## Information furnished in conformity with the Convention on Registration of Objects Launched into Outer Space

Note verbale dated 7 July 2023 from the Permanent Mission of the Russian Federation to the United Nations (Vienna) addressed to the Secretary-General

The Permanent Mission of the Russian Federation to the United Nations (Vienna), in accordance with article IV of the Convention on Registration of Objects Launched into Outer Space (General Assembly resolution 3235 (XXIX), annex), has the honour to transmit data on space launches by the Russian Federation in June 2023 and on previously launched space objects that ceased to exist during that period (see annex).<sup>1</sup>

<sup>&</sup>lt;sup>1</sup> The data on the space objects referenced in the annex were entered into the Register of Objects Launched into Outer Space on 2 August 2023.

## Registration data on space objects launched by the Russian Federation in June 2023\*

1. In June 2023, the following space objects under the jurisdiction and control of the Russian Federation were launched:

|                                     | Name of space object, launch vehicle and place of launch   | Date of launch | Basic orbital parameters |              |                          |                     |                                  |
|-------------------------------------|--|----------------|--------------------------|--------------|--------------------------|---------------------|----------------------------------|
| Registration number of space object |  |                | Apogee<br>(km)           | Perigee (km) | Inclination<br>(degrees) | Period<br>(minutes) | General function of space object |
| 3639-2023-009                       | Meteor-M No. 2-3, launched by a Soyuz-2-1b carrier rocket with a Fregat upper stage from the Vostochny launch site | 27 June 2023   | 850.7                    | 783.8        | 98.5                     | 100.5               | Earth remote sensing             |
| 3640-2023-009                       | NORBI-2ª   | 27 June 2023   | 559.0                    | 554.0        | 97.7                     | 95.6                | Scientific applications          |

<sup>&</sup>lt;sup>a</sup> Launched by a Soyuz-2-1b carrier rocket with a Fregat upper stage from the Vostochny launch site as part of a secondary payload accompanying Earth remote sensing satellite Meteor-M No. 2-3.

- 2. In June 2023, the Russian Federation launched the following space objects on behalf of foreign clients:
  - On 27 June 2023, three PHI-DEMO satellites for technological applications (United Arab Emirates), BSUSat-2 (Belarus) and A-SEANSAT-PG1 (Malaysia) were launched by a Soyuz-2-1b carrier rocket with a Fregat upper stage from the Vostochny launch site as part of a secondary payload accompanying Earth remote sensing satellite Meteor-M No. 2-3.
- 3. As at 2400 hours Moscow time on 30 June 2023, no space objects belonging to the Russian Federation had been found to have ceased to exist in Earth orbit in June 2023.
