \times 10^{-6}$  mbar with vacuum oil diffusion pump
- degassing temperature - maximum 500 °C
- homogeneity of  $\pm 0.5$  °C over 250 - 450 °C range
- cooling - naturally, up to 10 mbar (or other pressure settable) after the furnace is pressurized - cooling speed is limited by the thermal inertia of the oven,
- injection of inert gases, cooled and recirculated - recommended at temperatures below 150 °C

\* - ultimate vacuum for a degassing vacuum furnace

**C 500/2 - High Vacuum Furnace 600x7000**

**C 750 Series**

The **C 750** is a series of furnaces specially designed and developed for main low-temperature heat treatments in high vacuum conditions. These furnaces are particularly well suited to inert gas convection treatments after vacuum purge such as: tempering, annealing, stress relieving ... customized for specific application needs.

**Main technical parameters:**

- vacuum level  $\leq 5 \times 10^{-6}$  mbar with vacuum oil diffusion pump
- heat treatments temperature - maximum 750 °C
- homogeneity of  $\pm 0.5$  °C over 250 - 650 °C range
- inert gas cooling, pressure max 1.2 bara

**C 750 Series variants and sizes;**  
 Only **C 750/1** - single vacuum chamber modul  
 - useful volume:  $\Phi = 350 \dots 1000$  mm,  
 L = 800 ... 2800 mm, or on request,

**C 500 and C 750 Series High Vacuum Furnaces** are assisted by a specialized software application, that ensures the operation of equipment, and compliance diagrams temperature - time or temperature - pressure that have been set; pressure or time being selected parameters.

**Annex 14-42: The Nuclear Suppliers Group (NSG)'s control list of vacuum furnaces and related equipment**

1.B.7. Vacuum or other controlled atmosphere metallurgical melting and casting furnaces and related equipment, as follows:

- a. Arc remelt and casting furnaces having both of the following characteristics:  
1-8

NSG Part 2  
June 2013

1. Consumable electrode capacities between 1000 and 20000 cm<sup>3</sup>; and
  2. Capable of operating with melting temperatures above 1973 K (1700 °C);
- b. Electron beam melting furnaces and plasma atomization and melting furnaces, having both of the following characteristics:
1. A power of 50 kW or greater; and
  2. Capable of operating with melting temperatures above 1473 K (1200 °C);
- c. Computer control and monitoring systems specially configured for any of the furnaces specified in Item 1.B.7.a. or 1.B.7.b.

Investment environment in Rason Economic and Trade Zone >> Finance, education and culture

An independent financial and monetary system has been established in the Zone to provide investors with advanced monetary environment.

There are the Rason Branch of the Central Bank of the DPRK which is in charge of execution of financial policy and supervision and control of financial institutions; the Golden Triangle Bank of the DPRK and the Sonbong Bank, Rason Municipality of the DPRK, local commercial banks; the Tumangang Bank, the Eastern First Bank, the Zhonghua Commercial Bank and the Rason Development Finance Bank, foreign-invested commercial banks.

According to the DPRK Law on the Rason Economic and Trade Zone, the Korean Won or a stipulated currency is used as a circulating currency and a settlement currency in the Zone.

The scale of settlement is decided without restrictions in line with the demand of investors for service and the contracts and agreements between the commercial banks in the Zone.

In the Zone there are tens of compulsory educational establishments, and such institutions of higher education as Rajin University of Marine Transport, Sonbong Agricultural University and Rajin College of Commerce.

The general technical and cultural level of residents in the Zone is very high.

The Zone has scores of medical institutions including the Rason Municipal People's Hospital for free service of its residents.

## Annex 15-5: Information on Chinese Commercial Bank (中华商业银行)

Hunchun News Network, "North Korea establishes first wholly-foreign owned China Commercial Bank", 21 January 2013

### 朝鲜首家独资银行中华商业银行成立

来源：珲春新闻网 作者：安波 时间：2013-01-21 13:47:32编辑：安波

0

[导读]朝鲜中央政府批准成立的第一家独资银行——中华商业银行正式建立，作为中朝合作前沿的罗先经济特区也正准备迎接新一轮的腾飞。中华商业银行剪彩仪式在朝鲜罗先经济特区举行，珲春副市长任璞玉出席剪彩仪式并讲话。

罗先经济特区以图们江(豆满江)为界与中国、俄罗斯为邻，并靠着朝鲜东部海域，地理位置优越。地缘相近、人缘相亲、文化相通，友好交往的历史源远流长。随着朝鲜重视经济建设以及中朝经济合作的进一步深入推进，1月18日，作为朝鲜中央政府批准成立的第一家独资银行——中华商业银行正式建立，标志着中朝合作前沿的罗先经济特区也正准备迎接新一轮的腾飞。

珲春副市长任璞玉出席剪彩仪式并讲话。任璞玉指出，中华商业银行的建立，是落实中朝两国政府《关于共同开发、共同管理罗先经济互贸区协议》的重要举措，是服务中、朝两国金融合作，贸易往来的桥梁和纽带，为今后更好的促进中朝、两国的经贸往来和经济繁荣，必将发挥积极作用。

据了解，中华商业银行由中国金贸易货交易所（大连）有限公司筹备建立。银行主营人民币结算业务，为人民币跨境业务办理信用证、汇票、保函和担保，办理存款贷款、金融理财等业务。中华商业银行建立的宗旨是为了适应当前中、朝经济贸易大发展的需求和中朝两国签订的《关于共同开发并管理罗先经济贸易地带和黄金坪经济地带的总体计划纲要》的需求，为中、朝两国的经济贸易发展起到桥梁和纽带的作用，服务于中、朝两国的经济贸易，并为之保驾护航。

### 君领控股收购朝鲜中华银行

发布时间: 2013-9-11 7:36:50 被阅览数: 1054 次

据报道, 8月23日, (北京) 君领控股收购朝鲜中华商业银行60%的股权, 成为第一家控股海外银行的中国民营企业。

为收购朝鲜中华商业银行, 君领控股投入近一亿美元。股权转让完成后, 原中华商业银行将更换法人代表和董事长。除在中朝罗先开发区开展业务外, 还将在朝鲜首都平壤设立分支机构。

君领控股的股权收购, 为民营企业进军海外金融市场开创了先例, 中国的大型企业到海外发展尤其是发展金融业务, 往往受制于对方对中资企业背景的考量, 而纯粹的民营资本则 更受海外市场的青睐。另一方面, 对于拓展海外金融市场, 中资企业往往更喜欢将目光放在纽约、伦敦等欧美发达地区, 而君领控股此次的收购举动告诉我们可以将目光放在其他地区。”

君领控股董事长李东说: “收购朝鲜中华商业银行, 拉开了中国民营资本进军海外市场的序幕, 同时也承载着君领进军海外金融业的光荣与梦想!” 银行业内分析人士在接受记者采访时表示: “君领控股收购中华商业银行具有相当积极的意义。

中华商业银行是朝鲜首家外商独资银行, 是服务中朝两国金融合作, 贸易往来的桥梁和纽带, 为今后更好地促进中朝两国经贸往来和经济繁荣, 必将发挥积极作用。此次君领控股与中华商业银行合作, 更是中国民营资本进军海外市场的里程碑事件, 同时也是君领控股做“新金融服务专家”的跨国理念体现。

中华商业银行董事长曹祝利先生、董事王建禄先生出席会议。

Korea Chongsong Mining Company [2016-12-03]

Korea Chongsong Mining Company

Established in January Juche 104 (2015), this company gives priority to the credit-first principle.

It invests in high-grade coal production and the modernization of fish farming and mushroom cultivation.

It satisfies the needs of customers as it keeps the principle of correctness, promptness and convenience.

It is affiliated by the Kumgyo International Commercial Bank and Chonggwang Shop.

As a bank run jointly by China Inner Mongolia Hongyuan International Trade Corporation. Ltd, it has its counterparts at home as well as in Russia, China and other countries.

The Chonggwang Shop, located in Mirae Scientists Street, Pyongyang, deals in various kinds of garments, household electronic appliances, sports and physical exercise facilities and groceries.

It conducts brisk business transactions with foreign investors and companies.

内政改革并推新战略今年重点工作

第C4版 陕西·内蒙古商务

本报讯为深入贯彻国务院和内蒙古自治区人民政府支持对外贸易发展的系列政策, 正确应对全球经济下行压力的困境, 切实帮助自治区对外贸易企业解决经营中的实际困难, 日前, 由中国国际电子商务中心主办, 内蒙古汇豪体育文化有限公司协办的“电子商务助推外贸企业发展专题说明会”在呼和浩特成功举办。

“万代福”内蒙古企业联盟、呼和浩特市福东羊绒制品有限公司、呼和浩特市伊鸿百佳农牧科技有限公司、内蒙古国药集团公司、内蒙古蒙羊牧业有限责任公司、内蒙古泓元国际贸易有限公司、内蒙古正隆谷物食品有限公司、内蒙古山丹羊绒制品有限公司、呼和浩特市鸥际贸易有限公司、呼和浩特市蒙娜羊绒制品有限责任公司、呼和浩特市君益纺织有限责任公司、呼和浩特市雪尼特工贸有限责任公司、内蒙古艾斯凯米纺织品有限公司、内蒙古金鼎盛商贸有限责任公司等160余家企业参加会议。会议传达了国家关于支持中小型外贸企业发展政策, 介绍了“EC全球数据宝”、“Google出口易”、“信用第三方评价报告”等电子商务产品。

据了解, “EC全球数据宝”可以凭借强大的海外数据库资源, 向国内外进出口企业提供智能化、标准化的商业情报数据分析, 深度辅助企业的国际贸易业务, 提升企业国际市场上的综合竞争力; “Google出口易”旨在为外贸企业提供一站式的海外网络营销推广服务; “信用第三方评价报告”旨在为外贸企业提供信用资信服务, 帮助企业拓展国际市场, 上述电子商务产品在内蒙古进出口企业中推广应用, 将会极大的提升内蒙古对外贸易发展水平。(王妍杨志军)

## 朝鲜罗先——东大银行

2014-09-24 13:24 | 阅读: 215

东大银行：香港旺福特公司名下的东大银行是经过朝鲜中央银行特批的。

(Unofficial translation)  
First Eastern Bank, a subsidiary of Hong Kong's UNAFORTE company, was given approval by the DPRK Central Bank.

Source: [http://blog.sina.cn/dpool/blog/s/blog\\_71335df10102v8r8.html?type=-1](http://blog.sina.cn/dpool/blog/s/blog_71335df10102v8r8.html?type=-1)

## Annex 15-13: UNFORTE Information on First Eastern Bank (东大银) in Rason

朝鲜·罗先

**3. 银行优势:**

我们在一年前开了第一家东亚银行。我们的存款和贷款业务已经运作得很好了。

- 当地商家资金不一定很足，我们银行可以贷款对当地投资者
- 贷款有25%-30%的年息！

- 银行是完全独立的，不记名登记的，不受中国跟朝鲜管理，不需要向中国和朝鲜政府汇报情况！

(Unofficial translation)  
**FBank is fully independent and doesn't require proof of identity. It is not subject to the jurisdiction of China or DPRK and is not required to report to the Chinese government or the DPRK government!**

UNAFORTE

朝鲜·罗先

Full Translation:

### 3. Strengths of First Eastern Bank (FBank)

The first branch of FBank was opened a year ago. Its deposit and lending business has been in good shape.

- Local businesses may need funds, and FBank can provide loans to local investors.
- These Loans have an annual interest rate of 25% -30%!
- FBank is fully independent and doesn't require proof of identity. It is not subject to the jurisdiction of China or DPRK and is not required to report to the Chinese government or the DPRK government!

UNAFORTE

## UNAFORTE Company Introduction of First Eastern Bank in Rason

< 项目图文介绍

旺福特-东大银行

朝鲜·罗先

近年来金正恩领导朝鲜劳动党和朝鲜人民，在发展经济、改善民生等方面取得的积极进展。  
**特别是罗先作为经济特区，已经发生翻天覆地变化！**

UNAFORTE

Source: <http://mds.worldcfc.cn/index.php?c=Game&a=detail&id=1707>

Translation:

UNAFORTE – First Eastern Bank

Rason, DPRK

In recent years, the Workers' Party of Korea and the Korean people, under the leadership of Kim Jong-un, have made significant strides in developing the economy and improving people's livelihood.

In particular, profound changes have taken place in the special economic zone, Rason!

[Words in the photo]

Terminal 1 and 2 are on a 50-year lease with China.

Terminal 3 is on a 50-year lease with Russia.

UNAFORTE

## 5.管理优势:

我们在比较早的时间进入罗先，我们其中一股东3年来一直在当地经营管理所以对罗先比较熟悉。所以对当地的政策很了解，包括进出口贸易，包括招人。别人很难办成的牌照，我们很快完成！所以我们是具有中国南北方的融汇，以及中西方的背景优势！

- 我们的一个企业是在那里经营一家珠宝加工厂。我们非常熟悉贸易的地方规则和政策，包括进出口贸易，就业，许可证和许可证。
- 我们跟当地的政府关系非常好，例如开赌场牌照。该许可证是1000万人民币，但是我们可以以160万人民币办理。
- 为了发展我们的业务，我们有来自中国北方和南中国，意大利和美国的联合技术。

**(Unofficial translation)**  
**FBank is fully independent and doesn't require proof of identity. It is not subject to the jurisdiction of China or DPRK and is not required to report to the Chinese government or the DPRK government!**

### Full translation

#### 5. Managerial strengths:

We established our presence in Rason long ago. One of our shareholders has been doing business there for 3 years and knows Rason well. We therefore have profound knowledge of local policies, including those relating to import & export and employment. We are able to obtain hard-to-get operating licenses in a short timeframe! We combine networks of South and North China, as well as expertise of China and the West!

- One of our subsidiaries runs a jewellery factory in Rason. We fully understand local trading rules and policies, including those covering import and export, employment and licenses.
- We have established a very robust relationship with the local government. For example, it normally takes 10 million RMB to get a casino operating license, but we are able to get it for only 1.6 million RMB.
- In order to grow our business, we also have at our disposal a mix of techniques and technologies from North and South China, Italy and the United States. UNAFORTE

Description of First Eastern Bank in UNAFORTE Rason Vacancy announcement for assistant to Chairman of the Board in Rason

## 【吉林】港旺福特有限公司罗先工业园

		2701190000	Other coal	Powdered or non-powdered, but non-moulded
2	Iron ore	2601111000	Non-sintered iron ores and concentrates	Average grain size less than 0.8mm, calcined pyrites [fly ash] excepted
		2601112000	Non-sintered iron ores and concentrates	Average grain size not less than 0.8mm, but not greater than 6.3mm; calcined pyrites [fly ash] excepted
		2601119000	Non-sintered iron ores and concentrates with average grain size greater than 6.3mm	Calcined pyrites [fly ash] excepted
		2601120000	Sintered iron ores and concentrates	Calcined pyrites [fly ash] excepted
		2601200000	Calcined pyrites (fly ash)	
3	Pig iron	7201100010	High purity pig iron (<0.08% manganese, <0.03% phosphorus, <0.02% sulphur, <0.03% titanium content)	

		7201100090	Non-alloy pig iron, phosphorus $\leq$ 0.5% (<0.08% manganese, <0.03% phosphorus, <0.02% sulphur, <0.03% titanium content high-purity pig iron excepted)	
		7201200000	Non-alloy pig iron, by weight– >0.5% phosphorus content	
		7201500010	Non-alloy pig iron	
		7201500090	Spiegeleisen [specular pig iron]	
4	Gold	2616900001	Gold ore	Gold ore conforming to Ministry of Industry and Information Technology YS/T3004-2011 gold concentrate standard
		2616900009	Other precious-metal ores and concentrates	Only gold ore and concentrate not conforming to Ministry of Industry and Information Technology YS/T3004-2011 gold concentrate standard
5	Titanium	2614000000	Titanium ore and concentrate	
6	Vanadium	2615909090	Vanadium ore and concentrate	
7	Rare earths	2530902000	Other rare-earth metal ores	
8	Aviation gasoline [avgas]	2710121000	Motor gasoline and aviation gasoline; does not include biodiesel	Only aviation gasoline; does not include motor gasoline
	Naphtha-type aviation fuels	2710122000	Naphtha, not including biodiesel	
	Kerosene-type aviation fuels	2710191100	Aviation kerosene, not including biodiesel	

	Kerosene-type rocket fuels	2710191910	Normal paraffin (C9-C13), not including biodiesel	Only kerosene-type rocket fuels
		2710191990	Other kerosene distillates and products, not including biodiesel

<b>Zinc</b>	<b>26080000</b>	<b>Zinc ore and its refined forms</b>
	<b>Chapter 76</b>	<b>Zinc and zinc products</b>
<b>Silver</b>	<b>26161000</b>	<b>Silver ore and its refined forms</b>
	<b>7106</b>	<b>Silver (including gold- and platinum-plated silver); unforged, semi-finished and powdered forms</b>
	<b>71070000</b>	<b>Silver materials plated on non-precious-metal bases</b>
<b>Helicopters</b>	<b>88021100</b>	<b>Helicopters weighing 2 tons or less unloaded</b>
	<b>88021210</b>	<b>Helicopters weighing between 2 and 7 tons unloaded</b>
	<b>88021220</b>	<b>Helicopters weighing more than 7 tons unloaded</b>
<b>Marine vessels</b>	<b>Chapter 89</b>	<b>Ships and floating structures</b>
<b>Statuary</b>	<b>9703</b>	<b>Original sculptures in all materials</b>

3) European Union HS Codes from Council Regulation (EU) 2016/682 of 29 April 2016 concerning restrictive measures against the DPRK

Code	Description
ex 2530 90 00	Ores of the rare earth metals
ex 2612	Monazites and other ores used solely or principally for the extraction of uranium or thorium
ex 2614 00 00	Titanium ore
ex 2615 90 00	Vanadium ore
ex 2616 90 00	Gold
ex 2601	Iron ore
2701	Coal, briquettes, ovoids and similar solid fuels manufactured from coal
2702	Lignite, whether or not agglomerated, excluding jet coal
2703	Peat (including peat litter), whether or not agglomerated
2704	Coke and semi-coke of coal, of lignite or of peat, whether or not agglomerated; retort carbon
7201	Pig iron and spiegeleisen in pigs, blocks or other primary forms
7202	Ferro-alloy
7203	Ferrous products obtained by direct reduction of iron ore and other spongy ferrous products, in lumps, pellets or similar forms; iron having a minimum purity by weight of 99,94 %, in lumps, pellets or similar forms
7204 10 00	Waste and scrap of cast iron
ex 7204 30 00	Waste and scrap of tinned iron or steel
ex 7204 41	Other waste and scrap: Turnings, shavings, chips, milling waste, sawdust, filings, trimmings and stampings, whether or not in bundles
ex 7204 49	Other waste and scrap: Other
ex 7204 50 00	Other waste and scrap: Remelting scrap ingot
ex 7205 10 00	Granules
ex 7205 29 00	Powders, other than of alloy steel
ex 7206 10 00	Ingots
ex 7207	Semi-finished products of iron or non-alloy steel
ex 7208	Flat-rolled products of iron or non-alloy steel, of a width of 600 mm or more, hot-rolled, not clad, plated or coated
ex 7209	Flat-rolled products of iron or non-alloy steel, of a width of 600 mm or more, cold-rolled (cold-reduced), not clad, plated or coated
ex 7210	Flat-rolled products of iron or non-alloy steel, of a width of 600 mm or more, clad, plated or coated
ex 7211	Flat-rolled products of iron or non-alloy steel, of a width of less than 600 mm, not clad, plated or coated
ex 7212	Flat-rolled products of iron or non-alloy steel, of a width of less than 600 mm, clad, plated or coated
ex 7214	Other bars and rods of iron or non-alloy steel, not further worked than forged, hot-rolled, hot-drawn or hot-extruded, but including those twisted after rolling
ex 7215	Other bars and rods of iron or non-alloy steel
ex 7216	Angles, shapes and sections of iron or non-alloy steel
ex 7217	Wire of iron or non-alloy steel
from 2710 12 31 till 2710 12 59	Gasoline
2710 12 70	Naptha-type jet fuel
2710 19 21 00	Kerosene-type jet fuel
2710 19 25 00	Kerosene-type rocket fuel

## Annex 17-1: Entities and individuals recommended for designation

In accordance with paragraphs 27 of resolution 2094 (2013) and 43 of resolution 2270 (2016), the Panel recommends the Committee designate the following entities and individuals:

### Entities

- a) *Korea Kumsan Trading Corporation* for attempted sale of prohibited minerals and use of the DPRK Embassy for commercial activities. Alternatively, the Committee could update the sanctions list by adding Korea Kumsan as an alias of MAEI/GBAE.  
Address: Haeun 2-dong, Pyongchon District, Pyongyang City/Mangyongdae District, Pyongyang, DPRK  
Other Information:
  - Tel: 850-2-18111-8550,
  - Fax: 850-2-381-4410/4416
  - Email: mhs-ip@star-co.net.kp
  
- b) *Pan Systems Pte. Ltd. (Pyongyang branch)* for its involvement in the sales of arms and related materiel.  
A.k.a: Wonbang Trading Co.  
Address: Room 818, Pothonggang hotel, Ansan-Dong, Pyongchon district, Pyongyang, DPR Korea  
Other information:
  - Director: Ryang Su Nyo
  - Employees: Pyon Won Gun, Pae Won Chol, Ri Sin Song, Kim Sung Su, Kim Chang Hyok, Kim Pyong Chol
  - Telephone: +850-218-111 (Ext. 8636)
  
- c) *Korea Rungrado General Trading Corporation* for the sale of arms and related materiel.  
A.k.a: Rungrado Trading Corporation  
Address: Segori-dong, Pothonggang District, Pyongyang, DPRK  
Other Information:
  - Director: Pak Kyu Hong (a.k.a. Pak Gyu Hong)
  - Telephone: 850-2-18111-3818022
  - Fax: 850-2-3814507
  - Email address: rrd@co.chesin.com
  
- d) *Mansudae Overseas Project Group of Companies* for having violated the resolutions, assisting in the evasion of sanctions by providing services and assistance related to the manufacture and maintenance of arms and related materiel, working on behalf of KOMID through munition factory construction, and the transfer of bulk cash via its workers. This includes all Mansudae operations and subsidiary branches world-wide as well as the following entities:

### Mansudae in Namibia

A.k.a. MOP Architectural & Technical Services (Pty.) Ltd. (Namibia)

Address: 34 Herbst street, Ludwigsdorf, Windhoek, Namibia

Other Information:

- Managing Director: Kim Tong-Chol
- Tel: 061-271932
- Fax: 061-271873
- Email: nmop@iway.na
- P.O.B.:81229 Olympia, Windhoek, Namibia

Mansudae in Angola

A.k.a. Mansudae Group Construção Civil Publicas Ltd.  
Address: Luanda, Angola

Other Information:

- Shareholder: Kim Kwang Hyok
- Manager: Ri Won Chol
- Tel: 222-359-611,
- Fax: 222-359-611
- Email: mop.ang@nexus.ao

- e) *Korea International Exhibition Corporation* for having assisted designated entities in the evasion of sanctions through Pyongyang International Trade Fair and providing a platform to transfer, sell or supply prohibited items to or from the country.

A.k.a. KIEC; In Korean, 조선국제전람사; In Chinese, 朝鲜国际展览社  
Address: Jungsong-dong, Central District, Sungri Street, Pyongyang, DPRK

Other Information:

- Tel: +850-2-381-5926
- Fax: +850-2-381-5827; +850-2-381-4654
- Email: kiec@silibank.net.kp; kiec@silibank.com; kiec\_jonlam@126.com

- f) *Strategic Force Command* for its role in and support for the country's prohibited programme.  
A.k.a. Strategic Forces, Strategic Rocket Force, Strategic Rocket Force of the Korean People's army, and the Strategic Rocket Force Command of KPA and Strategic Force

Individuals

- g) The following individuals for their role in and support for the country's prohibited programme:

- Ri Pyong Chol*, First Vice Director of MID
- Hong Sung Mu*, Vice Director of MID
- Hong Yong Chil*, Vice Director of MID
- Kim Jong Sik*, Vice Director of MID
- Kim Rak Gyom*, Commander of SFC  
A.k.a. Kim Rak Kyom (in Korean 김락겸).

- h) *Mr. Kim Hyok Chan* as a Green Pine representative.
- Title: Secretary DPRK Embassy, Luanda, Angola
  - Passport number: 563410191
  - Date of birth: 9 June 1970
-
