## Comité del Consejo de Seguridad establecido en virtud de la resolución **1540 (2004)**

### Nota verbal de fecha 8 de mayo de 2020 dirigida a la Presidencia del Comité por la Misión Permanente de Nueva Zelania ante las Naciones Unidas

La Misión Permanente de Nueva Zelania ante las Naciones Unidas saluda atentamente a la Presidencia del Comité del Consejo de Seguridad establecido en virtud de la resolución **1540 (2004)** y tiene el honor de transmitir adjuntos el informe y la matriz<sup>1</sup> en que se describen las medidas adoptadas por Nueva Zelania en virtud de la resolución **1540 (2004)** del Consejo de Seguridad (véase el anexo).

La Misión Permanente de Nueva Zelania ante las Naciones Unidas también tiene el honor de comunicar que en la matriz hace referencia voluntariamente al Tratado sobre la Prohibición de las Armas Nucleares, que Nueva Zelania ha firmado y ratificado.

La Misión Permanente de Nueva Zelania ante las Naciones Unidas quisiera sugerir al Comité que considere la posibilidad de incluir en adelante una entrada para el Tratado sobre la Prohibición de las Armas Nucleares en la matriz de presentación de información.

---

<sup>1</sup> Se acordó con el Comité que la matriz remitida por Nueva Zelania se publicaría solamente en inglés, el idioma en que se presenta.

**Anexo de la nota verbal de fecha 8 de mayo de 2020 dirigida  
a la Presidencia del Comité por la Misión Permanente  
de Nueva Zelanda ante las Naciones Unidas**

**Informe de Nueva Zelanda sobre la aplicación de la resolución  
[1540 \(2004\)](#) del Consejo de Seguridad**

A continuación se detalla el modo en que el Gobierno de Nueva Zelanda ha seguido reforzando su aplicación de la resolución [1540 \(2004\)](#) del Consejo de Seguridad desde que presentara su informe inicial al Comité del Consejo de Seguridad establecido en virtud de la resolución [1540 \(2004\)](#), de 28 de octubre de 2004, (S/AC.44/2004/(02)/54) y los informes adicionales de fecha 11 de enero de 2006 y 11 de febrero de 2008.

**Compromisos nuevos y actualizados**

En 2014, Nueva Zelanda concertó con el Organismo Internacional de Energía Atómica (OIEA) un protocolo modificado sobre pequeñas cantidades por el que se modifica el acuerdo de salvaguardias concertado con el Organismo en 1972.

Nueva Zelanda ha aprobado una nueva ley, a saber, la Ley de Seguridad Radiológica de 2016, que sustituye a las leyes anteriores por las que se regulaban los materiales nucleares y radiactivos. La Ley dispone que ninguna persona puede fabricar, poseer, controlar, utilizar, importar, exportar o manipular fuentes de radiación o prestar servicios relacionados con esas fuentes sin autorización.

Con la Ley de Seguridad Radiológica se completó el proceso del país para aplicar en la legislación nacional la Enmienda de la Convención sobre la Protección Física de los Materiales Nucleares y el Convenio Internacional para la Represión de los Actos de Terrorismo Nuclear, instrumentos que Nueva Zelanda ratificó en 2016.

En 2017, Nueva Zelanda incluyó disposiciones en la Ley de Delitos Marítimos de 1999 que tipifican el transporte intencional de material relacionado con las armas de destrucción masiva, incluso en alta mar, así como la descarga de armas de destrucción masiva y materiales conexos desde plataformas fijas. De ese modo, Nueva Zelanda pudo ratificar el Protocolo de 2005 relativo al Convenio para la Represión de Actos Ilícitos contra la Seguridad de la Navegación Marítima y el Protocolo de 2005 relativo al Protocolo para la Represión de Actos Ilícitos contra la Seguridad de las Plataformas Fijas Emplazadas en la Plataforma Continental.

En 2018, Nueva Zelanda aprobó la Ley de Control de la Intermediación (Armas y Artículos Conexos), que establece un régimen regulatorio de las actividades de intermediación extraterritorial relacionadas, entre otros, con los artículos de doble uso que pueden utilizarse en la fabricación de armas de destrucción masiva.

En 2018, Nueva Zelanda ratificó el Tratado sobre la Prohibición de las Armas Nucleares, por el que se compromete, entre otras cosas, a no ayudar, alentar o inducir nunca, bajo ninguna circunstancia o en forma alguna, a nadie a participar en una actividad prohibida a un Estado parte en virtud del Tratado. Esas actividades prohibidas comprenden el desarrollo, ensayo, producción, fabricación, adquisición, posesión o almacenamiento de armas nucleares u otros dispositivos explosivos nucleares; el traspaso a cualquier persona de armas nucleares u otros dispositivos nucleares explosivos o del control sobre tales armas o dispositivos explosivos, sea directa o indirectamente; y el empleo o amenaza de empleo de armas nucleares u otros dispositivos explosivos nucleares. En virtud del Tratado, Nueva Zelanda también se compromete a mantener vigentes las obligaciones del OIEA en materia de

salvaguardias en el momento en que el Tratado entre en vigor, sin perjuicio de los instrumentos adicionales pertinentes que pueda adoptar en el futuro.

Nueva Zelanda ha promulgado reglamentos para aplicar las sanciones del Consejo de Seguridad relativas a las armas de destrucción masiva y sus sistemas vectores, en particular con respecto a la República Popular Democrática de Corea.

### **Otros cambios en las leyes y reglamentos**

Desde que Nueva Zelanda presentó su informe más reciente al Comité se han revisado o enmendado varias leyes y reglamentos a los que se hace referencia en ese informe. Entre ellas figuran la Ley de Aduanas e Impuestos Especiales de 2018, que moderniza la ley anterior (la Ley de Aduanas e Impuestos Especiales de 1996), y la Orden Aduanera de Prohibición de Exportaciones de 2017, que se renueva cada tres años.

En 2017, Nueva Zelanda actualizó su régimen jurídico sobre sustancias peligrosas y nuevos organismos, y aplicó una nueva distribución de la autoridad reguladora entre los organismos responsables de la protección ambiental y la seguridad ocupacional. Se han actualizado varios reglamentos establecidos en virtud de la Ley de Sustancias Peligrosas y Nuevos Organismos.

En la matriz adjunta (véase el apéndice), Nueva Zelanda señala al Comité de qué modo evalúa que sus leyes y reglamentos cumplan los requisitos de la resolución [1540 \(2004\)](#).

### **Cooperación y asistencia**

En los últimos años, Nueva Zelanda ha seguido prestando asistencia de diverso tipo a otros Estados para que puedan aplicar las disposiciones de la resolución [1540 \(2004\)](#). La asistencia brindada comprende:

- Contribuciones financieras periódicas al Fondo de Seguridad Física Nuclear del OIEA y apoyo financiero voluntario a la Organización para la Prohibición de las Armas Químicas, por medios como la financiación de una conferencia sobre seguridad química en 2017
- Asistencia financiera para programas nacionales y regionales de capacitación en seguridad nuclear, investigación forense nuclear y detección de materiales nucleares ilícitos
- Apoyo a la Alianza Mundial contra la Propagación de Armas y Materiales de Destrucción Masiva mediante contribuciones financieras a los proyectos mencionados anteriormente
- Participación en programas regionales de capacitación realizados bajo los auspicios de la Iniciativa Mundial de Lucha contra el Terrorismo Nuclear y apoyo financiero a los mismos
- Celebración de un ejercicio regional en Asia y el Pacífico en el marco de la Iniciativa de Seguridad contra la Proliferación en 2015 y contribuciones a los ejercicios anuales acogidos por otros asociados regionales de la Iniciativa
- Prestación de una amplia gama de actividades de asistencia a los países insulares del Pacífico para reforzar sus controles fronterizos y sus ordenamientos jurídicos
- Celebración de un seminario sobre la resolución [1540 \(2004\)](#) para parlamentarios de los países insulares del Pacífico en septiembre de 2019

Nueva Zelanda participa activamente en un gran número de foros internacionales de desarme y no proliferación. En lo que respecta a las iniciativas recientes relacionadas con las cuestiones tratadas en la resolución 1540 (2004), Nueva Zelanda:

- Participó en las cuatro Cumbres de Seguridad Nuclear convocadas entre 2010 y 2016 y contribuyó a las iniciativas voluntarias que se derivaron de ellas
- Copresidió la reunión entre períodos de sesiones del Foro Regional de la Asociación de Naciones de Asia Sudoriental sobre la no proliferación y el desarme de 2015 a 2017, y acogió la reunión del grupo en 2017
- Se sumó a la Alianza Internacional contra la Impunidad por el Uso de Armas Químicas en 2018
- Asumió la presidencia del Régimen de Control de la Tecnología de Misiles en 2019/20 y acogió la reunión plenaria del grupo en octubre de 2019

## **Enclosure**

### **Implementation matrix**

The information in the matrices originates primarily from national reports and is complemented by official government information, including that made available to intergovernmental organizations. The matrices are prepared under the direction of the Security Council Committee established pursuant to resolution [1540 \(2004\)](#).

The Committee intends to use the matrices as a reference tool for facilitating technical assistance and to enable the Committee to continue to enhance its dialogue with States on their implementation of Security Council resolution [1540 \(2004\)](#).

The matrices are not a tool for measuring compliance of States with their non-proliferation obligations but for facilitating the implementation of resolutions [1540 \(2004\)](#), [1673 \(2006\)](#), [1810 \(2008\)](#) and [1977 \(2011\)](#). They do not reflect or prejudice any ongoing discussions outside the Committee, in the Security Council or any of its organs of a State's compliance with its non-proliferation or any other obligations. Information on voluntary commitments is for reporting purposes only and does not constitute in any way a legal obligation arising from resolution [1540 \(2004\)](#) or its successive resolutions.

Matrix entries are only indicators of fact and not indicators of the degree of compliance under resolution [1540 \(2004\)](#) and its successor resolutions.

An “X” in any data field signifies only that the Committee considers that a State has taken the steps required and/or has provided specific references to the applicable legal basis or executive behaviour as evidence of such steps. An “X” against any data field does not necessarily signify that a State has met in full its obligations under the resolution for that data field.

A “?” in any data field signifies that the references to legislative or other measures may not be directly relevant or are incomplete.

“N/A” (not applicable) in any data field signifies that the data field is not applicable to a State that, through legally binding instruments, specified that it did not possess related materials or facilities.

A blank in any data field signifies that there is insufficient information available to enter an “X” or a “?” against a particular data field.

### **Notes**

All references are to legislation as amended and in force as at 31 October 2019.

References to particular sections of legislation indicate the primary relevant provision, but this should be read in the context of the instrument as a whole.

## Paragraph 1 and related matters from paragraphs 5, 8 (a), (b) and (c) and 10

*Adherence to legally binding instruments, membership of organizations, participation in arrangements and statements made*

*Relevant information (i.e. signing, deposit of instrument of accession, ratification, etc.)*

*Remarks (information refers to the page of the English version of the national report or an official web site)*

1	Treaty on the Non-Proliferation of Nuclear Weapons	Ratified 17 July 1969
2	Nuclear-Weapon-Free Zone/Protocol(s)	<ul style="list-style-type: none"> <li>1. South Pacific Nuclear Free Zone Treaty (Treaty of Rarotonga), ratified 11 December 1986</li> <li>2. The New Zealand Nuclear Free Zone, Disarmament and Arms Control Act establishes a nuclear-free zone in New Zealand</li> </ul>
3	Treaty on the Prohibition of Nuclear Weapons	Ratified 31 July 2018
4	International Convention for the Suppression of Acts of Nuclear Terrorism	Entry into force for New Zealand 17 April 2016
5	Convention on the Physical Protection of Nuclear Material	Entry into force 18 January 2004
6	2005 Amendment to the Convention	Entry into force for New Zealand 8 May 2016
7	Comprehensive Nuclear-Test-Ban Treaty (not in force)	Ratified 19 March 1999
8	Chemical Weapons Convention	Entry into force 29 April 1997
9	Biological Weapons Convention	Ratified 13 December 1972
10	Geneva Protocol of 1925	Deposited 24 May 1930
11	1997 International Convention for the Suppression of Terrorist Bombings	Entry into force for New Zealand 4 December 2002
12	1999 International Convention for the Suppression of the Financing of Terrorism	Entry into force for New Zealand 4 December 2002
13	2005 Protocol to the Convention for the Suppression of Unlawful Acts against the Safety of Maritime Navigation	Entry into force for New Zealand 6 June 2018
14	2005 Protocol to the Protocol for the Suppression of Unlawful Acts against the Safety of Fixed Platforms Located on the Continental Shelf	Entry into force for New Zealand 6 June 2018

*Adherence to legally binding instruments, membership of organizations, participation in arrangements and statements made*

*Relevant information (i.e. signing, deposit of instrument of accession, ratification, etc.)*

*Remarks (information refers to the page of the English version of the national report or an official web site)*

15	2010 Convention on the Suppression of Unlawful Acts Relating to International Civil Aviation	
16	Other relevant regional legally binding instruments	Waigani Convention, 1995 – ratified by New Zealand on 30 November 2000
17	International Atomic Energy Agency	Member since 13 September 1957  Safeguards agreement (small quantities protocol) (INFCIRC/185) 29 February 1972  Additional Protocol (INFCIRC/185/Add.1) 24 September 1998  Modified small quantities protocol (INFCIRC/185/Mod.1) 24 February 2014
18	Directly relevant arrangements	New Zealand participates in the following arrangements:  1. Missile Technology Control Regime 2. Nuclear Suppliers Group 3. Wassenaar Arrangement 4. Australia Group 5. Proliferation Security Initiative 6. Global Initiative to Combat Nuclear Terrorism 7. World Customs Organization Framework of Standards to Secure and Facilitate Global Trade
19	Statement on non-provision of weapons of mass destruction and related materials to non-State actors	New Zealand does not provide any support whatsoever to any entity – whether a State or non-State actor – attempting to develop, acquire, manufacture, possess, transport or use weapons of mass destruction, their means of delivery and related materials

<i>Adherence to legally binding instruments, membership of organizations, participation in arrangements and statements made</i>	<i>Relevant information (i.e. signing, deposit of instrument of accession, ratification, etc.)</i>	<i>Remarks (information refers to the page of the English version of the national report or an official web site)</i>

## Paragraphs 7 and 8 (d): assistance, work with and inform industry and the public, and other information

<i>Assistance, work with and inform industry, and other information</i>	<i>Remarks</i>
1 Assistance offered	New Zealand provides assistance to Pacific Island States to implement Security Council resolution <a href="#">1540 (2004)</a> , for example through measures to strengthen border measures and customs procedures and provide legal drafting assistance. The Parliament of New Zealand co-hosted a seminar on resolution <a href="#">1540 (2004)</a> for parliamentarians of Pacific Island States in 2019
2 Assistance point of contact (for assistance providers only)	International Security and Disarmament Division, Ministry of Foreign Affairs and Trade
3 Assistance requested	None
4 Action taken to work with and inform industry	New Zealand government agencies have a programme of outreach to companies and research institutions that engage in the export of strategic goods to raise awareness of proliferation risks and ways to mitigate them
5 Action taken to work with and inform the public	New Zealand law and regulations to implement resolution <a href="#">1540 (2004)</a> are available through government publications and websites. New Zealand positions on disarmament and non-proliferation are also publicly available
6 Point of contact	International Disarmament and Security Division, Ministry of Foreign Affairs and Trade
7 Voluntary national implementation action plan	N/A
8 Committee visits to States	N/A
