**Committee on the Peaceful
Uses of Outer Space**

**Information furnished in conformity with the Convention on
Registration of Objects Launched into Outer Space**

**Note verbale dated 30 January 2017 from the Permanent Mission of
Belarus to the United Nations (Vienna) addressed to the
Secretary-General**

The Permanent Mission of Belarus to the United Nations (Vienna), in accordance with article IV of the Convention on Registration of Objects Launched into Outer Space (General Assembly resolution 3235 (XXIX), annex), has the honour to transmit information regarding space objects BKA (international designator 2012-039B) and BELINTERSAT-1 (international designator 2016-001A) (see annex).

Annex

Registration data on space objects launched by Belarus^{*}

BKA

Information provided in conformity with the Convention on Registration of Objects Launched into Outer Space

Committee on Space Research international designator	2012-039B
Name of space object	BKA
National designator/registration number	1
State of registry	Belarus
Registration document	ST/SG/SER.E/664
Other related documents	ST/SG/SER.E/661
Date and territory or location of launch	22 July 2012 at 0641 hours 39 seconds UTC Baikonur Cosmodrome launch site 31/6, Kazakhstan
Basic orbital parameters	
Nodal period	94.9 minutes
Inclination	97.42 degrees
Apogee	529.9 kilometres
Perigee	511.1 kilometres
General function of space object	Earth remote sensing

BELINTERSAT-1

Information provided in conformity with the Convention on Registration of Objects Launched into Outer Space

Committee on Space Research international designator	2016-001A
Name of space object	BELINTERSAT-1
National designator/registration number	2
State of registry	Belarus
Date and territory or location of launch	15 January 2016 at 1657 hours 0 seconds UTC Xichang, China
Basic orbital parameters	
Nodal period	1,436 minutes

^{*} The information was submitted using the form prepared pursuant to General Assembly resolution 62/101 and has been reformatted by the Secretariat.

Inclination	±0.05 degrees
Apogee	35,786 kilometres
Perigee	35,786 kilometres
General function of space object	Commercial geostationary telecommunications satellite

Additional voluntary information for use in the Register of Objects Launched into Outer Space

Geostationary position	51.5 degrees East
Website	www.belintersat.com
Space object owner or operator	Republican Production Unitary Enterprise “Precision Electromechanics Factory” (PEMF)
Launch vehicle	Long March 3B
