## COVERS AND TITLE-PAGES OF PUBLICATIONS

Amendment

After paragraph 3, insert the following new paragraph:

3a. The cover may also bear the name of the department, regional economic commission, major conference or other United Nations body in which the publication originated. Attribution may not normally be made on the cover to any unit of the Secretariat smaller than a department, office or regional economic commission. Such attribution shall appear on the upper part of the cover in less typographical prominence than the name "United Nations" appearing at the bottom. Where the seat of the organizational unit concerned is not New York, mention of the place name may be made after, or under, the name of the unit.
