TECHNICAL PREPARATORY COMMITTEE
FOR THE INTERNATIONAL HEALTH CONFERENCE

I. AIMS AND OBJECTIVES

The purposes of the World Health Organization should be through international collaboration and mutual assistance, and irrespective of race, creed, economic or social condition,

- (a) to improve physical and mental health in order to establish "positive health" amongst all peoples;
 - (b) to harmonize human relations as between peoples of the world, by the improvement of individual and group emotional health;
 - (c) to prevent the occurrence and control the spread of disease;
 - (d) to stimulate the development and improvement of health services, both preventative and curative, throughout the world;
 - (e) to make available to all countries information, counsel, and assistance on problems pertaining to health and medical care; and
 - (f) to raise the standard of, and increase the facilities for education, in medical and allied subjects, pertaining to health,
-
