<sup>a</sup> In a note verbale to the Committee dated 12 January 2018, China stipulated that the total value of its imports from the Democratic People's Republic of Korea of textiles from 11 September 2017 to 10 December 2017 was \$5,139,300.

<sup>b</sup> In a note verbale to the Committee dated 6 December 2017, the Russian Federation stated that, on 18 October 2017, 14,340 items of men's apparel were imported from the Democratic People's Republic of Korea in fulfilment of two contracts.

<sup>c</sup> In a letter to the Panel of Experts dated 8 November 2018, and in a subsequent note verbale to the Panel dated 21 June 2019, Mexico stated that the Global Trade Atlas data concerning imports by Mexico from the Democratic People's Republic of Korea during this time period were incorrect and that the correct figure was zero, as the imports recorded in the table had in fact been from a different Member State and not from the Democratic People's Republic of Korea.

3. According to Global Trade Atlas data, the Democratic People’s Republic of Korea violated the textiles import ban stipulated in paragraph 16 of resolution 2375 (2017) by exporting a total of \$101,282,544 in textiles (HS codes 50–63) to China, Ghana, India, Mexico and Thailand from October 2017 to February 2018. Mexico, however, replied to the Panel that the Global Trade Atlas data concerning imports by Mexico from DPRK are incorrect and the figure should be zero, as the imports were in fact from a different Member State. Only China and the Russian Federation reported to the Committee pursuant to paragraph 16 of resolution 2375 (2017). With regard to China, the figure reported by China to the Committee of its imports from the Democratic People’s Republic of Korea is lower than indicated in Global Trade Atlas trade data, by \$95,589,564. In order to benefit from the reporting exemption in paragraph 16 of resolution 2375 (2017), these two figures should have been comparable. In addition to its reporting of \$5,139,300 worth of textiles imported during the period, China further replied to the Panel that all its imports “went through the customs formalities within 90 days” from the adoption of resolution 2375 (2017). With regard to the Russian Federation, the Panel notes that the unit of measurement (items of textile) is different from that reflected in table 3 (United States dollars) and **recommends that future Security Council resolutions stipulate the unit of measurement to be used by Member States in their reporting to the Committee.**
