**NATIONAL REPORT ON THE UNITED NATIONS SECURITY COUNCIL RESOLUTION 1455 (2003)**

**I. INTRODUCTION:**

Q1. Please provide a description of activities, if any, by Usama Bin Laden, Al-Qaida, the Taliban and their associates in your country and the region, as well as likely trends.

**A. Al-Qaida as a Terrorist Group has not posed any form of threat to the Gambia since the pronouncement of the operations of the group worldwide.**

**II. CONSOLIDATED LIST:**

Q2. How has the 1267 Committee's List been incorporated within your legal system and your administrative structure, including financial supervision, police, immigration control, customs and consular authorities?

**A. a) All points of entry are informed and Immigration Officers are to check; in the event of suspected cases, the National Intelligence Agency (NIA), The Gambia Police Force (GPF) and other competent authorities are invited for joint interrogation.**

**b) Our Consular Offices are advised to check against Consolidated List, when issuing visas.**

**The Central Bank of The Gambia sends the Consolidated List to Commercial Banks but all return so far.**

**c) GPF has effected the following lines of action, in respect of the resolution:**

- Generated a database on information relating to the Taliban/Al-Qaida Sanctions Regime against listed/designated individuals and entities.**
- The database is updated on regular basis and relevant information is shared between the police and Immigration Department.**
- The information is mainly used to trace the movements of the Taliban/Al-Qaida members at our official points of entry, by air, sea and land.**

Q3. Have you encountered problems with implementation with regard to the names and identifying information as currently included in the list? If so, please outline the actions that have been taken.

**A. Nil.**

Q4. Have your authorities identified inside your territory any designated individuals or entities? If so, please outline the action that has been taken.

- A. As a global concern and the Security Agencies' resolve to track down Al-Qaida activities, in collaboration with CIA, intercepted four Al-Qaida suspects at the Banjul International Airport on 8th November 2002. The four were arrested on suspicion of being linked with Al-Qaida. After a series of interrogations, two were found to have some knowledge of Al-Qaida. They were Jamil Basir, an Iraqi national and Abu Mazan El Bana a Palestinian national. They were handed over to the CIA. The other two were British nationals, namely, Abdooulah (FNU) and Wahab Basir, who were subsequently released.**

Q5. Please submit to the Committee, to the extent possible, the names of individuals or entities associated with Usama Bin Laden or members of the Taliban or Al-Qaida that have not been included in the List, unless to do so would compromise investigations or enforcement actions.

**A. Nil return.**

**The Security Agencies however continue to monitor the activities of Islamist Groups such as Hisbulah in The Gambia. The following who are presently in The Gambia, came to the notice of the security agents in 1992:**

- 1. Alhaji Fouad Hassan Khalil**
- 2. Hisham Kanafer**
- 3. Faduala Musa**
- 4. Samir Chabad**
- 5. Muhammed El Ali**

**They are engaged in the following business enterprises: Happiness Supermarket, on Kairaba Avenue, Islamic Social Institution, off Kairaba Avenue, IMEXCO Company in Banjul (junction of ECOWAS Avenue and Hill Street), established in 1997. The latter is under the management of Muhammed El Ali. Every year, the above-mentioned persons invite clerics from either Lebanon or Iran, purporting to attend Islamic ceremonies, only to find that they actually come to consolidate and debrief members about the activities of the Hisbulah Movement. Although these people are still in the country, they have not posed any security threat. They are closely being monitored and the same is true for the other Islamist organizations in the country.**

**The Security Agencies intercepted eight (8) Arab Belgians in 2003, claiming to have been on a religious errand (Marakas). They were sent out of the country as their objective was to meet members of the Marakas institution in Senegal, which had been closed down by the Senegalese Authorities.**

Q6. Have any listed individuals or entities brought a law suit or engaged in legal proceedings against your authorities for inclusion in the list? Please specify and elaborate, as appropriate.

**A. Nil.**

Q7. Have you identified any of the listed individuals as nationals or residents of your country? Do your authorities have any relevant information about them not already included in the list? If so, please provide this information to the Committee as well as similar information on listed entities, as available.

**No case yet.**

Q9. Describe the domestic legal basis to implement the asset freeze required by the resolutions; any impediments under your domestic law in this context and steps taken to address them.

**A. a) Please see the Anti-Terrorism Act, Section 17.**

**The following administrative procedures are effected:**

**Transactions in excess of \$10,000 for individuals and \$40,000 for institutions are checked and reported on by Commercial Banks. The Central Bank of The Gambia imposes penalties when institutions default in reporting.**

**In 1998, the West African States established a National Commission on the control, importation, exportation, manufacture and eradication of small arms, through a moratorium. It requires the prior approval of all member states before any state can import small and light weapons.**

Please indicate how these requirements are enforced, including the names and activities of agencies responsible for oversight.

**A. Applying the banking supervision Core Principles of the Bank for International Settlement (BIS) <Know Your Customer> and <Due Diligence> standards, the Central Bank of The Gambia requires banks in The Gambia to regularly update their records on existing customers and institute a closer monitoring of potential clients.**

**These standards help enhance their ability for proper customer identification, record keeping processes, detection and reporting of suspicious transaction. It also helps to ensure all financial institutions put in place adequate policies, procedures and practices that seek to promote high ethical and professional standards. It is believed that this would prevent the transmission of illegal funds and the channeling through our financial system of assets related to money laundering and terrorist activities.**
