Комитет Совета Безопасности,
учрежденный резолюцией [1540 \(2004\)](#)

**Вербальная нота Постоянного представительства Норвегии
при Организации Объединенных Наций от 23 марта 2021 года
на имя Председателя Комитета**

Постоянное представительство Норвегии с удовлетворением препровождает настоящим обновленную национальную матрицу о выполнении резолюции [1540 \(2004\)](#) Совета Безопасности и обязанностей по нераспространению, содержащихся в резолюциях [1673 \(2006\)](#), [1810 \(2008\)](#), [1977 \(2011\)](#), [2055 \(2012\)](#) и [2325 \(2016\)](#) (см. приложение).

Приложение к вербальной ноте Постоянного представительства Норвегии при Организации Объединенных Наций от 23 марта 2021 года на имя Председателя Комитета

Доклад Норвегии об осуществлении резолюции 1540 (2004) Совета Безопасности

Норвегия с удовлетворением препровождает настоящим обновленную национальную матрицу о выполнении ею резолюции 1540 (2004) Совета Безопасности и обязанностей по нераспространению, содержащихся в резолюциях 1673 (2006), 1810 (2008), 1977 (2011), 2055 (2012) и 2325 (2016) (см. добавление)¹.

Норвегия считает, что резолюция 1540 (2004) Совета Безопасности по-прежнему является одним из жизненно важных элементов международной архитектуры нераспространения. В этой резолюции Совет установил для всех государств обязательства принимать и применять эффективные меры в целях установления национального контроля для предотвращения распространения ядерного, химического или биологического оружия и средств его доставки, в том числе посредством установления надлежащего контроля над относящимися к ним материалами. Он призвал также содействовать международному диалогу и сотрудничеству с тем, чтобы противостоять угрозе распространения.

Угроза, которая исходит от негосударственных субъектов, нарастает. Поскольку эта угроза носит транснациональный характер, для ее устранения необходимо международное сотрудничество. Мировое сообщество несет совместную ответственность за усиление и соблюдение соответствующих норм и правил в целях укрепления глобальной стабильности, безопасности и развития. Норвегия остается горячим приверженцем придания универсального характера многосторонним режимам, нацеленным на предотвращение распространения ядерного, биологического и химического оружия, таким как Договор о нераспространении ядерного оружия, Конвенция о химическом оружии и Конвенция о биологическом оружии, а также приверженцем укрепления таких режимов.

Их всестороннее соблюдение всеми государствами — членами Организации Объединенных Наций имеет решающее значение. Норвегия стремится к сотрудничеству со всеми государствами и соответствующими сторонами для наращивания усилий по обеспечению всеобщего осуществления резолюции 1540 (2004).

Со времени представления нашего доклада, содержащегося в документах S/AC.44/2004/(02)/31 и S/AC.44/2004/(02)/31/Add.1, Норвегия ратифицировала следующие международные документы:

- Поправка к Конвенции о физической защите ядерного материала
- Международная конвенция о борьбе с актами ядерного терроризма
- Протокол 2005 года к Конвенции о борьбе с незаконными актами, направленными против безопасности морского судоходства
- Протокол 2005 года к Протоколу о борьбе с незаконными актами, направленными против безопасности стационарных платформ, расположенных на континентальном шельфе

¹ В соответствии с решением Комитета Совета Безопасности, учрежденного резолюцией 1540 (2004), матрица распространяется только на том языке, на котором она была представлена, и без официального редактирования.

- Конвенция о борьбе с незаконными актами в отношении международной гражданской авиации

Обновленное общенациональное законодательство включает:

- Уголовный кодекс 2005 года (вступил в силу в 2015 году)
- Закон о национальной безопасности 2019 года
- Закон о выдаче 2012 года (Закон, касающийся ареста и передачи в Норвегию и из Норвегии лиц, совершивших уголовные преступления, на основании ордера на арест)

Добавление

Implementation matrix

The information in the matrices originates primarily from national reports and is complemented by official government information, including that made available to inter-governmental organizations. The matrices are prepared under the direction of the 1540 Committee.

The 1540 Committee intends to use the matrices as a reference tool for facilitating technical assistance and to enable the Committee to continue to enhance its dialogue with States on their implementation of Security Council Resolution 1540.

The matrices are not a tool for measuring compliance of States in their non-proliferation obligations but for facilitating the implementation of Security Council Resolutions [1540 \(2004\)](#), [1673 \(2006\)](#), [1810 \(2008\)](#), [1977 \(2011\)](#), [2055 \(2012\)](#) and [2325 \(2016\)](#). They do not reflect or prejudice any ongoing discussions outside of the Committee, in the Security Council or any of its organs, of a State's compliance with its non-proliferation or any other obligations. Information on voluntary commitments is for reporting purpose only and does not constitute in any way a legal obligation arising from resolution 1540 or its successive resolutions.

Matrix entries are only indicators of fact and not indicators of the degree of compliance under resolution [1540 \(2004\)](#) and its successor resolutions. Thus:

An "X" in any data field signifies only that the 1540 Committee considers that a State has taken the steps required, and/or has provided specific references to the applicable legal basis or executive behaviour as evidence of such steps. An "X" against any data field does not necessarily signify that a State has met in full its 1540 obligations for that data field.

A "?" in any data field signifies that the references to legislative or other measures may not be directly relevant or are incomplete.

A "NA" (Not Applicable) in any data field signifies that the data field is not applicable to that State where through legally binding instruments States specified that they do not possess related materials or facilities.

A blank in any data field signifies that there is insufficient information available to enter an "X" or "?" against a particular data field.

State:	Kingdom of Norway
