## Committee on the Peaceful Uses of Outer Space

## Information furnished in conformity with the Convention on Registration of Objects Launched into Outer Space

Note verbale dated 26 November 2019 from the Permanent Mission of the Russian Federation to the United Nations (Vienna) addressed to the Secretary-General

The Permanent Mission of the Russian Federation to the United Nations (Vienna), in accordance with article IV of the Convention on Registration of Objects Launched into Outer Space (General Assembly resolution 3235 (XXIX), annex), has the honour to transmit registration data on space launches by the Russian Federation in October 2019 and on the space objects that ceased to exist during that period (see annex).

## **Annex**

## Registration data on space objects launched by the Russian Federation for October 2019\*

- In October 2019, the Russian Federation did not launch any space objects included, in accordance with established practice and its international obligations, in the register of space objects launched by the Russian Federation and over which it exercises jurisdiction and control.
- In October 2019, the Russian Federation launched the following space objects on behalf of foreign clients:
  - On 9 October 2019, the Eutelsat 5 West B telecommunications satellite (France) and the MEV-1 satellite for technological applications (United States of America) were launched by a Proton-M carrier rocket with a Breeze-M booster from the Baikonur launch site.
- The following space objects ceased to exist in October 2019 and were no longer in Earth orbit as at 2400 hours Moscow time on 31 October 2019:

2019-013A (Soyuz MS-12): descent module landed at a predetermined location with members of an International Space Station expedition on 3 October 2019;

1998-067ND (TNS-0 No. 2): burned up on 15 October 2019;

1998-067MZ (Tomsk-TPU-120): burned up on 20 October 2019.

<sup>\*</sup> The registration data are reproduced in the form in which they were received.
