**Admission of observers to
the fifth session of the Plenary of the Platform****List of participants in the first, second, third and fourth sessions
of the Plenary and admission of new observers to the fifth
session****Note by the secretariat**

1. At its first session, the Plenary of the Intergovernmental Science-Policy Platform for Biodiversity and Ecosystem Services (IPBES) considered a draft policy and procedures for the admission of observers, but could not reach agreement on its adoption. The Plenary decided to further consider the matter at its second session.
2. Also at its first session, the Plenary decided to use, at its second session, the interim procedure set out in paragraph 22 of the report of its first session (IPBES/1/12). There being no consensus on the draft policy and procedures for the admission of observers, the Plenary applied the same interim procedure at its third and fourth sessions and decided to also use it at its fifth session.
3. In accordance with the interim procedure, the observers represented at the first, second, third or fourth session of the Plenary will be admitted and do not need to resubmit their requests for admission. Part I of the annex to the present note sets out the list of participants in the first four sessions of the Plenary.
4. With regard to new observers, the interim procedure states that any body or organization that is qualified in matters covered by the Platform should inform the secretariat of the Platform of its wish to be represented at the fifth session of the Plenary. In accordance with the procedure, the Bureau has reviewed the list of those who expressed their wish to be represented. Part II of the annex to the present note contains a list of organizations recommended by the Bureau for admission as new observers to the fifth session of the Plenary. Part III contains a list of applications that the Bureau decided not to recommend for admission, using the information set out in paragraphs 10–13 of the draft policy and procedures for the admission of observers (IPBES/5/14).
