

Security Council

Distr.: General
1 February 2019

Original: English

Letter dated 31 January 2019 from the Permanent Representatives of Saudi Arabia, the United Arab Emirates and Yemen to the United Nations addressed to the President of the Security Council

We are writing on behalf of the Governments of the Republic of Yemen, the Kingdom of Saudi Arabia and the United Arab Emirates to reiterate our ongoing commitment to the agreement reached by the Government of Yemen and the Houthi militia in Stockholm and to achieving a peaceful solution to the ongoing conflict in Yemen. We also express the growing alarm of our respective Governments regarding the persistent, deliberate violations of the agreement by the Houthis and their refusal to take any meaningful steps towards its implementation, notably the redeployment of troops and the enabling of humanitarian relief flows. We call upon members of the Security Council to do everything in their power to demand that the Iran-backed Houthis comply with the terms of the Stockholm Agreement, as outlined in Security Council resolution [2451 \(2018\)](#).

In our letter to the President of the Security Council dated 15 January 2019, we stressed the need for both sides to demonstrate their commitment to putting into effect the terms of the Agreement. For our part, we continue to respect the Agreement and cooperate closely with the Special Envoy of the Secretary-General for Yemen, Martin Griffiths.

However, as a result of the ongoing failure of the Houthis to do the same, the Yemeni people are not seeing the progress that they and the members of the international community anticipated from the conclusion of the Stockholm Agreement in early December 2018.

We are deeply concerned by the Houthis' continued systematic obstruction of the important work of the Redeployment Coordination Committee. They have also failed to withdraw from the ports as agreed in Stockholm. They continue to reinforce their military positions among the civilian population of Hudaydah, including the digging of trenches and the construction of barriers. All these actions are direct violations of several provisions of the Stockholm Agreement and of Security Council resolution [2451 \(2018\)](#), in which the Council endorsed the Agreement and called upon the parties to implement it. Our Governments were outraged by the blatant attempt to intimidate the members of the Redeployment Coordination Committee when Major General Patrick Cammaert was personally targeted by insurgent fire on 17 January 2019. The Committee plays a central role in the implementation of the Stockholm Agreement, and any attack compromising the safety and security of United Nations personnel must be strongly condemned. The Coalition to Support Legitimacy in Yemen will continue to support the work of the Committee and its Chair, and the international community should demand that the Houthis do the same.

We are determined to improve the humanitarian situation for all Yemeni people in spite of significant obstacles. Although vessels cleared by the United Nations Verification and Inspection Mechanism are offloading cargo at the ports of Hudaydah and Salif, as documented in the reports of the Secretary-General on the implementation of Security Council resolution [2451 \(2018\)](#), there continues to be a shortage of relief goods for millions of people as a result of deliberate actions by the Houthis to obstruct the distribution of aid. The Houthis refused to reciprocate cross-line arrangements for the passage of a major United Nations humanitarian convoy on 29 December 2018 and blocked a convoy again on 29 January 2019.

The Houthis' callous disregard for their obligations under international humanitarian law and for the well-being of the people of Yemen was thrown into stark relief on 24 January 2019, when a mortar shell launched from Houthi-controlled territory struck a grain silo at the Red Sea Mills, the most important food storage site in Hudaydah, causing a fire that destroyed thousands of tons of grain.

The Coalition continues to strictly observe the ceasefire that entered into force on 18 December 2018. Since then, the Coalition has provided two reports to members of the Security Council on recorded ceasefire violations. In the two weeks since the submission of our most recent report, on 15 January 2019, the number of ceasefire violations has almost doubled: as at 29 January, there had been 970 recorded violations, all committed by the Houthis (see annexes I and II). These violations have led to the death of 71 Coalition forces and the wounding of 534. This is a dramatic escalation in the Houthis' attempts to derail the Stockholm Agreement.

The Coalition continues to pursue lawfully its military campaign against the Houthis outside of the area covered under the Stockholm Agreement, such as through a series of targeted air strikes against 10 military objectives on 30 January 2019. All of the targeted sites lie outside of the ceasefire area, as documented in annex III, and the goal of these operations is to apply carefully calibrated pressure and convince the Houthis to reconsider their options and begin to engage seriously in the process agreed to in Stockholm.

The Coalition believes that the Stockholm Agreement should be the beginning of a series of agreements to end the conflict in Yemen, in accordance with Security Council resolution [2216 \(2015\)](#). Naturally, should the first stage of this process falter, it would affect all subsequent steps. If the purpose and spirit of the Stockholm Agreement continue to be disregarded by one side in this conflict, the prospects for a peaceful solution will continue to remain elusive.

We renew our call upon members of Security Council to impress upon the Houthis, and their Iranian backers, that they will be held responsible if their continued failure to comply with the relevant Security Council resolutions, including resolutions [2216 \(2015\)](#) and [2451 \(2018\)](#), leads to the collapse of the Stockholm Agreement.

We would be grateful if you would arrange for the present letter and its annexes to be circulated as a document of the Security Council.
