**Committee on the Peaceful  
Uses of Outer Space**

**Information furnished in conformity with the Convention  
on Registration of Objects Launched into Outer Space**

**Note verbale dated 1 March 2016 from the Permanent Mission of  
the Russian Federation to the United Nations (Vienna) addressed  
to the Secretary-General**

The Permanent Mission of the Russian Federation to the United Nations (Vienna), in accordance with article IV of the Convention on Registration of Objects Launched into Outer Space (General Assembly resolution 3235 (XXIX), annex), has the honour to transmit registration data on space launches by the Russian Federation in January 2016 and also on the space objects that ceased to exist during that period (see annex).

## Annex

### Registration data on space launches by the Russian Federation in January 2016\*

1. In January 2016, the Russian Federation did not launch any objects included, in accordance with established practice and its international obligations, in the register of space objects launched by the Russian Federation and over which it has control.
2. In January 2016, the Russian Federation launched the following space object on behalf of a foreign client:  
On 30 January 2016, the Eutelsat 9B telecommunications satellite (France) was launched by a Proton-M carrier rocket with a Breeze-M booster from the Baikonur launch site.
3. In January 2016, the following space object was found to have ceased to exist as at 2400 hours Moscow time on 31 January 2016:  
1984-079A (Cosmos-1586), which burned up on 6 January 2016.
